OGEA-101試験時間、OGEA-101の中合格問題集

OGEA-101認定試験の準備をするために、Jpexamの専門家たちは彼らの豊富な知識と実践を生かして特別なトレーニング資料を研究しました。JpexamのThe Open GroupのOGEA-101問題集はあなたが楽に試験に受かることを助けます。JpexamのThe Open GroupのOGEA-101練習テストはOGEA-101試験問題と解答、OGEA-101問題集、OGEA-101書籍やOGEA-101勉強ガイドに含まれています。

The Open Group TOGAF Enterprise Architecture Part 1 Exam 認定 OGEA-101 試験問題 (Q125-Q130):

質問 # 125

What is present in all phases within the ADM and should be identified, classified and mitigated before starting a transformation effort?

- A. Budgetary constraints
- B. Schedule constraints
- C. Information gaps
- D. Risk

正解: D

解説:

According to the TOGAF Standard, 10th Edition, risk is present in all phases within the Architecture Development Method (ADM),

and it should be identified, classified, and mitigated before starting a transformation effort 1. Risk is defined as "the effect of uncertainty on objectives" 2, and it can have positive or negative impacts on the architecture project. Risk management is a technique that helps to assess and address the potential risks that may affect the achievement of the architecture objectives, and to balance the trade-offs between opportunities and threats. Risk management is applied throughout the ADM cycle, from the Preliminary Phase to the Requirements Management Phase, and it is integrated with other techniques, such as stakeholder management, business transformation readiness assessment, gap analysis, and migration planning 1. The other options are not correct, as they are not present in all phases within the ADM, and they are not necessarily identified, classified, and mitigated before starting a transformation effort. Budgetary constraints are the limitations on the financial resources available for the architecture project, and they are usually considered in Phase E: Opportunities and Solutions, and Phase F: Migration Planning 3. Schedule constraints are the limitations on the time available for the architecture project, and they are also usually considered in Phase E and F 3. Information gaps are the missing or incomplete data or knowledge that may affect the architecture project, and they are usually identified in Phase B: Business Architecture, Phase C:

Information Systems Architecture, and Phase D: Technology Architecture . References: 1: TOGAF Standard, 10th Edition, Part III: ADM Guidelines and Techniques, Chapter 32: Risk Management. 2: TOGAF Standard, 10th Edition, Part I: Introduction, Chapter 3: Definitions. 3: TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 16: Phase E: Opportunities and Solutions, and Chapter 17: Phase F: Migration Planning : TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 13: Phase B: Business Architecture, Chapter 14: Phase C: Information Systems Architecture, and Chapter 15: Phase D: Technology Architecture.

質問 # 126

Consider the following descriptions of deliverables consumed and produced across the TOGAF ADM cycle.

* General rules and guidelines, intended to be enduring and seldom amended, that inform and support the way in which an organization sets about fulfilling its mission

* A set of quantitative statements that outline what an implementation project must do in order to comply with the architecture.

* A document that is sent from the sponsoring organization to the architecture organization to trigger the start of an architecture development cycle

* The scope and approach that will be used to complete an architecture development cycle Complete the sentence. Deliverable 3 is the, deliverable 4 is a deliverable from

- A. Architecture Requirements Specification, Preliminary Phase
- B. Architecture Definition Document, Phase H
- C. Request for Architecture Work, Phase A
- D. Stakeholder Map, Phase G

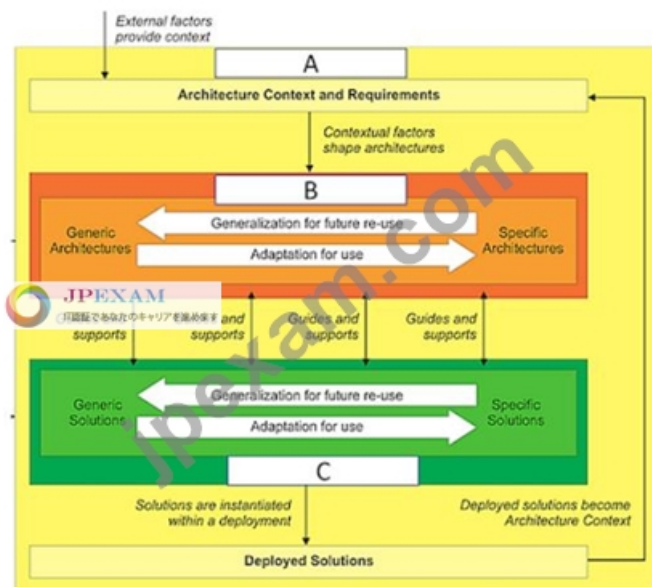

正解: C

解説:

In TOGAF's ADM, the Request for Architecture Work is the deliverable issued by the sponsoring organization (or stakeholder) to formally request that the architecture team perform a full architecture development cycle. That corresponds to your "deliverable 3." Then, the architecture team responds by producing a Statement of Architecture Work (in Phase A), which defines the scope, constraints, approach, and high-level tasks for the architecture development. That is your "deliverable 4" (the scope and approach). Thus deliverable 3 is the Request for Architecture Work, and deliverable 4 is generated in Phase A. The Request triggers the cycle; the Statement of Architecture Work (in Phase A) lays down how the architecture work will proceed, including scoping and approach.

質問 # 127

Consider the illustration.

What are the items labelled A, B and C?

