EC-COUNCIL EC-Council Certified CISO (CCISO) Sample Questions (Q114-Q119):

NEW QUESTION # 114

Which of the following is the BEST indicator of a successful project?

- A. it meets most of the specifications as outlined in the approved project definition
- B. it comes in at or below the expenditures planned for in the baseline budget
- C. the deliverables are accepted by the key stakeholders
- D. it is completed on time or early as compared to the baseline project plan

Answer: C

Explanation:

- * A successful project is ultimately measured by whether it satisfies the stakeholders' needs and achieves its objectives. Deliverable acceptance is the most comprehensive measure of success.

Why Other Options Are Less Optimal:

- * A. Completed on time: Timeliness is important but does not necessarily indicate the project met its objectives.
- * B. Meets most specifications: Meeting "most" specifications indicates partial success, not complete achievement.
- * C. Within budget: While important, cost control alone is insufficient to determine overall project success.

EC-Council CISO Reference: Successful projects are stakeholder-centric, focusing on outcomes and deliverable acceptance as ultimate success indicators.

NEW QUESTION # 115

When performing a forensic investigation, what are the two MOST common data sources for obtaining evidence from a computer and mobile devices?

- A. RAM and unallocated space
- B. Unallocated space and RAM
- **C. Persistent and volatile data**
- D. Slack space and browser cache

Answer: C**NEW QUESTION # 116**

If the result of an NPV is positive, then the project should be selected. The net present value shows the present value of the project, based on the decisions taken for its selection. What is the net present value equal to?

- A. Net profit - per capita income
- B. Total investment - Discounted cash
- **C. Average profit - Annual investment**
- D. Initial investment - Future value

Answer: C

Explanation:

Understanding NPV

* Net Present Value (NPV) is the difference between the present value of cash inflows and the present value of cash outflows over a period. It is used to determine the profitability of an investment or project.

* The formula involves annual profit and annual investment and indicates whether the project is financially viable.

Why Not Other Options?

- * A. Net profit - per capita income: Not related to NPV calculations.
- * B. Total investment - Discounted cash: Misleading and not reflective of NPV.
- * D. Initial investment - Future value: Incorrect; future value is not part of NPV.

EC-Council References

* NPV is a key metric in project selection processes and is highlighted in financial decision-making frameworks for CISOs.

NEW QUESTION # 117

Which of the following functions evaluates risk present in IT initiatives and/or systems when implementing an information security program?

- A. Vulnerability Assessment
- B. Risk Management
- C. System Testing
- **D. Risk Assessment**

Answer: D

Explanation:

Role of Risk Assessment:

Risk assessment evaluates potential risks associated with IT initiatives or systems by identifying vulnerabilities, threats, and their potential impacts. This process informs the implementation of an information security program.

Key Actions:

- * Assess threats and vulnerabilities.
- * Determine the likelihood and impact of risks.
- * Prioritize risks for mitigation.

Why Not Other Options:

- * Risk Management (A): Oversees the broader risk mitigation process but does not focus solely on evaluation.
- * System Testing (C): Verifies technical functionality but does not assess risks holistically.
- * Vulnerability Assessment (D): Focuses narrowly on technical weaknesses, not comprehensive risk evaluation.

EC-Council Emphasis:

Risk assessment is foundational to evaluating and addressing risks effectively in security programs.

NEW QUESTION # 118

The PRIMARY objective of security awareness is to:

- **A. Encourage security-conscious employee behavior.**
- B. Meet legal and regulatory requirements.
- C. Put employees on notice in case follow-up action for noncompliance is necessary
- D. Ensure that security policies are read.

Answer: A

Explanation:

Purpose of Security Awareness Programs:

The primary objective of security awareness initiatives is to foster a culture of security within the organization by educating employees on recognizing and responding to security risks.

Why Behavior Matters:

- * Educated employees act as a strong first line of defense against threats such as phishing and social engineering.
- * Awareness programs aim to integrate security-conscious behavior into daily workflows.

Why Other Options Are Incorrect:

- * A. Reading Policies: While important, it is not the primary focus of awareness programs.
- * C. Legal/Regulatory Requirements: Awareness contributes but is not solely for compliance.
- * D. Noncompliance Notice: Awareness is preventative, not primarily disciplinary.

References:

EC-Council prioritizes fostering secure behaviors as the core purpose of security awareness initiatives.

NEW QUESTION # 119

.....

You can use this EC-Council Certified CISO (CCISO) (712-50) version on any operating system, and this software is accessible through any browser like Opera, Safari, Chrome, Firefox, and IE.
