1Z0-1057-25

Classification set to that caused this behavior? (Choose the best answer.)

- Option A : Amount Based
- Option B : Rate Based
- Option C : As Incurred
- Option D : Percent Complete

Correct Answer: A

Explanation/Reference:

Reference https://docs.oracle.com/cd/E51367_01/projectop_gsOAP/B11087450AW139C2.htm
Topic - Invoice and Revenue Rates: How They Are Determined
Oracle Fusion Project Billing uses bill rates, burdening, and transfer price schedules to derive standard bill rates, multipliers, markups, and bases for calculating potential revenue when the revenue method classification on a revenue plan is as billed, as incurred, or rate based. Similarly, bill rates derive invoice amounts when the invoice method classification on a bill plan is rate based.

QUESTION: 3

What is the precedence order in which cost rates are determined for a planning resource when deriving raw costs for rate-based planning resources?

- Option A : Resource class rate schedule > Override rate > Job rate schedule > Person rate schedule
- Option B : Override rate > Job rate schedule > Resource class rate schedule > Person rate schedule
- Option C : Person rate schedule > Job rate schedule > Resource class rate schedule > Override rate
- Option D : Override rate > Person rate schedule > Job rate schedule > Resource class rate schedule
- Option E : Job rate schedule > Resource class rate schedule > Override rate > Person rate schedule

Correct Answer: D

QUESTION: 4

You have four resources in your organization: P, Q, R, and S. Resource P - Project or resource calendar is active. Resource Q - Project resource request dates are within the project or resource calendar effective dates. Resource R - Resource calendar is complex, it does not contain seven days, and it contains more than one pattern and shift. Resource S - Number of working days within the requested date range is not zero on the project or resource calendar. Identify the resource for whom Resource Availability Capacity Score will not be calculated. (Choose the best answer.)

- Option A : P
- Option B : Q
- Option C : R
- Option D : S

Get Latest Oracle 1z0-1057-25 Practice Test To Pass Exam

The Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) practice questions are designed by experienced and qualified 1z0-1057-25 exam trainers. They have the expertise, knowledge, and experience to design and maintain the top standard of Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) exam dumps. So rest assured that with the Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) exam real questions you can not only ace your Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) exam dumps preparation but also get deep insight knowledge about Oracle 1z0-1057-25 exam topics. So download Oracle Project Management Cloud 2025 Implementation Professional (1z0-1057-25) exam questions now and start this journey.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q11-Q16):

NEW QUESTION # 11

Stigma consulting has been hired by a client to implement Project Management Cloud. Which role should they assign to a user for using the rapid implementation feature to set up the Project Financial Management offering by populating and uploading a Microsoft Excel workbook?

- A. Project Administrator
- **B. Project Integration Specialist**
- C. Project Application Administrator
- D. Project Executive

Answer: B

Explanation:

The Project Integration Specialist role should be assigned to a user for using the rapid implementation feature to set up the Project Financial Management offering by populating and uploading a Microsoft Excel workbook. This role allows the user to access the Functional Setup Manager and perform the common setups for project costing and billing using predefined templates and spreadsheets. The user can also monitor and validate the setup data using reports and dashboards. Reference:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/implement-project-financial-management-applications.html#OAPFM2356151>

NEW QUESTION # 12

Which two statements are true about the borrowed and lent cross charge method? (Choose two.)

- A. This method creates accounting entries that move an amount equal to the transfer price between the provider and receiver organizations
- **B. This method allows you to process cross charge transactions across legal entities.**
- **C. Internal Invoice is not generated with this method.**
- D. You must set up a contract business unit to use this method.

Answer: B,C

Explanation:

The borrowed and lent cross charge method is a method that allows you to process cross charge transactions between provider and receiver organizations that belong to different legal entities within the same primary ledger. This method does not generate internal invoices or intercompany accounting entries for cross charge transactions. Instead, this method creates accounting entries that move an amount equal to the transfer price between the provider and receiver organizations using borrowed and lent accounts. Two statements that are true about this method are:

* Internal Invoice is not generated with this method. This method does not create internal invoices for cross charge transactions, as

these transactions are accounted within the same primary ledger using borrowed and lent accounts.

