ASIS-PSP certification exam is highly respected in the security industry and is considered one of the most prestigious credentials for physical security professionals. Individuals who pass the exam are recognized as experts in the field and are highly sought after by employers. Physical Security Professional Exam certification provides professionals with the opportunity to enhance their career prospects and increase their earning potential. Additionally, the certification is a testament to the individual's commitment to professional development and their dedication to maintaining the highest standards of physical security.

To be eligible to sit for the ASIS-PSP Exam, individuals must meet certain education and experience requirements. They must have

a minimum of a high school diploma or equivalent and have at least five years of experience in the field of physical security, with at least three years of experience in responsible charge of a physical security function. Alternatively, individuals who have a recognized bachelor's degree or higher may substitute up to four years of the required experience.

ASIS Physical Security Professional Exam Sample Questions (Q181-Q186):

NEW QUESTION # 181

Ideally a business should have four sets of backup files;

- A. with three set of files staying on-site and one set of files being stored off-site
- B. with two of files staying on-site and two sets of files being stored off-site
- C. with four set of files staying on-site and no set of files being stored off-site
- **D. with one set of files staying on-site and three sets of files being stored off-site**

Answer: D

NEW QUESTION # 182

Which type of training is critical to attaining a successful objective of a physical security program implemented to safeguard all employees and meet the organization's security objectives?

- A. Security procedures
- B. Security operations
- **C. Security awareness**
- D. Security policy

Answer: C

Explanation:

Security awareness training ensures that all employees understand security policies, recognize threats, and know how to respond appropriately. It is critical for creating a proactive security culture and ensuring that all layers of defense-including human factors-are effective.

A, B, and D refer to specific training content areas, but security awareness encompasses overall employee engagement and is critical for program success.

NEW QUESTION # 183

A security supervisor should do which of the following to reinforce training and understanding of the post orders with security officers?

- A. Check the training records
- B. Let the officer read the order and then write a report on it
- **C. Ask one or more specific questions about the order**
- D. Review the log book entries

Answer: C

Explanation:

Asking targeted questions about post orders helps supervisors verify that security officers understand their duties. It encourages engagement, promotes accountability, and reinforces learning through direct interaction.

A (Checking training records) shows completion but not understanding.

B (Logbook review) focuses on past actions, not comprehension.

D (Written report) may test literacy more than actual understanding.

NEW QUESTION # 184

Which of the following is the type of comparative negligence statute?

- A. 51 percent rule
- B. Pure approach
- C. All of the above
- D. 50/50 rule

Answer: C

Explanation:

The three types of comparative negligence statutes include:

Pure approach (A): The plaintiff's compensation is reduced by their percentage of fault, no matter how high.

50/50 rule (B): The plaintiff can recover damages only if their fault is 50% or less.

51 percent rule (C): The plaintiff can recover only if they are less than 51% at fault.

All three are valid comparative negligence models used in different jurisdictions.

NEW QUESTION # 185

Asset value is determined by which of the following elements?

- A. Value, original cost, and criticality
- B. Original cost, criticality, and ease of replacement
- C. Criticality, ease of replacement, and some measure of value
- D. Ease of replacement, some measure of value, and original cost

Answer: C

Explanation:

Comprehensive Detailed Explanation:

Asset value in physical security is determined not just by its original purchase cost, but by:

Criticality: How essential the asset is to operations or mission success.

Ease of Replacement: Difficulty or time involved in replacing the asset.

Some Measure of Value: This may include financial worth, proprietary importance, or symbolic significance.

This broader view reflects operational risk more accurately than financial cost alone.

A, B, and C mention components but do not include all three core elements correctly.
