NEW QUESTION # 324

A new employee must be granted access to add VLANs into an existing Cisco UCS Manager and configure NTP synchronization with date and time zone settings. Which two privileges must be granted to the employee to complete the task? (Choose two.)

- A. Service Profile Compute (Is-compute)
- B. Service Profile Network Policy (Is-network-policy)
- C. Service Profile Config (Is-config)
- D. Ext LAN Policy (ext-lan-policy)
- E. Ext LAN Config (ext-lan-security)

Answer: D,E

Explanation:

https://www.cisco.com/c/en/us/td/docs/unified_computing/ucs/ucs-manager/Reference-Docs/Privileges/4-1/b-UCSM-Privileges-4_1.pdf NTP can be configured only with EXT LAN Security.

VLAN can be added using the following privileges:

- Ext Lan Config (ext-lan-config)
- Ext Lan Policy (ext-lan-policy)

service profiles will add VLANs to vNICs only if they are configured to UCS manager. So service profile is not valid solution.

NEW QUESTION # 326

An engineer needs to connect Cisco UCS Manager to an external storage array. Due to budget limitations, the engineer must connect a Cisco UCS manager directly to an FC storage port. Which two actions must be taken to complete this connection? (Choose two)

- A. Create the required VSAN in the SAN cloud
- B. Set FC zoning to disabled when creating the VSAN
- C. Create a storage connection policy
- D. Configure the fabric interconnect in FC switch mode
- E. Configure the fabric interconnect in end host mode

Answer: A,D

Explanation:

To connect Cisco UCS Manager directly to an FC storage port, the fabric interconnect must be configured in FC switch mode, which allows it to manage Fibre Channel traffic and zoning. Additionally, creating the required VSAN in the SAN cloud is necessary to define a virtual storage area network that can be associated with the storage ports on the fabric interconnect.

References: Detailed steps for these actions can be found in the Cisco documentation, which outlines the process of configuring direct attached storage and FC zoning with Cisco UCS Manager
