100% Pass Quiz ISQI - Valid CPRE-FL_Syll_3.0 Mock Exam

These ISQI CPRE-FL_Syll_3.0 questions can be customized by the user according to their needs. This customization feature so that customers can adjust the time as they want. They can change the settings of the time and questions as per need while giving the ISQI CPRE-FL_Syll_3.0 tests. These ISQI CPRE-FL_Syll_3.0 exam questions train candidates to maintain discipline so that they can solve the real ISQI CPRE-FL_Syll_3.0 questions on time while giving their final CPRE-FL_Syll_3.0 exam.

ISQI IREB Certified Professional for Requirements Engineering. Foundation Level Sample Questions (Q177-Q182):

NEW QUESTION # 177

Which of the following is NOT a main influencing factor for configuring an RE process?

- A. Quantity of requirements
- B. Shared understanding
- C. Available time and budget
- D. Volatility of requirements

Answer: A

Explanation:

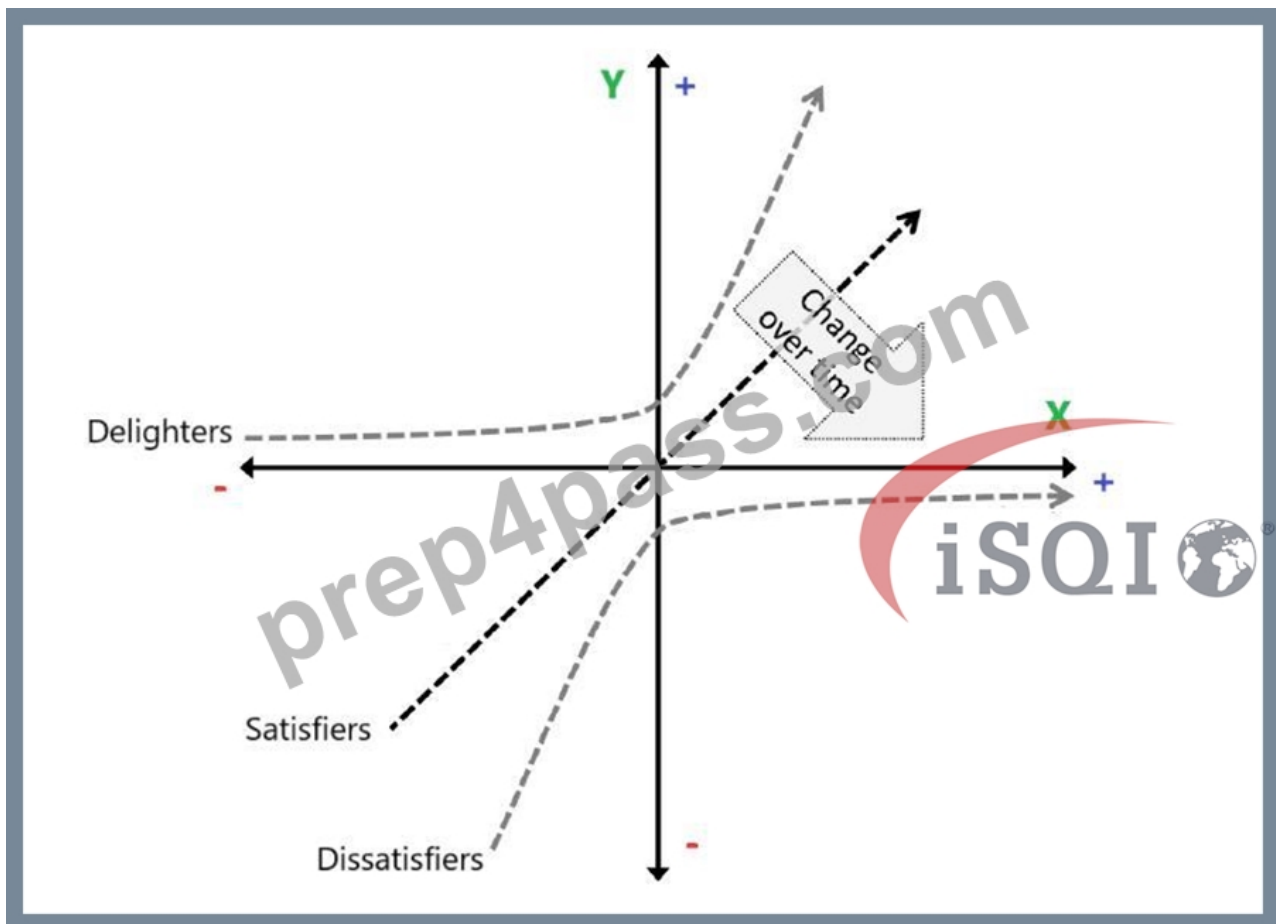

Comprehensive and Detailed Explanation From Exact Extract:

The handbook lists several key factors for tailoring RE processes: degree of shared understanding between stakeholders and team, available time and budget, trust, system complexity, criticality and volatility of requirements. High volatility and low shared understanding typically call for more iterative and rigorous RE.

Limited time and budget favour lightweight approaches. The sheer number of requirements may affect workload but is not considered a primary factor in deciding process facets such as linear vs. iterative or customer-specific vs. market-oriented. Thus, "quantity of requirements" is not one of the main influencing factors.

NEW QUESTION # 178

Consider the following representation of the Kano model (diagram).

Which option best describes what the axes Y and X represent?

- A. Y = Customer satisfaction; X = Implementation of requirements
- B. Y = Customer satisfaction; X = Specified requirements
- C. Y = Happiness of stakeholders; X = Implementation of requirements
- D. Y = Implementation of requirements; X = Happiness of stakeholders

Answer: A

NEW QUESTION # 179

A product-oriented RE process is typically chosen when an organization is developing a system as a product or service for the market. Besides being iterative, this type of RE process should also be:

- A. Prescriptive & Market-oriented
- B. Explorative & Market-oriented
