Accurate GH-100 Study Material & GH-100 Valid Real Exam

For candidates who will buy the GH-100 learning materials online, they may pay more attention to the safety of their money. We adopt international recognition third party for your payment for the GH-100 exam braindumps, and the third party will protect interests of yours, therefore you don't have to worry about the safety of your money and account. In addition, GH-100 Learning Materials of us are famous for high-quality, and we have received many good feedbacks from buyers, and they thank us for helping them pass and get the certificate successfully.

Microsoft GH-100 Exam Syllabus Topics:

Topic	Details
Topic 1	• Manage GitHub Actions: This section of the exam measures skills of DevOps Engineers and emphasizes managing workflows, reusable actions, and distribution strategies within the enterprise. It explains configuring organization-level policies, managing self-hosted and GitHub-hosted runners, controlling access through IP allow lists, handling encrypted secrets, and integrating third-party vaults for workflow security.
Topic 2	• Describe how GitHub is deployed, distributed, and licensed: This section of the exam measures skills of GitHub Enterprise Administrators and highlights the deployment models of GitHub Enterprise Server, Enterprise Cloud, and GitHub AE. It covers licensing structures, billing for seat licenses and metered services, support options, and monitoring license usage across users and machine accounts.
Topic 3	• Manage user identities and GitHub authentication: This section of the exam measures skills of DevOps Engineers and focuses on managing authentication and identity across organizations using SAML SSO, SCIM, and team synchronization. Candidates need to understand identity providers, user membership implications, authorization models, and enforcing security measures such as two-factor authentication.

Topic 4	• Support GitHub Enterprise for users and key stakeholders: This section of the exam measures skills of GitHub Enterprise Administrators and covers supporting users, identifying issues that can be resolved internally versus those needing GitHub Support, and generating support bundles and diagnostics. It also involves recognizing underutilized features, managing workflows like branching and pull requests, understanding CI • CD strategies, recommending tooling, and extending capabilities through APIs or Marketplace apps.

Free PDF Quiz 2026 Microsoft GH-100: GitHub Administration Pass-Sure Accurate Study Material

Now we can say that GitHub Administration (GH-100) exam questions are real and top-notch Microsoft GH-100 exam questions that you can expect in the upcoming Microsoft GH-100 exam. In this way, you can easily pass the GitHub Administration (GH-100) exam with good scores. The countless GH-100 Exam candidates have passed their dream Microsoft GH-100 certification exam and they all got help from real, valid, and updated GH-100 practice questions, You can also trust on 2Pass4sure and start preparation with confidence.

Microsoft GitHub Administration Sample Questions (Q44-Q49):

NEW QUESTION # 44
Which Git operation is not included in the Git activity audit log?

- A. Clone
- B. Push
- C. Delete branch
- D. Fetch

Answer: C

Explanation:
Delete branch operations aren't tracked as Git-activity events; the Git activity audit log only records Git events such as clone, fetch (pull), and push.

NEW QUESTION # 45
What is the potential consequence of enabling multiple rulesets that apply to the same branch in a repository?

- A. All applicable rulesets will be evaluated, and their combined rules enforced
- B. Only the most recently created ruleset will be enforced
- C. Rulesets will override each other, leading to unpredictable behavior
- D. Only organization-level rulesets are enforced over repository-level ones

Answer: A

Explanation:
If you enable multiple rulesets that target the same branch, GitHub will evaluateevery matching ruleset and enforce the aggregate of their rules - so all constraints from all applicable rulesets apply.

NEW QUESTION # 46
Your organization is implementing team synchronization. Which of the following should you prioritize during the setup process?

- A. Clearly define how identity provider groups will align with GitHub teams and roles
- B. Allowing manual updates to team memberships
- C. Setting an infrequent sync schedule to reduce performance impact
- D. Disabling the audit log stream

Answer: A

Explanation:
Before you enable team synchronization, you should clearly define how groups in your identity provider will map to GitHub teams and roles - ensuring that when the sync runs, users land in the correct teams with the right permissions.

NEW QUESTION # 47
Which of the following is a key benefit of setting default read permissions across organizations?

- A. Enhances security by minimizing unintended modifications.
- B. Improves collaboration by allowing users to modify content directly.
- C. Suits environments where all users need write access.
- D. Increases efficiency in content creation and updates.

Answer: A

Explanation:
Enforcing a default of Read for organization members ensures they can view content without the ability to push changes, reducing the risk of accidental or unauthorized modifications.

NEW QUESTION # 48
You need to contact GitHub Premium Support. What are valid reasons for submitting a support ticket? (Each answer presents a complete solution. Choose two.)

- A. hardware setup issues or errors
- B. business impact from security issues within your organization
- C. license renewal
- D. outages on GitHub.com affecting core Git functionality

Answer: B,D

Explanation:
Business-impact security issues (for example, a critical vulnerability affecting your organization) are classified as High-priority tickets and are covered under your Premium Support SLA.
Outages on GitHub.com that disrupt core Git or web application functionality trigger Urgent-priority responses under Premium Support's SLA.

NEW QUESTION # 49
.....

2Pass4sure keeps an eye on changes in the Microsoft GitHub Administration exam syllabus and updates Microsoft GH-100 exam dumps accordingly to make sure they are relevant to the latest exam topics.
