

# **NIOS-DDI-Expert Latest Test Question | Valid Braindumps NIOS-DDI-Expert Book**

BONUS!!! Download part of TestKingFree NIOS-DDI-Expert dumps for free: [https://drive.google.com/open?id=1\\_jORVCsmVyQ4bc-gjV8AgpdBCNXrZpK](https://drive.google.com/open?id=1_jORVCsmVyQ4bc-gjV8AgpdBCNXrZpK)

You will not only get familiar with the Infoblox Qualified NIOS DDI Expert - INE (NIOS-DDI-Expert) exam environment but also enhance your time management skills which will be quite helpful in the final NIOS-DDI-Expert certification exam. The NIOS-DDI-Expert desktop practice test software will install on your Windows-based computer and laptop. Very easy to install and provide a user-friendly interface to NIOS-DDI-Expert Exam candidates. Whereas the NIOS-DDI-Expert web-based practice test software is concerned, it is a browser-based application that works with all the latest browsers.

Our company is responsible for our Infoblox Qualified NIOS DDI Expert - INE exam cram. Every product we have sold to customer will enjoy considerate after-sales service. If you have problems about our NIOS-DDI-Expert test guide such as installation, operation and so on, we will quickly reply to you after our online workers have received your emails. We are not afraid of troubles. We warmly welcome to your questions and suggestions. Now that you have spent money on our NIOS-DDI-Expert Exam Questions, we have the obligation to ensure your comfortable learning. We do not have hot lines. So you are advised to send your emails to our email address. In case you send it to others' email inbox, please check the address carefully before. The after-sales service of our NIOS-DDI-Expert exam questions can stand the test of practice. Once you trust our products, you also can enjoy such good service.

## **Valid Braindumps NIOS-DDI-Expert Book | Reliable NIOS-DDI-Expert Test Sims**

Our valid NIOS-DDI-Expert exam dumps will provide you with free dumps demo with accurate answers that based on the real exam. These NIOS-DDI-Expert real questions and answers contain the latest knowledge points and the requirement of the certification exam. High quality and accurate of NIOS-DDI-Expert Pass Guide will be 100% guarantee to clear your test and get the certification with less time and effort.

## **Infoblox Qualified NIOS DDI Expert - INE Sample Questions (Q66-Q71):**

## NEW QUESTION # 66

A Grid member in a DHCP Failover pair is in the PARTNER-DOWN state. What does this mean?

- A. An administrator put the member in this state to indicate the member is down and the member's peer will take over
- B. The member has lost contact with its peer
- C. This member is malfunctioning and the member's peer must take over assignments
- D. An administrator put the member in this state to indicate the member's peer is down

**Answer: D**

Explanation:

Comprehensive and Detailed In-Depth Explanation:PARTNER-DOWN in DHCP Failover:

\* B:Admin manually sets this state (Grid > DHCP > Failover > Edit) to signal the peer is down (e.g., powered off), giving the member full pool control. Correct.

\* A:Loss of contact is COMMUNICATIONS-INTERRUPTED-PARTNER-DOWN is deliberate.

Incorrect.

\* C:Indicates the member is down-opposite of intent. Incorrect.

\* D:Malfunction implies automatic state-PARTNER-DOWN is manual. Incorrect.

\* Practical Example:In an INE lab, set PARTNER-DOWN, verify full lease control, and troubleshoot sync

resumption.References:Infoblox NIOS Administrator Guide - DHCP Failover States; INE Course Content: NIOS DDI DHCP Troubleshooting.

## NEW QUESTION # 67

What can an administrator do with an Option Filter in NIOS?

- A. Match only on device types
- B. Match on any DHCP options provided by the client
- C. Match only vendor-specific options such as Option 60
- D. Match on any DHCP options provided by the server

**Answer: B**

Explanation:

Comprehensive and Detailed In-Depth Explanation:In NIOS, DHCP Option Filters allow administrators to define rules for matching DHCP client requests based on the options they send in their DHCP packets. These filters are highly flexible and can match any DHCP option provided by the client, such as Option 55 (Parameter Request List), Option 60 (Vendor Class Identifier), or custom options. This enables precise DHCP policy enforcement, like assigning specific IP ranges or options to certain devices. Option B is incorrect because filters apply to client requests, not server responses. Option C is too narrow-while Option 60 is common, filters aren't limited to vendor-specific options. Option D is vague and incorrect; device type matching is a subset of option matching. The INE course covers DHCP troubleshooting, including filter configuration.References:Infoblox NIOS Administrator Guide - DHCP Option Filters; INE Course Content: NIOS DDI DHCP Troubleshooting.

