

CTS시험문제, CTS최신인증 시험기출자료

2026 Itcertkr 최신 CTS PDF 버전 시험 문제집과 CTS 시험 문제 및 답변 무료 공유: https://drive.google.com/open?id=1LoZt_nHh_OekFzbZifKbUcmSOPFjd3ic

AVIXA인증CTS시험의자격증은 여러분에 많은 도움이 되리라 믿습니다. 하시는 일에서 한층 더 업그레이드될 것이고 생활에서도 분명히 많은 도움이 될 것입니다. 자격증취득 즉 재산을 얻었죠.AVIXA인증CTS시험은 여러분이 지식테스트시험입니다. Itcertkr에서는 여러분의 편리를 위하여 Itcertkr만의 최고의 최신의AVIXA CTS덤프를 추천합니다. Itcertkr를 선택은 여러분이 최고의 선택입니다. Itcertkr는 제일 전면적인AVIXA CTS인증시험자료의 문제와 답을 가지고 있습니다.

AVIXA CTS 시험요강:

주제	소개
주제 1	Implementing AV Solutions: This section of the exam measures the skills of AV system integrators and focuses on the implementation of AV solutions. It involves integrating AV systems, verifying their functionality, and managing the integration process, including training, documentation, and ensuring operational readiness.
주제 2	Supporting AV System Operation: This section of the exam measures the skills of AV support specialists and covers the ongoing support of AV systems. It includes troubleshooting issues, providing remote assistance, supporting live events, and offering in-room operation training to ensure smooth system operation.

주제 3	• Servicing AV Solutions: This section of the exam measures the skills of AV maintenance managers and focuses on the maintenance and repair of AV solutions. It involves supervising AV operations, conducting preventative maintenance, performing firmware and equipment upgrades, and troubleshooting and repairing AV systems to ensure they remain functional and efficient.
주제 4	• Creating AV Solutions: This section of the exam measures the skills of AV system designers and covers the process of creating audiovisual solutions. It includes conducting customer needs analysis, performing site surveys to assess environmental factors like lighting and acoustics, developing project scopes, and designing AV solutions with detailed drawings and materials lists.

CTS최신 인증시험 기출자료 & CTS퍼펙트 최신버전 문제

Itcertkr의AVIXA CTS덤프는 레알 시험의 모든 유형을 포함하고 있습니다.객관식은 물론 드래그앤드랍,시물문제등 실제시험문제의 모든 유형을 포함하고 있습니다. AVIXA CTS덤프의 문제와 답은 모두 엘리트한 인증강사 및 전문가들에 의하여 만들어져AVIXA CTS 시험응시용만이 아닌 학습자료용으로도 손색이 없는 덤프입니다.저희 착한 AVIXA CTS덤프 데려가세용~!

최신 AVIXA Certification CTS 무료샘플문제 (Q170-Q175):

질문 # 170

When compared to Listener 4, which listener simultaneously hears the speaker at +6db? Select the answer by clicking on the correct listener.

☐

정답 :

설명:

□ Explanation:

Listener 2

In sound propagation, every doubling of distance from a sound source generally results in a decrease of approximately 6 dB in sound level due to the inverse square law. Conversely, when moving closer to the sound source, the sound level increases by approximately 6 dB each time the distance is halved.

Given Listener 4 is at 20 feet from the speaker:

* Listener 3 is at 15 feet, which is closer but not a direct halving of Listener 4's distance, so the change is less than 6 dB.

* Listener 2 is at 10 feet, which is half the distance of Listener 4 (20 feet). This halving of distance results in a sound level increase of approximately 6 dB.

* Listener 1 is at 5 feet, which is closer than Listener 2 and results in a higher increase in dB compared to Listener 4.

CTS Technology Specialist Reference Understanding sound level changes over distance is essential in AV system design to ensure balanced audio coverage. The CTS materials cover the inverse square law extensively, explaining how sound pressure levels change as the distance from the sound source varies.

Listener 2, at half the distance from Listener 4, receives sound at +6 dB compared to Listener 4, aligning with this principle.

질문 # 171

Projectors utilizing laser phosphor technology might be favored for installation in inaccessible locations because:

- A. They fit in a smaller lighter package compared to lamp-based units.
- B. They require little maintenance and they generate less heat.
- C. They are cheaper and easier to install.
- D. The light source is linear so less affected by ambient conditions.

정답 : B

설명:

Laser phosphor projectors offer longer operational life and lower maintenance needs compared to lamp-based projectors. Because they don't require frequent lamp changes and generate less heat, they are ideal for hard-to-reach installations where routine

maintenance would be difficult and costly.

질문 # 172

When using an IR-based assistive listening system, where MUST the transmitter be located?

- A. Within 25 feet (7.6 meters) of the wheelchair seating area
- B. At the top of the AV equipment rack
- C. With line-of-sight to the audience area
- D. Under the presenter's desk

정답: C

설명:

Infrared (IR) assistive listening systems rely on line-of-sight transmission. The IR transmitter emits signals that must directly reach the receivers without obstruction. Therefore, it's imperative that the transmitter is positioned with a clear line-of-sight to the audience area to ensure effective signal transmission.

질문 # 173

On a construction project awarded through a competitive process, the electrical contractor says that the AV company is responsible for the installation of conduit. What project document(s) would determine responsibility?

- A. bid (tender) documents
- B. estimate
- C. submittals
- D. proposal cover letter

정답: A

설명:

The responsibility for the installation of conduit in a construction project is typically outlined in the bid (tender) documents. These documents detail the scope of work, responsibilities, and specifications agreed upon during the competitive bidding process. They serve as a binding agreement between the parties and clearly delineate who is responsible for various aspects of the project, including the installation of conduit.

질문 # 174

During an initial meeting with a prospective client regarding an audiovisual project, it is important to understand the customer's method of procurement in order to avoid.

- A. expending time and resources designing a project that may ultimately go to bid (tender).
- B. designing the system beyond the budgetary constraints of the client.
- C. missing some of the important components that will be included in the final project.
- D. making commitments with regard to delivery times for equipment.

정답: A

설명:

Understanding the client's procurement method is crucial to determine whether the project will go to a competitive bid. This awareness helps avoid wasting resources on a design that may not be directly awarded and instead go through a bidding process, which could result in another firm being chosen.

CTS Technology Specialist ReferenceThe CTS curriculum emphasizes the importance of clarifying procurement processes early to ensure alignment with project scope and avoid unnecessary design work that might not be retained.

질문 # 175

.....

IT인증자격증을 취득하는 것은 IT업계에서 자신의 경쟁력을 높이는 유력한 수단입니다. 경쟁에서 밀리지 않으려면 자격증을 많이 취득하는 편이 안전합니다. 하지만 IT자격증취득은 생각보다 많이 어려운 일입니다. AVIXA인증 CTS시험은 인기자격증을 취득하는데 필요한 시험과목입니다. Itcertkr는 여러분이 자격증을 취득하는 길에서의 없어서는 안될 동반자입니다. Itcertkr의AVIXA인증 CTS덤프로 자격증을 편하게 취득하는게 어떨가요?
