Oracle N16302GC10 시험요강:

주제	소개
주제 1	Record to Report: This section of the exam measures the skills of Financial Analysts and covers how to configure NetSuite features and preferences to meet client-specific reporting and accounting needs. It includes understanding the setup of the chart of accounts, segment usage, and best practices for period-end close. Candidates must know how journal entries, exchange rates, and tax configurations operate within NetSuite to maintain accurate financial reporting.

주제 2	Platform: This section of the exam measures the skills of NetSuite Developers and covers using SuiteFlow and SuiteScript to automate business processes. It includes configuring workflows, using custom fields and forms, implementing advanced PDF layouts, and understanding SuiteBundler. The focus is on customizing and extending NetSuite functionality while following best practices for stable, maintainable configurations.
주제 3	Data Security: This section of the exam measures skills of Security Administrators and focuses on data access and permission management in NetSuite. It includes understanding the implications of user permissions, recommended practices for creating custom roles, and managing data manipulation in bulk. The emphasis is on protecting system integrity and controlling data visibility across users and departments.
주제 4	Data Strategy: This section of the exam measures the skills of Data Migration Specialists and covers managing data imports, exports, and transformations using CSV tools. It includes troubleshooting data import errors, applying saved mappings, and establishing strategies for historical data migration. Candidates must know how to organize and complete data migration successfully while ensuring data integrity.
주제 5	Analytics and Dashboard: This section of the exam measures the skills of Business Intelligence Analysts and focuses on building and customizing NetSuite dashboards and analytics tools. It includes using SQL expressions, saved searches, and reports to deliver meaningful insights. The section also addresses dashboard publishing methods, report customization, and leveraging analytics for data-driven decision-making.
주제 6	Design to Build: This section of the exam measures the skills of Inventory Control Managers and focuses on product and inventory management within NetSuite. It includes identifying appropriate item types, managing assemblies, pricing, and item costing. Candidates must understand how inventory transactions and settings affect costing and how to configure inventory management for optimal business performance.
주제 7	Procure to Pay: This section of the exam measures the skills of Procurement Specialists and covers purchasing and vendor management processes in NetSuite. It includes creating vendor bills, managing payments, configuring returns, and using the Fixed Assets Module. Candidates must determine the right configurations for vendor and procurement workflows to ensure accurate financial processing and reporting.
