And BraindumpsVCE provides 365 days updates.

Microsoft Power Platform Functional Consultant Sample Questions (Q241-Q246):

NEW QUESTION # 241

You create a new independent software vendor (ISV) solution for a Power Apps app.

The Power Apps solution will be imported into multiple customer environments. The environments will have a large variety of solutions and publishers.

You need to avoid naming conflicts during solution import.

Which element should you configure?

- A. Package type
- **B. Prefix**
- C. Marketplace
- D. Configuration page
- E. Version

Answer: B

Explanation:

A solution publisher includes a prefix. The publisher prefix is a mechanism to help avoid naming collisions. This allows for solutions from different publishers to be installed in an environment with few conflicts. For example, the Contoso solution displayed here includes a solution publisher prefix of contoso.

NEW QUESTION # 242

You are creating a business process flow for a Power Apps app.

The business process flow must meet the following requirements:

* Must be available offline.

* Send an email to the team when a record is created.

You need to set up business process flow.

What should you do? To answer, select the appropriate options in the answer area.

Each correct selection is worth one point

Answer:

Explanation:

Explanation

Graphical user interface, text, application Description automatically generated

NEW QUESTION # 243

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company uses Dataverse.

The company plans to store and manage documents and data in the environment. The company requires a solution that minimizes Dataverse storage consumption.

You need to recommend a solution.

Solution: Configure SharePoint Online integration.

Does the solution meet the goal?

- A. No
- **B. Yes**

Answer: B

Explanation:

Integrating SharePoint Online with Dataverse is an effective way to store and manage documents while minimizing Dataverse storage consumption. Dataverse storage is expensive, and storing documents in SharePoint instead of directly in Dataverse significantly reduces storage usage and costs. SharePoint provides document management features, including version control and metadata, making it the preferred solution for handling files in Power Platform solutions.

NEW QUESTION # 244

You are a Dynamics 365 for Customer Service developer.

You must trigger a mobile notification whenever a specific hashtag is posted from Twitter. The notification will send email to the company's social media teams distribution list.

You need to create a connection to the Twitter service and build a solution.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

□ Explanation

NEW QUESTION # 245

A company has a sales application that is supported by an Azure SQL database. You are developing a Power Apps app for use by customer service agents.

The app must reference customer data from the sales application. Data in the sales application is constantly changing and must not be replicated in Microsoft Dataverse. Some customer data is considered sensitive. You must protect data for specific fields when users view data in the app.

You need to configure table creation for the app.

How should you configure the app? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

□

NEW QUESTION # 246

.....