- C. Explorative & Customer-oriented
- D. Prescriptive & Customer-oriented

Answer: B

NEW QUESTION # 180

The implementation of traceability offers many benefits for RE. Which of the following benefits would be the LEAST applicable?

- A. It helps to produce verifiable requirements.
- B. It helps to produce unambiguous requirements.
- C. It helps when trying to find where a requirement came from.
- D. It helps to analyze the impacts of change in requirements.

Answer: A,B

NEW QUESTION # 181

Consider the table that lists several "Source" entries in rows and Req1-Req4 in columns, with crosses marking which requirements originate from which sources. This table is an example of a:

Source	Req1	Req2	Req3	Req4
Minutes of meeting n° 02/2025	x	x		x
ISO/IEC/IEEE 29148 section 2.2	x			x
Interview with Mr. Jones on January 14th			x	x

- A. Decision Matrix
- **B. Traceability Matrix**
- C. Configuration Control Board
- D. Kano Analysis Matrix

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

A traceability matrix is a tabular representation that links two sets of items—for example, requirements to their sources, requirements to design elements, or requirements to test cases. Each axis lists one set, and marks (such as "x") show relationships. The illustrated table links sources (meeting minutes, standards, interviews) to requirements Req1-Req4, so it is a source-to-requirement traceability matrix. A configuration control board is an organizational body, not a table; a decision matrix is used for evaluating options, and a Kano matrix classifies customer satisfaction. Thus option A is correct.

NEW QUESTION # 182

.....

If you want a relevant and precise content that imparts you the most updated, relevant and practical knowledge on all the key topics of the ISQI Certification exam, no other study material meets these demands so perfectly as does Prep4pass's study guides. The CPRE-FL_Syll_3.0 questions and answers in these guides have been prepared by the best professionals who have deep exposure of the certification exams and the exam takers needs. The result is that CPRE-FL_Syll_3.0 Study Guides are liked by so many ambitious professionals who give them first priority for their exams. The astonishing success rate of CPRE-FL_Syll_3.0 clients is enough to prove the quality and benefit of the study questions of CPRE-FL_Syll_3.0.
