CInP Latest Dumps Questions & Test CInP Passing Score

It is browser-based; therefore no need to install it, and you can start practicing for the GInI CInP exam by creating the Certified Innovation Professional (CInP) (CInP) practice test. You don't need to install any separate software or plugin to use it on your

system to practice for your actual Certified Innovation Professional (CInP) (CInP) exam. VCEumps CInP web-based practice software is supported by all well-known browsers like Chrome, Firefox, Opera, Internet Explorer, etc.

GInI Certified Innovation Professional (CInP) Sample Questions (Q139-Q144):

NEW QUESTION # 139

In Stage 5 of the GInI InMS, the purpose of a Pilot is to provide a final grand opportunity for commercial validation of the concept, allowing the business to develop greater confidence that its hypothesis and solution were both valid, and thus the offering will be capable of scaling to its full expected potential.

Select one correct answer from the list:

- A. Its problem statement and solution statement were both valid, and thus the offering will be better than its competitors' offerings
- **B. Its hypothesis and solution were both valid, and thus the offering will be capable of scaling to its full expected potential**
- C. Its theories and ideas were both valid, and thus the offering will be liked by its customers
- D. Its postulates and concepts were both valid, and thus the offering will realize substantial media buzz

Answer: B

Explanation:

GInI's CInP Handbook defines InMS Stage 5's Pilot as a Back End test to validate commercial viability- confirming the "hypothesis" (problem/need) and "solution" (offering) hold in a real-world context. Success builds confidence for "scaling to full expected potential," ensuring the innovation delivers as planned.

"Problem/solution statement" (A) is close but less precise than GInI's "hypothesis/solution." "Postulates

/concepts" (B) and "media buzz" are vague and off-focus. "Theories/ideas" (C) and "liked by customers" lack scaling emphasis.

Option D matches GInI's exact phrasing, aligning with the original answer, reflecting a rigorous, scalability-focused validation-a GInI capstone for execution readiness.

NEW QUESTION # 140

Developing a concept further following its selection by an Evaluation Group often involves the creation of a preliminary business plan/business case for the concept.

Select one correct answer from the list:

- A. New hypotheses behind its problem
- **B. A preliminary business plan/business case for the concept**
- C. A fully-detailed financial forecast for the concept, showing its return on investment with 95% confidence limits
- D. A detailed design of the concept

Answer: B

Explanation:

GInI's CInP Handbook explains that post-selection in InMS Stage 3, concepts move to Stage 4, where development includes creating a "preliminary business plan/business case." This document outlines the concept's value proposition, market potential, and initial financials-enough to justify further investment without full detail. It's a Mid Zone activity, bridging evaluation to execution. "New hypotheses" (A) is Front End, pre-selection. "Detailed design" (B) is Back End, post-business case. "Fully-detailed forecast" (D) is overly precise for this stage-GInI seeks preliminary viability, not 95% confidence yet. Option C aligns with GInI's process, matching the original answer (despite typo), reflecting a pragmatic step to validate concepts strategically-a GInI method for staged commitment.

Reference:GInI CInP Handbook, Section on InMS Stage 4 Concept Development.

NEW QUESTION # 141

Design Thinking ask 3 fundamental questions about each proposed solution. The first of these - the Human element - asks what?

Select one correct answer from the list

- A. Is it acceptable to our managers?
- B. Is it feasible technologically?
- **C. Is it desirable to users?**

- D. Is it viable to the business?

Answer: C

NEW QUESTION # 142

"_____ are team sprints organized to build something entirely new in a highly-compressed timeframe, producing highly useful outcomes often in record time, which in turn become inputs for the Innovation Funnel to consider carrying further." Select one correct answer from the list:

- A. Innovation Jams
- B. Flash Builds
- C. Design Sprints
- **D. Hackathons**

Answer: D

NEW QUESTION # 143

Technology Innovation is any new innovation that delivers greater value and/or a better customer experience as a direct consequence of using a new technology.

Select one correct answer from the list:

- A. Initiating research and development into a new technology
- **B. Using a new technology**
- C. Hying a new technology
- D. Adding new features to the offering

Answer: B

Explanation:

GInI defines "Technology Innovation" in the CInP Handbook as an innovation driven by the application of a new technology to enhance value or customer experience. The key is the use of the technology, not just its features (A), promotion (B), or development (C). Option A, "adding new features," might result from technology but isn't the defining act. Option B, "hying," is marketing, not innovation. Option C, "initiating R&D," is a precursor, not the innovation itself. D, "using a new technology," matches GInI's focus on practical application as the source of value, confirming the original answer. The question's phrasing reinforces this by specifying "as a direct consequence."

NEW QUESTION # 144

.....

Everyone has their own dreams. What is your dream? Is it a promotion, a raise or so? My dream is to pass the GInI CInP exam. I think with this certification, all the problems will not be a problem. However, to pass this certification is a bit difficult. But it does not matter, because I chose VCEdumps's GInI CInP Exam Training materials. It can help me realize my dream. If you also have a IT dream, quickly put it into reality. Select VCEdumps's GInI CInP exam training materials, and it is absolutely trustworthy.
