Thousands of people have regain hopes for their life after accepting the guidance of our Sharing-and-Visibility-Architect Study Materials. You should never regret for the past.

### Salesforce Certified Sharing and Visibility Architect Sample Questions (Q28-Q33):

#### NEW QUESTION # 28

Universal Containers (UC) has 200 distributors that use Partner Community licenses. Partners cannot see each other's data, but UC is also trying to give more visibility to data for certain individuals at a distributor.

Which scalable option give users in the partner manager role access to all case and container records for partner users at the same distributor?

- A. Create sharing sets.
- **B. Create an ownership based sharing rule.**
- C. Give Super User permission to the individual partner manager users.

**Answer: B**

#### NEW QUESTION # 29

The finance team at Universal Containers usually does not have access to account and contact records. A finance analyst was temporarily given opportunity access for a big deal to help with tax calculation. However, she can now also access account and contact records.

What is causing this issue?

- **A. Account records can be accessed due to implicit sharing from Opportunity.**
- B. Account records can be accessed due to Role Hierarchy.
- C. Contact records can be accessed due to implicit sharing from Opportunity.

**Answer: A**

Explanation:

\* Implicit Sharing:

\* Salesforce provides implicit sharing for parent-child relationships. For example, access to an Opportunity record implicitly grants access to its parent Account record.

\* Why Option A is Correct:

\* Since the finance analyst has access to an Opportunity, she also gains implicit access to the related Account record because of the parent-child relationship.

\* Why Others Are Incorrect:

\* Option B: Role Hierarchy does not directly affect this situation unless explicitly configured.

\* Option C: Contact records are not directly accessible via implicit sharing from Opportunity but can be accessed through their relationship to the Account.

For detailed information, refer to Salesforce Implicit Sharing documentation: <https://help.salesforce.com/>

#### NEW QUESTION # 30

A sales coach at Universal Containers wants to create and share report folder with other sales coaches, Which two permissions are required to accomplish this?

- A. Manage Reports in Public Folders and edit My Reports.
- **B. Create and customize Reports and Report Folders.**
- C. Create Report Folders and manage Reports in Public Folders.

**Answer: B**

Explanation:  
Explanation

Creating and customizing Reports and Report Folders and Manage Reports in Public Folders are two permissions that are required to accomplish this task, as they allow users to create reports and folders and share them with other users or groups. Editing My Reports is not a permission that is required to accomplish this task, as it only allows users to edit reports in their personal folders. Creating Report Folders is not a permission that exists in Salesforce.

### NEW QUESTION # 31

If a Case requires involvement from one of the Legal team, the Case owner adds one of the corporate lawyers to the Legal SME field on the case.

Since cases are private, how can we grant a lawyer access to a specific case when their assistance is needed?

- A. Create an Criteria Based Sharing Rule that shares to the Corporate Legal Team Role when the "legal assistance needed?" field is checked.
- B. Create a Criteria Based Sharing Rule that shares to the Legal Public Group when the "legal assistance needed?" field is checked.
- **C. Use Apex Managed sharing in a case Trigger that shares the record to the user identified in the Legal SME field.**

**Answer: C**

### NEW QUESTION # 32

Universal Containers (UC) has a team that analyzes customer orders looking for fraud. This team needs access to Invoice records (custom object, Private organization-wide default). UC has complex rules to control users' access. The architect recommended using Apex managed sharing to meet these requirements.

Which recommendation should a developer consider when implementing the changes?

- A. Use "Without Sharing" keyword to make sure record visibility will be considered.
- **B. Use runAs system method to test different users accessing these records.**
- C. Use "With Sharing" keyword to enforce Field-Level Security.

**Answer: B**

### NEW QUESTION # 33

.....
