

# Hot Latest UiPath-TAEPv1 Learning Material Free PDF | Pass-Sure UiPath-TAEPv1 Trustworthy Practice: UiPath Test Automation Engineer Professional v1.0

P.S. Free & New UiPath-TAEPv1 dumps are available on Google Drive shared by Dumpexams: <https://drive.google.com/open?id=1o2bpZEYWYjQh-pWf3hRLPczC8IZGjAn>

Many students did not perform well before they use UiPath Test Automation Engineer Professional v1.0 actual test. They did not like to study, and they disliked the feeling of being watched by the teacher. They even felt a headache when they read a book. There are also some students who studied hard, but their performance was always poor. Basically, these students have problems in their learning methods. UiPath-TAEPv1 prep torrent provides students with a new set of learning modes which free them from the rigid learning methods. You can be absolutely assured about the high quality of our products, because the content of UiPath Test Automation Engineer Professional v1.0 actual test has not only been recognized by hundreds of industry experts, but also provides you with high-quality after-sales service.

## UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>UiPath Test Manager: This section of the exam measures the skills of Test Automation Engineers and focuses on using UiPath Test Manager for managing test lifecycles. It includes actions like defining custom fields, managing access, importing</li> <li>exporting projects, and documenting manual steps using UiPath Task Capture. It also explains how to analyze test results, handle execution re-runs, manage KPIs, and create defects for failed test cases, along with troubleshooting common errors.:</li> </ul>

Topic 3	<ul style="list-style-type: none"> <li>• Environments, Applications, and</li> <li>• or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.</li> </ul>

## UiPath-TAEPv1 Trustworthy Practice & UiPath-TAEPv1 New Dumps Book

We all know that UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) exam dumps are an important section of the UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) exam that is purely based on your skills, expertise, and knowledge. So, we must find quality UiPath-TAEPv1 Questions that are drafted by industry experts who have complete knowledge regarding the UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) certification exam and can share the same with those who want to clear the UiPath-TAEPv1 exam. The best approach to finding UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) exam dumps is to check the Dumpexams that is offering the UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) practice questions.

## UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q101-Q106):

### NEW QUESTION # 101

How can manual steps be marked in a Test Case as passed or failed in the Manual Execution Assistant?

- A. Click "Set Failed" or "Set Passed" for each step.
- **B. Click "Set Failed" or "Set Passed" at the end of the test.**
- C. Only automated steps can be marked; manual steps are automatically passed.
- D. Use the "Execute Manually" button.

**Answer: B**

Explanation:

In the Manual Execution Assistant of UiPath Test Manager, manual steps can be marked as passed or failed by clicking "Set Failed"

or "Set Passed" at the end of the test. This allows the tester to indicate the outcome of the manual step after execution.

#### NEW QUESTION # 102

By default, how are test executions sorted in Test Manager?

- A. Based on the date on which the execution was finished.
- B. Manual executions are placed at the top.
- C. Running and pending executions are placed at the bottom.
- D. Passed executions are placed at the top.

**Answer: A**

Explanation:

By default, test executions in Test Manager are sorted based on the date on which the execution was finished, allowing users to see the most recent test results first for efficient tracking and analysis.

#### NEW QUESTION # 103

Considering the following snippet, where is LoanRate defined?

```
// Assert
// To start using activities, use IntelliSense (CTRL + Space) to discover the available services, e.g. testing.VerifyExpression(...).
var loanResultsScreen = uiAutomation.Attach(ObjectRepository.Descriptors.UiBank.LoanResults);
var actualLoanRate = loanResultsScreen.GetText(ObjectRepository.Descriptors.UiBank.LoanResults.LoanRate);
testing.VerifyExpression(actualLoanRate == myLoanApplication.expectedLoanRate.ToString(), "The expected and actual lone rates are equal.", true, "Verify Expression", true, false);
```

- A. In the LoanResults class that contains a setter for LoanRate.
- B. In the UiAutomation class that contains a setter for LoanRate.
- C. In the Object Repository, under the application LoanResults.
- D. In the Object Repository, under the screen LoanResults.

**Answer: D**

Explanation:

In the provided code snippet, LoanRate is accessed through:

ObjectRepository.Descriptors.UiBank.LoanResults.LoanRate

This clearly indicates that LoanRate is defined in the Object Repository, under the screen LoanResults of the UiBank application.

#### NEW QUESTION # 104

Where can the variations that have passed or failed for a data-driven test case in UiPath Studio be viewed?

- A. In the Test Manager configuration.
- B. On the individual test case data variations in the Test Results panel.
- C. In the Assertions tab of the corresponding test case result.
- D. On the parent test cases in the Test Results panel.

**Answer: B**

Explanation:

In UiPath Studio, the Test Results panel displays the outcome of individual data variations for a data-driven test case. This allows users to see exactly which data inputs passed or failed during execution.

#### NEW QUESTION # 105

Which component of the UiPath Test Suite communicates directly with CI/CD pipelines?

- A. UiPath Action Center
- B. UiPath Test Manager
- C. UiPath Orchestrator
- D. UiPath Studio

**Answer: C**

Explanation:

UiPath Orchestrator is the component that communicates directly with CI/CD pipelines. It manages the execution of test cases and workflows triggered from CI/CD tools, enabling automated and continuous testing as part of the deployment process.

**NEW QUESTION # 106**
