Pass-Sure Exam NCP-AI Dump for Real Exam

On the one hand, our NCP-AI quiz torrent can help you obtain professional certificates with high quality in any industry without any difficulty. On the other hand, NCP-AI exam guide can give you the opportunity to become a senior manager of the company, so that you no longer engage in simple and repetitive work, and you will never face the threat of layoffs. However, if you are an unemployed person, our study materials also should be the best choice for you. NCP-AI Quiz torrent can help you calm down and learn more knowledge of it, and what most important is that our study materials can help you use the shortest time to reach to the top of your career. What are you waiting for? Come and buy it now!

If you really long for recognition and success, you had better choose our NCP-AI exam demo since no other exam demo has better quality than ours. Trust us and you will be sure to win a beautiful future. As you know, in most cases, people achieve success because they size up the situation. Now that using our NCP-AI practice materials have become an irresistible trend, why don't you accept it with pleasure? We will never let you down!

NCP-AI Free Download & Exam NCP-AI Bible

In order to meet a wide range of tastes, our company has developed the three versions of the NCP-AI preparation questions, which includes PDF version, online test engine and windows software. According to your own budget and choice, you can choose the most suitable one for you. And if you don't know which one to buy, you can free download the demos of the NCP-AI Study Materials to check it out. The demos of the NCP-AI exam questions are a small part of the real exam questions.

Nutanix NCP-AI Exam Syllabus Topics:

Topic	Details
Topic 1	• Deploy a Nutanix Enterprise AI Environment: This domain covers initial deployment tasks including validating prerequisites, installing Enterprise AI components, and configuring DNS, URLs, and certificates for secure platform operation.
Topic 2	• Configure a Nutanix Enterprise AI Environment: This domain focuses on operational setup including onboarding users, importing large language models, creating and securing API endpoints with keys, and delivering these endpoints to consumers.
Topic 3	• Connect Applications to a Nutanix Enterprise AI Environment: This domain focuses on configuring and validating application connections to endpoints and monitoring endpoint metrics to track application usage and integration performance.
Topic 4	• Perform Day 2 Operations: This domain addresses ongoing management including preparing application integration requirements, interpreting and optimizing performance metrics, monitoring access for anomalies, and selecting appropriate LLMs for optimal output.

Topic 5	• Troubleshoot a Nutanix Enterprise AI Environment: This domain covers diagnosing and resolving performance issues, resource utilization problems, cluster health check failures, and model import or endpoint creation errors.

Nutanix Certified Professional - Artificial Intelligence v6.10 Sample Questions (Q21-Q26):

NEW QUESTION # 21
A junior developer has been granted access to an endpoint but is unsure how to send requests to it.
Which feature in the endpoint details page will help them get started with integration?

- A. Sample Request code
- B. User Role Editor
- C. View API Logs
- D. Endpoint Name

Answer: A

NEW QUESTION # 22
The administrator observes a "Pod Network Unreachable" health check failure in the NAI, specifically affecting several application pods on a newly added worker node. Existing pods on other nodes are functioning normally.
Upon initial investigation, kubectl get pods -o wide shows the affected pods stuck in ContainerCreating or Pending status, and kubectl describe pod <pod-name> events include messages, such as:
"FailedCreatePodSandBox: failed to create sandbox: rpc error: code = Unknown desc = failed to set up network for sandbox..." or "network is not ready" What is the reason for this error and the appropriate next step that the administrator should take?

- A. The underlying Nutanix network segmentation is incorrect; verify VLAN or IP pool configurations are correct in Prism Central.
- B. The NKP CNI plugin on the affected worker node is not functioning correctly; inspect the logs of the CNI poD.
- C. The Docker/containerd runtime on the worker node is corrupted; reinstall the container runtime.
- D. The kube-proxy service is misconfigured; restart all kube-proxy pods on the cluster.

Answer: B

NEW QUESTION # 23
An NAI administrator has successfully imported a model from Hugging Face and created an endpoint for the model. The endpoint is in the Active state. From within the Endpoint section in NAI, the endpoint has been tested with a Sample Request, the response is accurate, and the Status shows SucceedeD.
The administrator has provided the endpoint URL and generated and provided API keys to the developers. However, the developers are having issues connecting to the endpoint. They keep getting 400 Bad Request errors when attempting to prompt the model.
What should the administrator do next to ensure the developers are able to successfully prompt the model?

- A. Re-import the model from Hugging Face, create a new endpoint and provide new URL and API keys to the developers.
- B. Provide the developers the 'Sample Request' code from the endpoint by clicking 'View Sample Request'.
- C. Add additional resources to 'scale up' the number of instances of the endpoint.
- D. Check the Status of the endpoint again to make sure it was not accidentally HibernateD.

Answer: B

NEW QUESTION # 24
Which GPU is currently supported for Nutanix AI deployment?

- A. L4
- B. A100

- C. T4
- D. V100

Answer: B

NEW QUESTION # 25

An administrator is responsible for monitoring access to the Nutanix Enterprise AI (NAI) platform and must ensure that any unusual activity, such as excessive access requests from specific users or IP addresses, is detected in real time. The administrator has discovered that the NAI Dashboard lacks the detail required to detect this type of activity.

What is the most effective method for the administrator to detect such outlier behavior and ensure a timely response?

- A. Continuously monitor the system manually and log out users suspected of unusual activity without further analysis.
- B. Rely on scheduled reports to detect anomalies in user access behaviour after they have occurreD.
- C. Implement Grafana to analyze user access patterns and flag any anomalies for further investigation.
- D. Enable basic logging for access events without configuring real-time alerts for anomalies.

Answer: C

NEW QUESTION # 26

......

When we are in some kind of learning web site, often feel dazzling, because web page design is not reasonable, put too much information all rush, it will appear desultorily. Absorbing the lessons of the NCP-AI study materials, will be all kinds of qualification examination classify layout, at the same time on the front page of the NCP-AI study materials have clear test module classification, so clear page design greatly convenient for the users, can let users in a very short period of time to find what they want to study, and then targeted to study. Saving the precious time users already so, also makes the NCP-AI Study Materials look more rich, powerful strengthened the practicability of the products, to meet the needs of more users, to make the NCP-AI study materials stand out in many similar products.
