HCL-HWA-ADM-102 exam dumps not only have the quality, but also have the quantity, and it's enough for you to practice. What's more, we respect the private information of the buyers, your personal information such as the name or email address will be protected well.

HCLSoftware Certified Administrator- HWA 10.2 Sample Questions (Q481-Q486):

NEW QUESTION # 481

Scenario: In a hardened HCL Workload Automation 10.2 environment, administrators need to restrict access so that only members of the "ProdAdmins" group can deploy event rules triggering critical actions, while others have read-only access to reports. Which security file configurations achieve this? (Select all that apply)

- A. USEROBJ with ACCESS=DISPLAY for REPORT on all non-admin users
- B. PLAN access=LIST with NO MODIFY for general users
- C. FOLDER=/events access=USE for ProdAdmins only
- D. ROLE definition with EVENT access=SUBMIT restricted
- E. GROUP ProdAdmins with EVENTRULE access=ADD,DELETE,MODIFY

Answer: A,C,E

Explanation:

GROUP ProdAdmins with EVENTRULE access=ADD,DELETE,MODIFY grants full management of event rules to the group. USEROBJ with ACCESS=DISPLAY for REPORT on all non-admin users limits reporting to view-only. FOLDER=/events access=USE for ProdAdmins only restricts deployment and modifications within a dedicated event folder.

NEW QUESTION # 482

HCL HWA 10.2 emergency plan extension during outage: conman "extendplan 4h" fails "Invalid time specification". Current final 18:00, extend to 22:00. Correct syntax?

- A. conman "setfinal 22:00"
- B. conman "extendplan 2200"
- C. conman "extendplan +4:00"
- D. conman "extendplan -final 22:00"

Answer: C

Explanation:

Explanation: Relative extension adds hours to current final. conman extendplan +4:00 extends 18:00 final to 22:00 allowing late jobs completion. conman planlist shows new FINAL=22:00.

NEW QUESTION # 483

Which of the following parameters are mandatory when running the twsinst script to install a new dynamic agent in HCL Workload Automation 10.2 on UNIX, assuming standard authentication?

- A. -addjruntime true
- B. -uname <username>
- C. -agent dynamic
- D. -new
- E. -acceptlicense yes

Answer: B,D,E

Explanation:

The twsinst script requires several key parameters for a fresh dynamic agent installation on UNIX. -acceptlicense yes is mandatory to accept the license agreement without prompting. -new specifies a fresh installation rather than an upgrade or other action. -uname <username> defines the HCL Workload Automation user under which the agent runs, and this user must have appropriate privileges on the installation path. -agent dynamic is optional in many contexts as dynamic is often the default, and -addjruntime true is only needed if advanced job types requiring Java are planned, making it not mandatory for basic installations.

NEW QUESTION # 484

Scenario: During production plan rollover, incomplete jobs with "carry forward" not set are lost. To ensure critical high-priority jobs always carry forward in future cycles in HCL Workload Automation 10.2, what configurations are required? (Select All that Apply)

- A. Set global carryforward = all
- B. Use planman carryforward command post-rollover
- C. Set carryforward attribute in individual job definitions
- D. Define run cycles with carry forward enabled on job streams
- E. Enable enCarryForward = yes in global options

Answer: C,D,E

Explanation:

Carry forward requires enCarryForward = yes globally, plus either the carryforward attribute on jobs or enabled in their run cycles. This ensures selective persistence of incomplete jobs into the next plan without carrying everything, which could overload processing.

NEW QUESTION # 485

Scenario: Running jobs continue after plan change, but their job stream is not carried forward. Where are they placed in the new plan?

- A. Lost, require manual rerun
- B. ORPHANEDJOBS
- C. Original job stream name with suffix
- **D. USERJOBS dedicated job stream**
- E. CARRIEDJOBS system stream

Answer: D

Explanation:

Running jobs whose job streams are not carried forward are automatically placed in a system job stream named USERJOBS in the new production plan, allowing them to complete without losing tracking.

NEW QUESTION # 486

.....

The pass rate is 98%, and we also pass guarantee if you buy HCL-HWA-ADM-102 study materials of us. We have received many good feedbacks of the HCL-HWA-ADM-102 exam dumps. You also enjoy free update for one year after your payment, and if you have any questions about the HCL-HWA-ADM-102 Exam Dumps, just ask our online service stuff, they will give a reply immediately, or you can send email to us, we will answer you as quickly as we can. Therefore, just contact us if you have the confusions about the HCL-HWA-ADM-102 study materials.
