## Valid SC-401 Exam Forum - Pass Guaranteed 2026 SC-401: Administering Information Security in Microsoft 365 First-grade PDF

Comparing to other training institution, our valid SC-401 vce dumps are affordable, latest and cost-effective, which can overcome the difficulty of valid SC-401 Actual Test and ensure you pass the exam. It can not only save your time and money, but also help you clear Microsoft practice exam with high rate.

## Microsoft Administering Information Security in Microsoft 365 Sample Questions (Q121-Q126):

### NEW QUESTION # 121

You have a Microsoft 365 E5 subscription that contains the users shown in the following table.

Which users will Microsoft Purview insider risk management flag as potential high-impact users?

- A. User2 and User3 only
- B. User1, User2, and User3 only
- C. User1, User2, User3, and User4
- D. User1 and User2 only

**Answer: C**

Explanation:

Microsoft Purview Insider Risk Management flags high-impact users based on various risk factors, including role, access to confidential data, and influence within an organization. Let's analyze each user:

User1 (Regional Manager, assigned Reader role, manages department managers) Risk Factors:

\*Holds a managerial position (regional manager).

\*Manages multiple department managers, indicating organizational influence.

\*Access to critical business information.

Flagged? -Yes (Managerial role and access to confidential data).

User2 (HR department manager, no Microsoft Entra roles, manages HR department users) Risk Factors:

\*Manages HR department users, meaning they likely handle sensitive employee data.

\*HR roles are often considered high-risk due to access to personal and payroll data.

Flagged? -Yes (HR role and access to sensitive employee data).

User3 (Developer, reports to User2, only user in compliance, assigned Compliance Administrator role) Risk Factors:

\*Compliance Administrator role grants access to sensitive security and regulatory data.

\*Only person in the compliance department, meaning they hold a critical role.

\*Potentially high impact on compliance and security settings.

Flagged? -Yes (Privileged Compliance Administrator role).

User4 (Assistant to User1, no Entra roles, handles confidential data on behalf of User1) Risk Factors:

\*Handles a high volume of confidential data on behalf of a regional manager.

\*Assistants with access to sensitive data are considered insider risk candidates.

Flagged? -Yes (High access to sensitive information).

Since all four users fit high-impact criteria (managerial roles, privileged compliance access, handling sensitive data), Microsoft Purview Insider Risk Management will flag all of them.

### NEW QUESTION # 122

You have a Microsoft 365 ES subscription that contains the devices shown in the following table.

☐ You plan to implement inside' risk management and capture forensic evidence Which devices support the collection of forensic evidence, and what should you do to prepare each supported device? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

**Answer:**

Explanation:

☐ Explanation:

☐

### NEW QUESTION # 123

You have a Microsoft J65 ES subscription.

You need to create a Microsoft Defender for Cloud Apps policy that will detect data loss prevention (DLP) violations. What should you create?

- **A. a file policy**
- B. a session policy
- C. an access policy
- D. an activity policy

**Answer: A**

### NEW QUESTION # 124

Hotspot Question

You have a Microsoft 365 E5 tenant that contains a trainable classifier named Classifier1.

You need to increase the accuracy of Classifier1. The solution must use the principle of least privilege.

Which feature should you use and to which role group should you be added? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

☐

**Answer:**

Explanation:

☐ Explanation:

Box 1: Content Explorer

Increase classifier accuracy

Classifiers, like sensitive information types (SIT) and trainable classifiers are used in various kinds of policies to identify sensitive information. Like most such models, sometimes they identify an item as being sensitive that isn't. Or, they may not identify an item as being sensitive when it actually is. These are called false positives and false negatives.

Box 2: Compliance data administrator

Permissions

In order to get access to the content explorer tab, an account must be assigned membership in any one of these roles or role groups.

Microsoft 365 role groups

Global administrator  
Compliance administrator  
Security administrator  
\*-> Compliance data administrator

## NEW QUESTION # 125

### HOTSPOT

You have a Microsoft 365 subscription.

You plan to deploy an audit log retention policy.

You need to perform a search to validate whether the policy will be applied to the intended entries.

Which two fields should you configure for the search? To answer, select the appropriate fields in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

To validate whether an audit log retention policy will apply to the intended entries, you should configure the following fields:

# Date and time range (UTC) ensures that you are searching for audit logs within the time period when the policy should be applied.

Audit logs are time-sensitive, and policies affect logs based on their timestamp.

# Record types allows you to filter and search for specific audit log categories (e.g., Exchange, SharePoint, Teams, etc.) that are affected by the retention policy. Selecting the correct record type ensures that the policy is evaluated against the relevant data.

## NEW QUESTION # 126

.....

BraindumpsVCE SC-401 exam certification training materials is not only the foundation for you to success, but also can help you play a more effective role in the IT industry. With efforts for years, the passing rate of BraindumpsVCE SC-401 Certification Exam has reached as high as 100%. If you failed SC-401 exam with our SC-401 exam dumps, we will give a full refund unconditionally
