

# Frequent H19-308\_V4.0 Update | New H19-308\_V4.0 Exam Review

P.S. Free 2026 Huawei H19-308\_V4.0 dumps are available on Google Drive shared by DumpTorrent:  
<https://drive.google.com/open?id=1hchQ2zLgESu1nTQPpyW2stWxH0a03r9nW>

In actuality, the test center around the material is organized flawlessly for self-review considering the way that the competitors who are working in Huawei working conditions don't get the sufficient opportunity to go to classes for HCSA-Presales-Storage V4.0 certification. Thusly, they need to go for self-study and get the right test material to fire scrutinizing up for the HCSA-Presales-Storage V4.0 (H19-308\_V4.0) exam. By utilizing Huawei H19-308\_V4.0 dumps, they shouldn't stress over any additional assistance with that.

## Huawei H19-308\_V4.0 Exam Syllabus Topics:

---

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• OceanStor Dorado: OceanStor Dorado is Huawei's all-flash storage solution for mission-critical applications demanding ultra-low latency. This platform leverages NVMe technology and intelligent management to accelerate digital transformation.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• OceanStor New Hybrid Flash Storage: OceanStor Hybrid Flash combines flash and disk storage to balance performance and cost-effectiveness. This architecture optimizes resources by placing performance-sensitive data on flash and capacity-oriented data on disk.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• OceanStor Pacific: OceanStor Pacific is Huawei's distributed storage for massive-scale data management and cloud-native applications. It provides scalability, resilience, and performance for big data, AI workloads, and large-scale storage.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Backup and Disaster Recovery: Backup and disaster recovery strategies protect organizations from data loss through redundant copies of critical information. Comprehensive backup solutions ensure business continuity and enable rapid recovery to minimize downtime.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• OceanProtect Backup Storage: OceanProtect offers comprehensive data protection with efficient backup, recovery, and retention features. This solution ensures security through encryption and deduplication while reducing storage costs.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Data Storage Basis: Data storage is the foundation of IT infrastructure, enabling efficient storage, management, and retrieval of digital information. Understanding storage fundamentals is essential for selecting solutions that meet business performance, capacity, and reliability requirements.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• Object Storage Basis: Object storage manages data as discrete units with metadata and unique identifiers for efficient retrieval. This scalable architecture suits unstructured data, cloud applications, and big data analytics requiring massive capacity.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• SAN Storage Basis: Storage Area Networks provide high-speed, block-level storage over dedicated networks for enterprise applications requiring low latency. SAN enables multiple servers to share storage resources while supporting advanced features like snapshots and replication.</li> </ul>

## Try DumpTorrent Huawei H19-308\_V4.0 Practice Test Software

There are three different versions of H19-308\_V4.0 practice materials for you to choose, including the PDF version, the software version and the online version. You can choose the most suitable version for yourself according to your need. The online version of our H19-308\_V4.0 exam prep has the function of supporting all web browsers. You just need to download any one web browser; you can use our H19-308\_V4.0 test torrent. We believe that it will be very useful for you to save memory or bandwidth. In addition, if you use the online version of our H19-308\_V4.0 Test Questions for the first time in an online state, you will have the opportunity to use our H19-308\_V4.0 exam prep when you are in an offline state, it must be very helpful for you to learn in anytime and anywhere. If you think our products are useful for you, you can buy it online.

## Huawei HCSA-Presales-Storage V4.0 Sample Questions (Q211-Q216):

### NEW QUESTION # 211

Dorado V3 tolerates failure of 4 SSDs simultaneously

- A. TRUE
- B. FALSE

Answer: B

### NEW QUESTION # 212

Which of the following is Huawei scale-out NAS product?

- A. OceanStor Dorado NAS
- B. FusionCube
- **C. OceanStor Pacific**

**Answer: C**

Explanation:

OceanStor Pacific is Huawei's scale-out NAS product, designed to provide high scalability, performance, and unified storage for large-scale file and unstructured data workloads.

### NEW QUESTION # 213

Which of the following statements are incorrect about permission management of object storage?

- **A. An ACL grants an account the permission to access resources.**
- B. A bucket policy is used to control the permission of a single user or multiple users to access a bucket or objects in the bucket.
- C. Access control list (ACLs) can be used to grant and deny permissions.
- D. Object storage can use an ACL or bucket policy to manage permissions.

**Answer: A**

Explanation:

This statement is incorrect because an ACL (Access Control List) in object storage typically grants permissions at a more granular level, such as for specific users or groups to access individual objects or buckets. It does not typically grant permissions to an entire account to access all resources. The other statements correctly describe aspects of permission management in object storage.

### NEW QUESTION # 214

Which of the following statements is incorrect about redundant array of independent disks (RAID)?

- A. RAID combines multiple independent disks into one logical disk in different modes.
- **B. RAID reduces the performance and read/write security of disks.**
- C. RAID 6 supports data striping, distributed check, and two-level redundancy.
- D. Different RAID levels can be selected for different services.

**Answer: B**

Explanation:

This statement is incorrect because RAID is designed to enhance data security (through redundancy) and can also improve performance, depending on the RAID level chosen.

### NEW QUESTION # 215

Assume that an application generates about 8,400 random small I/Os, the read/write ratio is 2:1, and RAID 5 is used. If no requested data is hit in the cache (COW mode), what is the IOPS required by the disk array...

- A. 0
- B. 1
- C. 2
- **D. 3**

**Answer: D**

### NEW QUESTION # 216

.....
