So we have adamant attitude to offer help rather than perfunctory attitude. It will help you pass your Health-Cloud-Accredited-Professional exam in shortest time.

Salesforce Health Cloud Accredited Professional Sample Questions (Q108-Q113):

NEW QUESTION # 108

A pharmaceutical company is looking to support patients throughout their clinical journey. One of the factors the company needs to track is the socioeconomic and cultural barriers that could hinder a patient's process.

Which Health Cloud capability should a consultant implement to fulfill this requirement?

- A. Utilization management
- **B. Social Determinants of Health**
- C. Care Blockers
- D. Clinical Berries

Answer: B

Explanation:

* Tracking Socioeconomic & Cultural Barriers:

Exact Extract:

"The Social Determinants of Health data model in Health Cloud enables organizations to document and track social, cultural, and economic barriers affecting patients." Reference:

* Other Options:

Clinical Barriers, Utilization Management, and Care Blockers are not documented Health Cloud features for tracking socioeconomic/cultural barriers.

NEW QUESTION # 109

A clinic is looking to manage its associated physicians within Health Cloud.

Which two objects support Salesforce's recommended approach to model the doctors in the clinic's Health Cloud org?

- A. Person Account
- **B. Contact**
- **C. Healthcare Practitioner**
- D. Healthcare Provider

Answer: B,C

Explanation:

The two objects that support Salesforce's recommended approach to model the doctors in the clinic's Health Cloud org are Contact and Healthcare Practitioner. Contact is used to store the personal information of the doctor, such as name, phone, and email. Healthcare Practitioner is used to store the professional information of the doctor, such as specialty, license, and credentials.

NEW QUESTION # 110

Bloomington Caregivers has set up Health Cloud and needs to analyze patient referrals through Salesforce reports and dashboards. Which Health Cloud unmanaged package should a consultant recommend to deliver a prebuilt dashboard and reports?

- A. Health Cloud Member Referral Management Reports
- B. **Health Cloud Reports for Patient Referral Management**
- C. Health Cloud Network Management Reports
- D. Health Cloud Referral Management Reports

Answer: B

Explanation:

Salesforce Health Cloud offers various unmanaged packages that extend its functionality by providing specialized tools and prebuilt components. For Bloomington Caregivers aiming to analyze patient referrals through Salesforce reports and dashboards, the Health Cloud Reports for Patient Referral Management unmanaged package is specifically designed to meet this need.

This package includes:

Prebuilt Reports: A set of reports focused on key metrics related to patient or member referrals, such as referral status, sources, and outcomes.

Dashboard: A comprehensive dashboard that consolidates these reports, providing visual insights into referral patterns and performance.

By installing this package, Bloomington Caregivers can leverage ready-made analytical tools to monitor and optimize their referral processes without the need to develop custom reports from scratch. This accelerates the implementation timeline and ensures that best practices in referral management reporting are utilized.

Installation Steps:

Access the Installer URL: Navigate to the installer URL for the Health Cloud Reports for Patient Referral Management package: Health Cloud Reports for Patient Referral Management.

Log In to Salesforce: Ensure you are logged into the Salesforce org where you intend to install the package.

Select Installation Audience: Choose the appropriate installation option (e.g., Install for Admins Only, Install for All Users, or Install for Specific Profiles) based on your organization's requirements.

Install the Package: Follow the on-screen instructions to complete the installation.

Verify Installation: After installation, navigate to the "Installed Packages" section in Setup to confirm that the package is listed.

Assign Permissions: Ensure that users who need access to the reports and dashboard have the necessary permissions. This may involve assigning specific permission sets or updating profile settings.

Customize as Needed: While the package provides prebuilt reports and a dashboard, you can customize them to better fit your organization's specific needs.

Implementing this package enables Bloomington Caregivers to effectively analyze and manage patient referrals, leading to improved operational efficiency and patient care outcomes.
