## ISO-IEC-27001-Foundation Latest Exam Guide & ISO-IEC-27001-Foundation Valid Questions Test & ISO-IEC-27001-Foundation Free Download Pdf

Aspiring APMG-International professionals strive to excel in APMG-International ISO-IEC-27001-Foundation exams such as the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) to achieve their dream careers. However, passing the ISO-IEC-27001-Foundation Exam can be challenging, especially with a demanding schedule that leaves little time for preparation.

### APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q26-Q31):

#### NEW QUESTION # 26

Identify the missing word(s) in the following sentence.

"Information security, cybersecurity and privacy protection - [ ? ]" is the title of ISO/IEC 27005.

- A. Information security controls
- **B. Guidance on managing information security risks**
- C. Guidelines for information security management systems auditing
- D. Information security management systems - Requirements

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27005 standards:

ISO/IEC 27005:2022 is titled:

"Information security, cybersecurity and privacy protection - Guidance on managing information security risks." This standard provides structured methodologies for identifying, analyzing, evaluating, and treating risks, in alignment with ISO/IEC 27001's risk management requirements (Clause 6.1.2 and 6.1.3). It supports organizations in implementing the risk management process that underpins an ISMS. Options A and B are titles of other ISO standards (ISO/IEC 27007 for auditing, ISO/IEC 27001 for requirements). Option D refers to ISO/IEC 27002 (controls).

Thus, the correct answer is C: Guidance on managing information security risks.

#### NEW QUESTION # 27

Identify the missing words in the following sentence.

The organization shall establish, implement, maintain and [ ? ] an information security management system, including the processes needed and their interactions, in accordance with the requirements of this document.

- A. report on
- **B. continually improve**
- C. communicate the importance of
- D. enforce standards for

**Answer: B**

Explanation:

Clause 4.4 of ISO/IEC 27001:2022 states:

"The organization shall establish, implement, maintain and continually improve an information security management system, including the processes needed and their interactions, in accordance with the requirements of this document." This requirement highlights that an ISMS is not static; it must evolve continuously to adapt to new risks, technologies, and business changes. Options A, C, and D are not mentioned in the clause. The continual improvement cycle is central to ISO standards, aligning with the Plan-Do-Check-Act (PDCA) model.

Thus, the missing words are "continually improve."

#### NEW QUESTION # 28

Which statement describes the control for the Compliance with policies, rules and standards for information security within Annex A of ISO/IEC 27001?

- A. Return assets to their legal owners
- **B. Regular review of compliance**
- C. Maintain contact with legal authorities
- D. Regular review of contractual compliance

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.36 (Compliance with policies, rules and standards for information security) requires:

"Compliance with the organization's information security policies, rules and standards for information security should be regularly reviewed." This directly matches option A. Option B refers to contractual compliance, which is part of supplier management controls (Annex A.5.19). Option C relates to Annex A.5.7 (Contact with authorities). Option D refers to asset return controls (Annex A.5.9).

Thus, the correct answer is A.

#### NEW QUESTION # 29

Which ISMS documentation is part of the minimum scope of documented information required to be managed and controlled?

- A. A statement of correspondence between other ISO standards and the ISMS
- B. Third party information security awareness materials
- C. The budget assigned to operate the ISMS and its related allocations
- **D. Records of management decisions related to continual improvement**

**Answer: D**

Explanation:

Clause 7.5 (Documented Information) specifies that organizations must maintain documentation necessary for the effectiveness of the ISMS. Additionally, Clause 9.3 (Management Review) requires "records of decisions related to continual improvement opportunities" as an output of management review. This is a core requirement and forms part of the documented information that must be retained and controlled. Third-party materials (B), budgets (C), and cross-reference statements to other ISO standards (D) are not required by ISO/IEC 27001. Only documents that directly demonstrate compliance, decision-making, and continual improvement are mandated. Therefore, the verified minimum required documentation includes records of management review decisions related to continual improvement, confirming answer: A.

#### NEW QUESTION # 30

Identify the missing word in the following sentence.

The organization shall determine the [ ? ] of interested parties relevant to information security.

- A. structure
- B. influence
- **C. requirements**
- D. number

**Answer: C**

Explanation:

Clause 4.2 of ISO/IEC 27001:2022 states:

The organization shall determine: a) interested parties that are relevant to the information security management system; b) the relevant requirements of these interested parties; c) which of these requirements will be addressed through the ISMS." This confirms that the missing word is requirements. Neither number, structure, nor influence are specified in the standard.

### NEW QUESTION # 31