* This method allows you to process cross charge transactions across legal entities. This method allows you to process cross charge transactions between provider and receiver organizations that belong to different legal entities within the same primary ledger, as long as they share the same chart of accounts, calendar, currency, and subledger accounting method.

NEW QUESTION # 13

Which two statements describe how the Resource Qualification Score is calculated?

- A. An individual's score is 100% if the resource request has a qualification with a specified proficiency and the resource does not have the qualification.
- B. An individual's score is 100% if the resource request has a qualification with a specified proficiency and the resource has the qualification that meets the specified proficiency.
- C. An individual's score is 100% if the resource request has a qualification, but no proficiency is specified, and the resource has the qualification.
- D. An individual's score is 100% if the resource request has a qualification with a specified proficiency and the resource has the qualification with a proficiency that is lower or higher than specified.

Answer: B,C

Explanation:

The Resource Qualification Score is a percentage that indicates how well an individual matches the qualifications required for a resource request. An individual's score is 100% if either of the following conditions are met:

* The resource request has a qualification, but no proficiency is specified, and the resource has the qualification. This means that any level of proficiency is acceptable for the qualification.

* The resource request has a qualification with a specified proficiency and the resource has the qualification that meets the specified proficiency. This means that the resource has the exact level of proficiency required for the qualification. An individual's score is not 100% if the resource request has a qualification with a specified proficiency and the resource does not have the qualification or has a different level of proficiency than required. In this case, the score is calculated based on how close the resource's proficiency is to the required proficiency. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-resources.html#OAPFM2356001>

NEW QUESTION # 14

Your organization has a requirement to retrieve the value of the cost center segment based on the department.

Which source can you use while defining the account rule to achieve this requirement?

- A. Project Organization Cost Center Segment
- B. Expenditure Business Unit Cost Center Segment
- C. Expenditure Organization Cost Center Segment
- D. Event Organization Cost Center Segment

Answer: C

Explanation:

The source that can be used while defining the account rule to achieve this requirement is Expenditure Organization Cost Center Segment. This source allows you to retrieve the value of the cost center segment based on the expenditure organization of the transaction. The expenditure organization is an attribute of a transaction that represents the organization that incurs or owns the cost of the transaction.

NEW QUESTION # 15

Which three are valid password complexity criteria while setting up password policies? (Choose three.)

- A. Very Complex: At least 6 characters, 1 uppercase, 1 number, and 1 special character
- B. Very Complex: At least 8 characters, 1 uppercase, 1 number, and 1 special character
- C. Very Complex: At least 8 characters, 1 uppercase, 1 number, and 2 special characters
- D. Complex: At least 8 characters, 1 uppercase, and 1 number
- E. Simple: At least 8 characters and 1 number

Answer: B,C,D

Explanation:

Password complexity criteria are criteria that determine how strong or secure a password must be for a user account. Password complexity criteria can include requirements such as minimum length, uppercase letters, lowercase letters, numbers, special characters, etc. Three of the valid password complexity criteria while setting up password policies are:

* Complex: At least 8 characters, 1 uppercase, and 1 number

* Very Complex: At least 8 characters, 1 uppercase, 1 number, and 2 special characters

* Very Complex: At least 8 characters, 1 uppercase, 1 number, and 1 special character Simple: At least 8 characters and 1 number is not a valid password complexity criterion while setting up password policies, as this criterion does not meet the minimum security standards for Oracle Cloud applications.

Very Complex: At least 6 characters, 1 uppercase, 1 number, and 1 special character is also not a valid password complexity criterion while setting up password policies, as this criterion does not meet the minimum length requirement of 8 characters for Oracle Cloud applications. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/set-up-project-financial-management.html#OAPFM2356271>

NEW QUESTION # 16
