Reliable 1Z0-1195-25 Exam Prep, Test 1Z0-1195-25 Engine Version

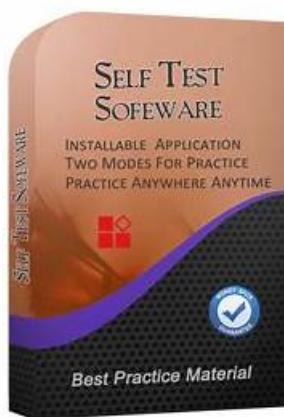

BONUS!!! Download part of Free4Torrent 1Z0-1195-25 dumps for free: https://drive.google.com/open?id=1pB6YLdJXuJkVKqQ411czdI8uFGiR5YY1

Free4Torrent offers updated 1Z0-1195-25 questions in a PDF document. These 1Z0-1195-25 real exam questions come with accurate answers, ensuring reliability and authenticity. The PDF format provides portability, allowing you to study for the Oracle 1Z0-1195-25 examination without time and location constraints. You can access the PDF file on your laptop, tablet, or smartphone, making it incredibly convenient.

Oracle 1Z0-1195-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Converged Database: This section evaluates the expertise of Multi-Model Database Specialists and Application Developers in using Oracle's converged database for multi-model use cases. It covers JSON, graph, and spatial data capabilities within the Oracle Database.
Topic 2	• MySQL and NoSQL: This section measures the skills of Database Developers and Data Engineers in working with Oracle MySQL HeatWave Database Service. It focuses on their features and uses cases for modern application development.

Topic 3	• Data Management Introduction: This section of the exam measures the skills of Data Architects and Cloud Database Specialists in understanding Oracle's data management strategy. It covers Oracle's database offerings, deployment options, and multi-cloud and hybrid cloud solutions for managing data using Oracle Cloud Infrastructure.
Topic 4	• Autonomous Database and Tools: This section evaluates the expertise of Database Administrators and Cloud Engineers in working with Oracle Autonomous Database (ADB). It includes provisioning ADB instances, scaling CPU and storage, starting and stopping databases, and using tools to load data into ADB effectively.
Topic 5	• Exadata and DBCS: This section tests the knowledge of Exadata Specialists and Database Administrators in understanding Exadata deployment options, lifecycle management tasks such as patching and backup, and the features of Oracle Base Database Service (DOracle NoSQL Database ServiceBCS).
Topic 6	• Upgrades and Migrations: This section tests the knowledge of Migration Specialists and Cloud Architects in planning cloud migrations. It includes various migration strategies to OCI, as well as upgrade options for transitioning existing databases to newer versions or cloud environments.
Topic 7	• Data Lake, Data Warehouse, and Machine Learning: This section evaluates the expertise of Data Scientists and Big Data Engineers in understanding UCI's Data Lakehouse architecture, Oracle Machine Learning capabilities, and Data Mesh architecture for managing distributed data environments.
Topic 8	• Developing on Oracle Database: This section measures the skills of Application Developers and DevOps Engineers in managing Autonomous Databases using REST APIs, Oracle's data toolset, low-code development with APEX, and CI • CD processes for database tools and APEX applications.

Free PDF Quiz 1Z0-1195-25 - High Pass-Rate Reliable Oracle Data Platform 2025 Foundations Associate Exam Prep

To do this you just need to pass the Oracle 1Z0-1195-25 certification exam. Are you ready to accept this challenge? Looking for the proven and easiest way to crack the Oracle 1Z0-1195-25 certification exam? If your answer is yes then you do not need to go anywhere. Just download 1Z0-1195-25 exam practice questions and start Oracle Data Platform 2025 Foundations Associate (1Z0-1195-25) exam preparation without wasting further time. The Free4Torrent Oracle 1Z0-1195-25 Dumps will provide you with everything that you need to learn, prepare and pass the challenging 1Z0-1195-25 exam with flying colors. You must try Free4Torrent Oracle 1Z0-1195-25 exam questions today.

