For complete, comprehensive, and instant SAP Certified Associate - Positioning SAP Business Transformation Management Solutions C\_BCBTM\_2509 exam preparation, the SAP C\_BCBTM\_2509 Exam Questions are the right choice. Fast2test offers reliable new exam format, exam dumps demo and valid exam online help customers pass the SAP Certified Associate - Positioning SAP Business Transformation Management Solutions C\_BCBTM\_2509 easily.

### SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q10-Q15):

#### NEW QUESTION # 10

What unique technology powers WalkMe's AI-first Digital Adoption Platform (DAP), enabling it to understand application context and drive adoption success?

- A. FedRAMP Certified Platform
- B. Library of Pre-Made Content
- C. SAP Ecosystem Integration
- D. DeepUI Technology

#### Answer: D

Explanation:

DeepUI Technology is the core AI capability within WalkMe's Digital Adoption Platform (DAP). It enables the platform to understand, interpret, and interact with user interfaces dynamically without requiring code-level integration.

"WalkMe's DeepUITM technology leverages AI to recognize and interact with any user interface element, allowing context-aware guidance and automation across applications." Reference:

Within SAP's BTM context, DeepUI allows WalkMe to seamlessly overlay SAP applications, providing real-time assistance and ensuring users complete digital processes correctly - a core aspect of digital adoption enablement.

"DeepUI powers WalkMe's AI-first approach, enabling contextual understanding of SAP Fiori, S/4HANA, and other applications for consistent adoption experiences." Option B (SAP Ecosystem Integration) describes compatibility, not the underlying AI engine. Option C (Library of Pre-Made Content) is a feature, not a technology.

Option D (FedRAMP Certified Platform) refers to compliance for U.S. federal systems, not functionality.

Therefore, the verified and accurate answer based on SAP BTM and WalkMe documentation is A: DeepUI Technology.

#### NEW QUESTION # 11

How can organizations leverage SAP Business Transformation Management solutions to address challenges in a transformation?

- A. By avoiding collaboration with stakeholders and external experts.
- B. By limiting communication and feedback channels within the organization.
- C. By providing limited transparency and access to relevant process data.
- D. By offering tailored recommendations and leveraging data-driven insights for process improvement.

#### Answer: D

Explanation:

SAP Business Transformation Management (BTM) Solutions - including SAP Signavio, SAP LeanIX, and WalkMe - are built to tackle transformation challenges by providing data-driven insights, personalized recommendations, and collaboration tools.

"SAP BTM solutions enable organizations to leverage analytics, benchmarking, and AI-driven recommendations to overcome transformation challenges and improve process performance." Reference:

These tools help organizations identify inefficiencies, model target states, and manage change efficiently. They also enable data transparency across business processes and IT systems, supporting faster, evidence-based decisions.

"By combining data-driven insights with tailored recommendations, SAP BTM helps organizations continuously improve their transformation outcomes." Incorrect Options:

A, B, and C describe obstacles that BTM solutions are designed to eliminate - not promote.

Verified Correct answer: D: By offering tailored recommendations and leveraging data-driven insights

## NEW QUESTION # 12

What are the core solutions provided by SAP LeanIX?

(Note: There are 2 correct answers to this question.)

- A. Technology Risk and Compliance
- B. SAP Commerce Cloud
- C. SAP Signavio Journey Modeler
- D. Enterprise Architecture Management

**Answer: A,D**

Explanation:

SAP LeanIX is an integral part of SAP's Business Transformation Management (BTM) portfolio. It provides visibility and control over an organization's IT landscape, supporting enterprise architecture, technology risk management, and transformation planning. "SAP LeanIX delivers comprehensive Enterprise Architecture Management (EAM) and Technology Risk and Compliance capabilities that enable organizations to align IT with business goals and manage technology landscapes efficiently." Reference: Enterprise Architecture Management (Answer B):

This solution allows organizations to document, visualize, and analyze their application and technology landscape to support informed decision-making during transformation.

"With Enterprise Architecture Management, customers gain transparency into their application portfolios, dependencies, and business capabilities to optimize transformation efforts." Technology Risk and Compliance (Answer D):

This module helps identify and mitigate technology-related risks, ensuring compliance with internal and external standards while maintaining operational resilience.

"Technology Risk and Compliance enables continuous monitoring of technology standards, risks, and compliance requirements to maintain stability during business transformation." Incorrect Options:

A (SAP Signavio Journey Modeler) belongs to the SAP Signavio suite, not LeanIX.

C (SAP Commerce Cloud) is part of SAP Customer Experience (CX) solutions, unrelated to LeanIX's transformation and architecture management focus.

Therefore, the correct and verified answers from SAP BTM documentation are:

B: Enterprise Architecture Management

D: Technology Risk and Compliance

## NEW QUESTION # 13

How does SAP Signavio Process Manager help with business transformations?

- A. By allowing organizations to model processes.
- B. By generating automated financial reports for management.
- C. By eliminating the need for human oversight in process execution.
- D. By replacing existing ERP systems with a new workflow engine.

**Answer: A**

Explanation:

SAP Signavio Process Manager is the core process modeling and design component of the SAP Signavio Business Transformation Suite. It allows organizations to visualize, document, and optimize processes as part of transformation initiatives.

"SAP Signavio Process Manager enables organizations to model, analyze, and document business processes in a collaborative environment to support transformation and continuous improvement." Reference:

Through its BPMN 2.0-based process modeling, businesses can capture current (as-is) processes, simulate new (to-be) designs, and align stakeholders for change management.

"Organizations use Process Manager to design and optimize processes before implementation in ERP systems, ensuring standardization and efficiency." Incorrect Options:

A: It does not remove human oversight; it supports collaboration and governance.

C: It does not replace ERP systems but complements them by providing modeling and process documentation.

D: Financial reporting is handled by ERP systems, not Signavio.

Verified Correct answer: B: By allowing organizations to model processes.

## NEW QUESTION # 14

What makes SAP Signavio and SAP LeanIX a powerful combination?

(Note: There are 2 correct answers to this question.)

- A. We can reduce the time for financial reporting by 70% on average.
- B. We can help our customers lay off 20 to 30 percent of their workforce and therefore reduce costs tremendously.
- C. They help our customers understand the important aspects of a transformation: processes, people, systems, and applications.
- D. Both solutions focus on transforming businesses from a current state to a future state.

**Answer: C,D**

## NEW QUESTION # 15

Our C\_BCBTM\_2509 exam questions can assure you that you will pass the C\_BCBTM\_2509 exam as well as getting the related certification under the guidance of our C\_BCBTM\_2509 study materials as easy as pie. Firstly, the pass rate among our customers has reached as high as 98% to 100%, which marks the highest pass rate in the field. Secondly, you can get our C\_BCBTM\_2509 Practice Test only in 5 to 10 minutes after payment, which enables you to devote yourself to study as soon as possible.
