- A. Workflow action
- B. Form button
- C. List choice
- D. Form choice
- E. List banner button
- F. Record navigation button

Answer: B,E,F

Explanation:

Comprehensive and Detailed Step-by-Step

UI Action Types:

List banner button: A button that appears in the list view banner, allowing users to perform actions on multiple records or interact with the list itself.

Form button: A button that appears on a form, enabling users to execute server-side or client-side scripts.

Record navigation button: A button used to navigate between records or perform specific actions related to a record.

Why Other Options Are Incorrect:

Option B (Workflow action): This is not a valid UI Action type; workflows are managed separately.
