## MikroTik MTCNA Reliable Test Voucher | Latest MTCNA Learning Materials

In this high-speed world, a waste of time is equal to a waste of money. As an electronic product, our MTCNA real study dumps have the distinct advantage of fast delivery. On one hand, we adopt a reasonable price for you, ensures people whoever is rich or poor would have the equal access to buy our useful MTCNA real study dumps. On the other hand, we provide you the responsible

24/7 service. Our candidates might meet so problems during purchasing and using our MTCNA Prep Guide, you can contact with us through the email, and we will give you respond and solution as quick as possible. With the commitment of helping candidates to pass MTCNA exam, we have won wide approvals by our clients. We always take our candidates' benefits as the priority, so you can trust us without any hesitation.

MikroTik MTCNA (MikroTik Certified Network Associate) exam is a certification that validates the skills and knowledge of individuals in the field of computer networking. MTCNA exam is focused on the basics of MikroTik RouterOS software, which is a popular operating system used in network routers and switches. The MTCNA Certification is designed to equip individuals with the necessary skills to configure, manage and troubleshoot networks that are based on MikroTik RouterOS software.

## **MikroTik Certified Network Associate Exam Sample Questions (Q71-Q76):**

### **NEW QUESTION # 71**

MAC layer by OSI model is also known as

- **A. Layer 2**
- B. Layer 7
- C. Layer 3
- D. Layer 6
- E. Layer 1

**Answer: A**

### **NEW QUESTION # 72**

Which wireless mode allows you to connect to any standard AP (not only MikroTik) and to be able to bridge this wireless interface to an Ethernet?

- **A. station**
- B. station-pseudobridge
- C. bridge
- D. station-wds

**Answer: A**

### **NEW QUESTION # 73**

In a network with dozens of switches, how many root bridges would you have?

- **A. 0**
- B. 1
- C. 2
- D. 3

**Answer: A**

Explanation:

Spanning Tree Protocol (STP) is used in Ethernet switching environments to prevent loops. In any STP domain, only one switch is elected as the root bridge. All other switches determine the shortest path to this root bridge and may block redundant paths.

MTCNA Course Material - STP Basics:

"STP ensures a loop-free topology by electing a single root bridge. All path calculations are made from the root bridge's perspective." Rene Meneses MTCNA Study Guide - STP and Loop Prevention:

"Only one root bridge exists per STP domain. Switches use BPDU messages to elect it based on bridge ID priority." No matter how many switches exist (2, 10, or 50), only one root bridge is present at any time.

### **NEW QUESTION # 74**

DHCP server is configured on a router's ether1 interface. IP address 192.168.0.100/24 is assigned to the interface. Possible IP pools, that can be used by this DHCP server, are:

- A. 192.168.0.1-192.168.0.255
- B. 192.169.0.1-192.169.0.254
- C. 192.168.0.1-192.168.0.14
- D. 192.168.0.1-192.168.0.99, 192.168.0.101-192.168.0.254

**Answer: D**

Explanation:

The router's interface IP is 192.168.0.100/24 # which belongs to the subnet 192.168.0.0-192.168.0.255.

However, 192.168.0.100 is already assigned to the router. So, this IP must be excluded from the DHCP pool to avoid conflicts.

\* C offers two valid ranges excluding .100# 192.168.0.1-192.168.0.99# 192.168.0.101-192.168.0.254 Let's evaluate other options:

\* A. 192.168.0.1-192.168.0.255 ##Includes broadcast (.255) and router IP (.100) # Invalid

\* B. 192.169.0.1-192.169.0.254 ##Completely wrong subnet

\* D. 192.168.0.1-192.168.0.14 ##Valid but unnecessarily small

MTCNA DHCP Chapter - Address Pools:

"Make sure the pool does not include the router's IP or the network's broadcast address. Common errors involve overlapping pools." Rene Meneses MTCNA Guide - DHCP Configuration:

"Exclude the router's own IP from the range. Use address pools below and above the assigned IP." Terry Combs Notes - DHCP Pool Tips:

"Split the pool to avoid assigning the interface IP to clients. Also avoid .0 and .255."

## NEW QUESTION # 75

What wireless card can we use to achieve 100 Mbps actual wireless throughput?

- A. 802.11 b/g
- B. 802.11 a/b/g/n
- C. 802.11 a/b/g
- D. 802.11 a/n
- E. 802.11 a

**Answer: A**

## NEW QUESTION # 76

.....

As is known to us, the high pass rate is a reflection of the high quality of MTCNA study torrent. The more people passed their exam, the better the study materials are. There are more than 98 percent that passed their exam, and these people both used our MTCNA test torrent. There is no doubt that our MikroTik Certified Network Associate Exam guide torrent has a higher pass rate than other study materials. We deeply know that the high pass rate is so important for all people, so we have been trying our best to improve our pass rate all the time. Now our pass rate has reached 99 percent. If you choose our MTCNA study torrent as your study tool and learn it carefully, you will find that it will be very soon for you to get the MikroTik Certified Network Associate Exam certification in a short time. Do not hesitate and buy our MTCNA test torrent, it will be very helpful for you.
