For candidates who are going to buy the C-ACDET-2506 questions and answers online, they pay more attention to the prospect of personal information. We respect the privacy of our customers. If you buy the C-ACDET-2506 exam dumps from us, your personal information such as your email address or name will be protected well. Once the order finishes, the information about you will be concealed. In addition, C-ACDET-2506 Questions and answers are revised by professional specialists, therefore they are high-quality, and you can pass the exam by using them.

SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Topic 2	<ul style="list-style-type: none"> • Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.
Topic 3	<ul style="list-style-type: none"> • Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.

With our trusted service, our C-ACDET-2506 learning materials will never make you disappointed.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q43-Q48):

NEW QUESTION # 43

Which Activate phase is tied to performing configurations in your SAP Ariba Strategic Sourcing suite solution?

- **A. Realize**
- B. Setup
- C. Deploy
- D. Configure

Answer: A

NEW QUESTION # 44

Which of the following is NOT mentioned as a configuration type migrated by the Intelligent Configuration Manager?

- A. Template - project templates such as Contract templates
- **B. SupplierContact - contacts for the suppliers**
- C. DynamicForm - custom form templates (dForms)
- D. AMLExtension - AML customizations such as custom fields

Answer: B

NEW QUESTION # 45

When preparing to load legacy contracts during a Bluefield deployment in SAP Ariba Contracts, which of the following actions are required to ensure a successful migration?

- **A. Use the exact same process and tools as used in the Greenfield migration scenario to upload legacy contracts.**
- B. Skip the legacy contract upload step if the Production site already contains migrated Flex Master Data Templates.
- C. Create a new customized contract upload process specifically for Bluefield deployments to accommodate differences in site structure.

- D. Manually enter legacy contract data into SAP Ariba Contracts using the application's UI instead of using import tools.

Answer: A

NEW QUESTION # 46

Who leads Suite Integration activities?

- A. Partner/Customer Functional Lead
- B. SAP Support
- C. Customer Success Manager
- **D. SAP Deployment Lead**

Answer: D

Explanation:

The SAP Deployment Lead is responsible for leading Suite Integration activities across SAP Ariba solutions.

This role acts as the primary coordinator and facilitator for integration efforts, ensuring smooth data flow, process alignment, and technical synchronization between sourcing, procurement, contracts, and other modules in the Ariba suite. The Deployment Lead works closely with the customer's functional teams, partners, and technical specialists to manage integration scope, timelines, and troubleshooting.

SAP Support typically provides post-go-live assistance but does not lead integration planning. Functional leads focus on configuration and business processes but lack overarching integration responsibility. Customer Success Managers focus on adoption and satisfaction rather than technical integration.

Therefore, the Deployment Lead role is critical for coordinating complex multi-solution projects and ensuring a unified suite experience.

NEW QUESTION # 47

While working on editing a field for a customer, you notice that "Editable in full Contract Amendment" is not an option available in the advanced tab of field configuration. What is likely the cause for this behavior?

(Select 2 correct answers)

- **A. The field you are customizing is not in the contract workspace or request classes.**
- B. A customization is in flight and needs to be cleared and reset prior to making this change.
- C. The field you are customizing is standard and therefore cannot be changed.
- **D. The contract must be in an amendment state for this option to be visible in customizing.**

Answer: A,D

Explanation:

The "Editable in full Contract Amendment" option in SAP Ariba is available only when the contract is in an amendment status, meaning this option appears contextually when the contract supports amendment workflows. If the contract is not in amendment state, the option remains hidden (A).

Additionally, this option is only relevant for fields that belong to the Contract Workspace or Request field classes; fields outside these classes will not show amendment-specific editability options (C).

The presence or absence of this option is not related to ongoing customizations needing reset (B), nor is it restricted solely to custom or standard fields (D), as standard fields can also have this option if class-applicable.

NEW QUESTION # 48

.....

As for the structure of content, please believe that our team of experts has many years of experience in compiling and designing on the C-ACDET-2506 exam questions. I can say that no person can know the C-ACDET-2506 study materials than them for they have been devoting themselves in this career for ten years. And they know every detail about the C-ACDET-2506 learning guide. No matter how high your request is, our C-ACDET-2506 learning quiz must satisfy you.
