## Pass Guaranteed Quiz 2026 NCP-EUC: Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Perfect Best Study Material

Customers who purchased our NCP-EUC study guide will enjoy one-year free update and we will send the latest one to your email once we have any updating about the NCP-EUC dumps pdf. You will have enough time to practice our NCP-EUC Real Questions because there are correct answers and detailed explanations in our learning materials. Please feel free to contact us if you have any

questions about our products.

## Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam Sample Questions (Q48-Q53):

### NEW QUESTION # 48

Users are reporting that their desktops are running slower than expected in an ESXi-based Nutanix cluster. upon investigation, an administrator determines that desktops on one host are running slower and have higher CPU Ready times than on other hosts. What is causing this issue?

- A. Erasure coding's increased overhead has caused a slowdown in the environment
- B. Inline Compression has been disabled on the desktop storage container
- C. High Performance host power policy is enabled
- **D. High Performance host power policy is disabled**

**Answer: D**

Explanation:

A high CPU Ready time means that the vCPU is waiting too long for the pCPU, which can result in poor performance and slow responsiveness of the virtual machine (VM).

According to Nutanix best practices<sup>2</sup>, one of the factors that can affect CPU Ready time is the host power policy. The host power policy determines how aggressively the host will try to save power by reducing the frequency or voltage of the pCPUs.

The recommended host power policy for Nutanix clusters is High Performance, which disables any power saving features and ensures that the pCPUs run at their maximum frequency and voltage.

This answer seems to explain why desktops on one host are running slower and have higher CPU Ready times than on other hosts, as they may be suffering from reduced pCPU performance due to a lower host power policy.

### NEW QUESTION # 49

A user has been migrated from a legacy desktop environment to the company's new Citrix VDI solution. Performance on the new VDI architecture is good, but the user experiences long login and logoff times for every session. What is the primary cause of this issue?

- A. The home folder has too much archived data.
- B. There are not enough GPUs available in the cluster.
- C. The cluster needs additional network connectivity.
- **D. The user has a legacy roaming profile configured.**

**Answer: D**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract of Nutanix End User Computing documents:

According to Citrix on Nutanix Best Practices for Profile Management:

\* Legacy Roaming Profiles: A "Legacy Roaming Profile" (Windows Roaming User Profiles) functions by downloading the entire profile (files, folders, AppData, etc.) from the network share to the local VM at logon, and uploading changes back at logoff.

\* Impact on Performance: If a user has a large existing profile (common in legacy migrations), this copy process creates massive network and disk I/O activity during the logon/logoff phase, resulting in extended wait times (the "Applying User Settings" or "Waiting for User Profile Service" screens).

\* Contrast with Modern Solutions: Modern VDI solutions use Profile Containers (like FSLogix or Citrix Profile Management containers) which mount the profile as a virtual disk (VHDX) almost instantly, rather than copying files.

\* Why not Home Folder (C)? A home folder is typically a mapped network drive. It does not copy data to the desktop at logon; it simply maps a pointer. Therefore, having "too much data" in a mapped drive does not slow down the logon process itself.

### NEW QUESTION # 50

An administrator is using Citrix Studio to configure policies for their existing CVAD environment on to a Nutanix Files share. The administrator would like to use Citrix Director to reset user profiles.

How should the user profiles be configured?

- A. use Nutanix Files standard shares

- Deploy Citrix Profile Management user stores inside the user's top-level directory
- B. Redirect user's Desktop, Documents and Favorites to a Nutanix Files home share.
- C. Redirect user's Desktop, Documents and Favorites to a Nutanix Files general share.
- D. use Nutanix Files distributed shares. Deploy Citrix Profile Management user stores inside the user's top-level directory.

**Answer: D**

Explanation:

This is because this option will allow the administrator to use Citrix Director to reset user profiles on a Nutanix Files share that provides high performance, scalability, and resilience<sup>3</sup>.

Citrix Profile Management is a solution that allows administrators to manage user profiles and settings across different devices and sessions<sup>12</sup>. Nutanix Files is a software-defined file storage solution that provides high performance and scalability for file data<sup>12</sup>.

Nutanix Files supports all forms of profile management with efficient metadata caching techniques that optimize for faster VDI logon times<sup>12</sup>. Nutanix Files offers two types of shares: standard shares and distributed shares<sup>3</sup>. Standard shares are hosted on a single file server, while distributed shares are hosted on multiple file servers for load balancing and high availability<sup>3</sup>.

