PMI PMP Certification is designed to test the knowledge and skills of project managers in various areas of project management, including initiation, planning, execution, monitoring and control, and closing. Project Management Professional (2025 Version) certification is based on the PMI's Guide to the Project Management Body of Knowledge (PMBOK Guide).

PMI Project Management Professional (2025 Version) Sample Questions (Q1609-Q1614):

NEW QUESTION # 1609

A company plans to initiate a project involving a new technology. Approval for the project is required. What should the project manager do?

- A. Identify the risks in implementing the new technology.
- B. Review the cost and schedule baselines for execution.
- C. Analyze the cost and identify the project benefits.

- D. Define change management for the new technology.

Answer: A

Explanation:

Before initiating a project, especially one involving new technology, it is crucial to identify potential risks.

This aligns with the PMBOKGuide's emphasis on risk management as a key project management process.

The process involves identifying, analyzing, and responding to project risks to increase the likelihood of project success. In the context of new technology, risks could include technical feasibility, integration with current systems, or potential cost overruns due to unforeseen technical issues.

:= The PMBOKGuide and the PMP Examination Content Outline provide guidance on the importance of risk identification in project management. The Professional in Business Analysis Reference Materials further supports this by emphasizing the need for thorough analysis and management of risks in business analysis practices.

Please note that while I strive to provide accurate information based on the available reference materials, it is always recommended to consult the latest editions of the PMBOKGuide and the Professional in Business Analysis Reference Materials for the most current and comprehensive guidance.

NEW QUESTION # 1610

The e-commerce project has gone well other than the fact that the sponsor changed three different times. The project is in closure. All of the following would be created in closing except?

- A. Release of resources
- B. Lessons learned
- C. Project archives
- **D. Contract audit**

Answer: D

Explanation:

Section: Mix Questions

NEW QUESTION # 1611

- A. close-out
- **B. conceptual**
- C. development
- D. implementation
- E. execution

Answer: B

NEW QUESTION # 1612

You are managing a water supply network deployment project. However, after you have worked on the project for five months and held weekly status meetings, your project sponsor is dissatisfied with the deliverables, even with a CPI of 1.0 and an SPI of 1.0. If you would like to present project reports such as Schedule Performance Index (SPI) and Cost Performance Index (CPI) to the sponsor, SPI and CPI can be considered as:

- **A. Performance reports**
- B. Status report Status report
- C. Earned value reports
- D. Forecasting report

Answer: A

NEW QUESTION # 1613

Because critical distribution needs were not identified and considered, an upcoming product is canceled one day before its announced launch. What should have been better developed to prevent this?

- A. Scope management plan
- B. Communications management plan
- C. Risk management plan
- **D. Stakeholder engagement plan**

Answer: D

NEW QUESTION # 1614