## NEW QUESTION # 68

What types of permissions can be assigned to a Group or Role in NIOS? (Select all that apply.)

- A. Grid permissions
- B. Member permissions
- C. Global permissions
- D. Object permissions

**Answer: A,C,D**

Explanation:

Comprehensive and Detailed In-Depth Explanation:NIOS uses a granular permission model for admin groups/roles (Administration > Administrators). Here's what applies:

\* A (Global Permissions):Broad privileges across all objects (e.g., "All DNS Zones" read/write).

Applies to groups/roles for universal access. Correct.

\* B (Object Permissions):Specific to individual objects (e.g., read-only on "zone1.example.com").

Assignable to groups/roles for fine control. Correct.

\* C (Grid Permissions):Control Grid-wide settings (e.g., backup, upgrade permissions). Assignable to groups/roles, distinct from member-specific rights. Correct.

\* D (Member Permissions):Permissions are tied to Grid members (e.g., restart services on "Member1"), but NIOS documentation classifies these under object or Grid permissions, not a separate "Member" category. Incorrect in this context.

\* Setup:In Grid Manager, you assign these via group/role properties, selecting scopes (global, object- specific, Grid-level).

\* Practical Example:In an INE lab, you'd assign a group global DNS write access and Grid backup rights, testing restricted troubleshooting scenarios. References:Infoblox NIOS Administrator Guide - Permissions; INE Course Objective: NIOS DDI Grid Deployment.

### NEW QUESTION # 69

A Member in a DHCP Failover pair can assign addresses to new clients, when it is in which state(s)? (Select all that apply.)

- A. PARTNER-DOWN
- B. COMMUNICATIONS-INTERRUPTED
- C. NORMAL
- D. RECOVER DONE

**Answer: A,B,C**

Explanation:

Comprehensive and Detailed In-Depth Explanation:DHCP Failover states determine lease assignment:

\* B (NORMAL):Both peers assign from their pools-full capacity for new clients. Correct.

\* C (COMMUNICATIONS-INTERRUPTED):Surviving peer assigns new leases within MCLT limits. Correct.

\* D (PARTNER-DOWN):Single peer takes full pool, assigns new leases freely. Correct.

\* A (RECOVER DONE):Post-recovery state before NORMAL-typically doesn't assign until synced, but documentation varies. Likely incorrect here unless transitional.

\* Practical Example:In an INE lab, test each state, monitor new client IPs, and troubleshoot capacity limits. References:Infoblox NIOS Administrator Guide - DHCP Failover States; INE Course Content: NIOS DDI DHCP Troubleshooting.

### NEW QUESTION # 70

You are asked to configure DHCPv4 failover on the Grid. Which of the following do you need for it to function correctly? (Select all that apply.)

- A. TCP port 647 is open between DHCP members
- B. DHCP members are directly connected via crossover network cables
- C. DHCP relays are configured to relay to DHCP members simultaneously
- D. DHCP members are located in the same subnet

**Answer: A,C**

Explanation:

Comprehensive and Detailed In-Depth Explanation:DHCPv4 Failover requirements:

\* C:TCP 647 is the failover sync port-must be open for lease coordination. Correct.

\* D:Relays must send requests to both peers (e.g., via IP helper addresses) for load balancing/redundancy. Correct.

\* A:Crossover cables aren't required-standard network connectivity suffices. Incorrect.

\* B:Same subnet isn't mandatory-peers can be remote if routable. Incorrect.

\* Practical Example:In an INE lab, ensure port 647 is open, configure relays, test failover, and troubleshoot sync issues. References:Infoblox NIOS Administrator Guide - DHCP Failover Setup; INE Course Content: NIOS DDI DHCP Troubleshooting.

### NEW QUESTION # 71

.....

In order to meet the different need from our customers, the experts and professors from our company designed three different versions of our NIOS-DDI-Expert exam questions for our customers to choose, including the PDF version, the online version and the software version. Though the content of the NIOS-DDI-Expert Study Materials is the same, but the displays are totally different to make sure that our customers can study our NIOS-DDI-Expert learning guide at any time and condition.