### NEW QUESTION # 51

An administrator is unable to open Citrix Studio and sees the following error message:

"The host server cannot be contacted. Check that the connection has a valid host address, and that the host server is powered on and working properly. The request was aborted: Could not create SSL/TLS secure channel." What must the administrator do to successfully open Citrix Studio?

- A. Restart the Citrix Configuration Service
- B. Install the Nutanix VirtIO for Windows
- C. Install the Nutanix AHV Plugin for Citrix
- D. Restart the Citrix Configuration Logging Service

**Answer: C**

Explanation:

The error message "Could not create SSL/TLS secure channel" when attempting to connect Citrix Studio to a Nutanix AHV cluster indicates a protocol mismatch between the Citrix Delivery Controller and the Nutanix Prism interface.

Nutanix AOS enforces strict TLS 1.2 security standards. To communicate effectively with the Nutanix cluster, the Citrix Delivery Controllers must have the correct version of the Nutanix AHV Plugin for Citrix installed. This plugin manages the hosting connection and ensures that the communication utilizes the required TLS 1.2 protocols and cipher suites. If the plugin is missing, outdated, or corrupted, the secure channel cannot be established, resulting in this specific error. Installing or upgrading to the latest supported plugin resolves the communication failure.

### NEW QUESTION # 52

Refer to the exhibit.

An administrator is configuring a virtual desktop gold master image with P40 NVIDIA vGPU. upon trying to add a vCPU assignment in Prism Element, the administrator noticed that it is not selectable and cannot proceed. Which two actions are correct steps to resolve this issue? (Choose two.)

- A. Check if ECC Mode is turned on by running `nvidia-smi -q | grep "ECC Mode" -A2`
- B. Disable ECC by running `nvidia-smi -e 0`.
- C. Install the NVIDIA GPU Manager Driver.
- D. Install the NVIDIA GPU drivers on the Gold Master.

**Answer: A,B**

Explanation:

ECC (Error Correcting Code) mode is a feature of some NVIDIA GPUs that provides error detection and correction for memory errors. However, ECC mode can interfere with vGPU functionality and prevent vGPU-enabled VMs from being created or started. Therefore, two correct steps to resolve this issue are B (Disable ECC by running `nvidia-smi -e 0`) and D (Check if ECC Mode is turned on by running `nvidia-smi -q | grep "ECC Mode" -A2`).

## NEW QUESTION # 53

.....

As everybody knows, competitions appear ubiquitously in current society. In order to live a better life, people improve themselves by furthering their study, as well as increase their professional NCP-EUC skills. Once you purchase our NCP-EUC exam material, your time and energy will reach a maximum utilization. Thus at that time, you would not need to be afraid of the cruel society and peer pressure with NCP-EUC Certification. In conclusion, a career enables you to live a fuller and safer life. So if you want to take an upper hand and get a well-pleasing career our NCP-EUC learning question would be your best friend.

**NCP-EUC Test Fee:** <https://www.practicematerial.com/NCP-EUC-exam-materials.html>

Our NCP-EUC PDF dumps will help you prepare for the Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam even when you are at work, Nutanix Best NCP-EUC Study Material The version of PDF, it is can be printed out which makes it more convenient for your notes, For instance, you will be more likely to be employed by bigger companies when you get the certificates after using our NCP-EUC exam bootcamp, To pass the Nutanix Certified Professional (NCP) NCP-EUC exam, many exam candidates are eager to find the most helpful NCP-EUC exam torrent: Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam anxiously.

The dye is applied in a pattern called a Bayer pattern) such that NCP-EUC each row has either alternating red and green or blue and green pixels, Most of the time, he wants to watch the film.

Our NCP-EUC Pdf Dumps will help you prepare for the Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10

Exam even when you are at work, The version of PDF, it is can be printed out which makes it more convenient for your notes.

## **Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam exam training solutions & NCP-EUC latest practice questions & Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam free download material**

For instance, you will be more likely to be employed by bigger companies when you get the certificates after using our NCP-EUC exam bootcamp, To pass the Nutanix Certified Professional (NCP) NCP-EUC exam, many exam candidates are eager to find the most helpful NCP-EUC exam torrent: Nutanix Certified Professional - End User Computing (NCP-EUC) 6.10 Exam anxiously.

The candidates can benefit themselves by using our NCP-EUC test engine and get a lot of test questions like exercises and answers.
