To let the clients have an understanding of their mastery degree of our C_ACDET_2506 guide materials and get a well preparation for the test, we provide the test practice software to the clients. The test practice software of C_ACDET_2506 practice guide is based on the real test questions and its interface is easy to use. The test practice software boosts the test scheme which stimulate the real test and boost multiple practice models, the historical records of the practice of C_ACDET_2506 Training Materials and the self-evaluation function.

SAP C_ACDET_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.
Topic 2	<ul style="list-style-type: none"> Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.
Topic 3	<ul style="list-style-type: none"> Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.

SAP C_ACDET_2506 Exam Registration & Standard C_ACDET_2506

Answers

In traditional views, the C_ACDET_2506 practice materials need you to spare a large amount of time on them to accumulate the useful knowledge may appearing in the real C_ACDET_2506 exam. However, our C_ACDET_2506 learning questions are not doing that way. According to data from former exam candidates, the passing rate of our C_ACDET_2506 learning material has up to 98 to 100 percent. There are adequate content to help you pass the exam with least time and money.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q38-Q43):

NEW QUESTION # 38

What actions can typically be performed on existing fields? Note: There are 3 correct answers to this question.

- A. Change the field type
- B. Add a Visibility, Editability, or Validity Condition
- C. Change the internal name
- D. Change the help tip
- E. Make the field mandatory

Answer: B,D,E

NEW QUESTION # 39

You need to revise a published form template. What steps do you follow?

- A. Edit directly in production
- B. Delete and recreate
- C. Clone and change ID
- D. Create a new version, edit, test, and publish

Answer: D

Explanation:

SAP Ariba requires that revisions to published form templates be handled through creating a new version of the template, then editing and testing the draft version before publishing it. The system maintains the prior published version active while you work on the new draft, ensuring no disruption. Cloning and changing IDs is unnecessary and not best practice. Direct edits on published templates are not permitted, and deleting and recreating loses version history and control. This versioning mechanism supports safe, auditable template changes.

NEW QUESTION # 40

How do you format the Help Tip for a field?

- A. Select Field Configuration, select the class, and edit the field. In the Help Tip, you can format the text by selecting the string and use regular keyboard controls such as Ctrl-l, Ctrl-b
- B. Select Field Configuration and edit the field. In the Help Tip, you can only use plain text without any formatting options.
- C. Select Field Configuration, select the class, and edit the field. In the Help Tip, you can add standard HTML tags for formatting
- D. Select Field Configuration and edit the field. In the Help Tip, you can format the text by using the mouse to highlight the text and then right-clicking to access formatting options.

Answer: C

NEW QUESTION # 41

Which of the following accurately describes the migration of flex master data templates using the migration tool?

- A. The templates are migrated by the tool, but the data must be loaded manually later.

- B. Both the templates and their data are fully migrated by the tool.
- C. Only the data of the flex master data templates is migrated; templates must be created manually.
- D. Neither the templates nor the data is migrated using the tool

Answer: A

NEW QUESTION # 42

How can you define default values on fields?

- A. Default values are not permitted
- B. Set only for Constant values
- C. Default values must be manually entered by the user
- **D. Set as Constants or Expressions based on other field values**

Answer: D

Explanation:

SAP Ariba allows you to define default values for fields either as static Constants or as dynamic Expressions based on other field values. Expressions use the Ariba expression language, supporting logical comparisons and operators to calculate defaults dynamically during data entry. This enables tailored defaulting logic that adapts to form context or user input. Default values are applied automatically by the system; users do not have to enter them manually unless they override the defaults. This flexibility improves data accuracy and user experience.

NEW QUESTION # 43

.....

The time for C_ACDET_2506 test certification is approaching. If you do not prepare well for the SAP certification, please choose our C_ACDET_2506 exam test engine.