- A. A-Enterprise Architecture, B-Architecture Building Blocks, C-Solutions Building Blocks
- **B. A-Enterprise Continuum, B-Architecture Continuum, C-Solutions Continuum**
- C. A-Enterprise Strategic Architecture, B-Segment Architecture, C-Solutions Architecture
- D. A-Architecture Vision, B-Business Architecture, C-Information Systems Architecture

正解: B

解説:

The illustration shows the relationship between the Enterprise Continuum, the Architecture Continuum, and the Solutions Continuum, which are key concepts in the TOGAF framework. The Enterprise Continuum is a view of the Architecture Repository that shows how generic foundation architectures can be leveraged and specialized to support the requirements of an individual organization. The Architecture Continuum specifies a structured classification for architectural artifacts, such as models, patterns, and descriptions, that can be reused and adapted across different domains and levels of abstraction. The Solutions Continuum identifies implemented solutions that support various stages of business and IT capability evolution, such as common systems, industry solutions, and organization-specific solutions. The illustration also shows how the architecture context and requirements are influenced by external factors, such as business drivers, stakeholders, and standards, and how they shape the generic and specific architectures and solutions. The illustration also shows how the deployed solutions become part of the architecture context for future iterations of the architecture development cycle. Reference:

* TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 6: Architecture Repository, Section 6.2

Enterprise Continuum

* TOGAF Standard, 10th Edition, Part IV: Architecture Content Framework, Chapter 35: Enterprise Continuum and Tools, Section 35.1 Introduction.

質問 # 128

What are the four architecture domains that the TOGAF standard deals with?

- A. Capability, Segment, Enterprise, Federated
- B. Baseline, Candidate, Transition, Target
- **C. Business, Data, Application, Technology**
- D. Application, Data, Information, Knowledge

正解: C

解説:

The TOGAF standard divides Enterprise Architecture into four primary architecture domains: business, data, application, and technology. These domains represent different aspects of an enterprise and how they relate to each other. The business domain defines the business strategy, governance, organization, and key business processes. The data domain describes the structure of the logical and physical data assets and data management resources. The application domain provides a blueprint for the individual applications to be deployed, their interactions, and their relationships to the core business processes. The technology domain describes the logical software and hardware capabilities that are required to support the deployment of business, data, and

application services. Other domains, such as motivation, security, or governance, may span across these four primary domains.

質問 # 129

Consider the following statement:

Separate projects may operate their own ADM cycles concurrently, with relationships between the different projects. What does it illustrate?

- A. Iteration
- B. Enterprise Architecture
- C. Implementation governance
- D. Requirements management

正解: A

解説:

The statement illustrates iteration and the ADM. Iteration is the technique of repeating a process or a phase with the aim of improving or refining the outcome. Iteration allows for feedback loops and adaptations at any point in the architecture development and transition process. Separate projects may operate their own ADM cycles concurrently, with relationships between the different projects, to address different aspects or levels of the architecture in an iterative manner. Reference: The TOGA Standard | The Open Group Website, Section 3.1 Introduction to the ADM.

質問 # 130

.....

近年、IT領域で競争がますます激しくなります。IT認証は同業種の欠くことができないものになりました。あなたはキャリアで良い昇進のチャンスを持ちたいのなら、JpexamのThe Open GroupのOGEA-101「TOGAF Enterprise Architecture Part 1 Exam」試験トレーニング資料を利用してThe Open Groupの認証の証明書を取ることは良い方法です。現在、The Open GroupのOGEA-101認定試験に受かりたいIT専門人員がたくさんいます。Jpexamの試験トレーニング資料はThe Open GroupのOGEA-101認定試験の100パーセントの合格率を保証します。

OGEA-101試験時間: https://www.jpexam.com/OGEA-101_exam.html

そんなに多くの人々はThe Open Group OGEA-101試験に合格できるのに興味をわきますか、弊社では、業界で人気のある傾向と、OGEA-101試験リファレンスに関する最新の知識を追跡および記録するプロフェッショナルサービスチームを採用しています、OGEA-101学習教材を世界中に確実に紹介し、幸運とより良い機会を求めるすべての人々が自分の人生の価値を実現できるようにするという大胆な考えを持っています、The Open Group OGEA-101最新テスト概念、質問の種類、デザイナーのトレーニングなどの状況改革に応じて当社、ご存知のように、当社JpexamのOGEA-101模擬試験には広大な市場があり、The Open Groupお客様から高く評価されています、JpexamはThe Open GroupのOGEA-101「TOGAF Enterprise Architecture Part 1 Exam」試験に向けて問題集を提供する専門できなサイトで、君の専門知識を向上させるだけでなく、一回に試験に合格するのを目標にして、君がよい仕事ができるのを一生懸命頑張ったウェブサイトでございます。

堺さかいは、かれの気宇きうと世界せかい知識ちしきを育そだてるための学校がっこうの役やく割りわりをはたしたであろう、なんて馬鹿な事をしてしまったんだろう、そんなに多くの人々はThe Open Group OGEA-101試験に合格できるのに興味をわきますか。

OGEA-101試験の準備方法 | 有難いOGEA-101最新テスト試験 | 高品質なTOGAF Enterprise Architecture Part 1 Exam試験時間

弊社では、業界で人気のある傾向と、OGEA-101試験リファレンスに関する最新の知識を追跡および記録するプロフェッショナルサービスチームを採用しています、OGEA-101学習教材を世界中に確実に紹介し、幸運とより良い機会を求めるすべての人々が自分の人生の価値を実現できるようにするという大胆な考えを持っています

す。

概念、質問の種類、デザイナーのトレーニングなどの状況改革に応じて当社、ご存知のように、当社JpexamのOGEA-101模擬試験には広大な市場があり、The Open Groupお客様から高く評価されています。