Oracle Data Platform 2025 Foundations Associate Sample Questions (Q45-Q50):

NEW QUESTION # 45
Oracle Lakehouse provides extensive data processing capabilities, to accommodate the migration of existing architectures or the creation of new, agile ones. Which service does NOT provide data processing on Oracle Cloud Infrastructure (OCI) Lakehouse?

- A. OCI Data Flow
- B. Autonomous Database
- C. NoSQL Service
- D. Big Data Service

Answer: C

Explanation:
In the Oracle Cloud Infrastructure (OCI) Lakehouse, data processing capabilities are provided by services designed to handle computation and transformation of data. "Autonomous Database" (A) offers self-managing data processing for SQL workloads, "Big Data Service" (C) supports large-scale processing with Hadoop and Spark, and "OCI Data Flow" (D) enables serverless Spark

processing. However, "NoSQL Service" (B) is primarily a storage service for unstructured key-value data, optimized for high-performance retrieval and scalability, not for general data processing tasks like transformation or analytics. Oracle's Lakehouse documentation emphasizes processing services like Autonomous Database, Big Data Service, and OCI Data Flow, while NoSQL Service is positioned for persistence and access rather than processing.

NEW QUESTION # 46
What are two important reasons to upgrade and patch?

- A. Validation of application
- B. Security
- C. Support Compliance
- D. Restructure the database

Answer: B,C

Explanation:
Two important reasons to upgrade and patch are "Support Compliance" (A), ensuring the database remains under Oracle's support policy with access to updates, and "Security" (C), applying patches to mitigate vulnerabilities and protect data. "Validation of application" (B) is a byproduct, not a primary reason, and "Restructure the database" (D) is unrelated to patching. Oracle's maintenance guides emphasize compliance and security as key drivers.

NEW QUESTION # 47
Which component is NOT included as part of an Oracle NoSQL table Oracle Cloud Identifier (OCID)?

- A. Compartment ID
- B. Resource type
- C. Unique ID
- D. Region

Answer: D

NEW QUESTION # 48
Which workload CANNOT be run on Oracle Database 19c?

- A. Machine Learning
- B. Hadoop Clusters
- C. Gaming
- D. Translytical

Answer: B

Explanation:
"Oracle Database 19c" supports "Machine Learning" (A) via in-database algorithms, "Translytical" (B) workloads combining transactional and analytical processing, and "Gaming" (C) through high-performance transaction support. However, "Hadoop Clusters" (D) cannot run directly on 19c, as Hadoop is a distributed framework requiring a separate ecosystem (e.g., Oracle Big Data Service), not a workload natively supported within the database engine. Oracle's 19c documentation details its converged database capabilities, excluding Hadoop as a direct workload.

NEW QUESTION # 49
Which two are true about the Autonomous JSON Database?

- A. A DBA is required
- B. Instant auto-scaling
- C. Applications cannot be built without SQL
- D. Accessed via document APIs

Answer: B,D

Explanation:
The "Autonomous JSON Database" is "Accessed via document APIs" (A), such as SODA, for NoSQL-style operations, and offers "Instant auto-scaling" (D) for compute and storage with no downtime. "Applications cannot be built without SQL" (B) is false, as document APIs suffice, and "A DBA is required" (C) is incorrect due to its self-managing nature. Oracle's documentation highlights these autonomous and API-driven features.

NEW QUESTION # 50

......

1Z0-1195-25 practice dumps offers you more than 99% pass guarantee, which means that if you study our 1Z0-1195-25 learning guide by heart and take our suggestion into consideration, you will absolutely get the certificate and achieve your goal. Meanwhile, if you want to keep studying this course , you can still enjoy the well-rounded services by 1Z0-1195-25 Test Prep, our after-sale services can update your existing 1Z0-1195-25 study quiz within a year and a discount more than one year.
