Our CPRE-FL\_Syll\_3.0 training materials are your excellent choices, especially helpful for those who want to pass the CPRE-FL\_Syll\_3.0 Exam without bountiful time and eager to get through it successfully. Besides that, our CPRE-FL\_Syll\_3.0 study questions have three versions: PDF version, Soft version and APP version, which can be interesting and helpful for you to choose.

## ISQI IREB Certified Professional for Requirements Engineering, Foundation Level Sample Questions (Q41-Q46):

### NEW QUESTION # 41

Which of the following items are NOT major sources for requirements?

- A. Regulations
- B. Other systems
- C. Brainstorming
- D. Documents

**Answer: A,C**

**NEW QUESTION # 42**

Choose the right sentence regarding glossaries.

- **A. All the other options are wrong**
- B. A good glossary should contain all items relevant for the system, but not everyday terms.
- C. The usage of a glossary should be elective.
- D. The glossary should be managed and maintained in a decentralised manner.

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The handbook advises that a glossary be centrally managed by an identified owner or small team to ensure consistency and controlled updates; decentralised ownership easily leads to divergence, so A is wrong. To realize its benefits, glossary use must be mandatory-documents should be checked against it-so B is incorrect. Everyday words that receive a special meaning in the project (e.g., "customer", "case") must be included, so C also fails. Therefore, the only correct choice is that all other statements are wrong.

**NEW QUESTION # 43**

In order to document a door system for a underground railway system, the following activity diagram has been modelled. You reconcile this diagram with your notes. Which two of the following notes were not represented in the diagram? (1 Point) Your notes:

- **A. Double pressing of the door button countermands the currently running action.**
- B. If the door is open, it is subsequently closed.
- C. If the door is closed, it is subsequently opened.
- D. The tread is pulled in once the door is closed.
- **E. The light-emitting diode is deactivated at the end of the process.**

**Answer: A,E**

**NEW QUESTION # 44**

A requirement is verifiable if..

- **A. it is possible to determine whether the implementation fulfills the requirement.**
- B. all stakeholders interpret it in the same way, leaving no room for multiple interpretations.
- C. it is self-contained, providing all the necessary information for its understanding, implementation, and verification.
- D. it reflects the genuine and agreed-upon needs of the stakeholders.

**Answer: A**

**NEW QUESTION # 45**

Which of the following are considered to be obstacles of shared understanding of requirements?

- **A. Outsourcing**
- B. Reference system known by people involved
- C. Domain-specific standards
- D. Informed mutual trust
- **E. Regulatory constraints**

**Answer: A,E**

**NEW QUESTION # 46**

.....
