### 質問 #37

You are configuring a story report. You add the image widget to the top-left corner of the canvas. You then upload the SAP SuccessFactors logo in the Builder, and select the logo image so it displays on the canvas.

When you preview the report in View Mode, the logo appears centered on the canvas. What action do you take so the Logo appears in the top-left corner when viewing the report in View Mode?

- A. In Styling for the page, set the Page Size to Fixed.
- B. In Builder for the image, set the image to Dynamic.
- C. In Designer Mode, add another widget under the image.
- D. In Styling for the image, set the Image Properties to Pan.

正解: A

解説:

\* Issue Description:

\* When the logo appears centered in View Mode instead of the top-left corner, it is because the page size is set to a responsive layout.

\* Solution:

\* Go to Styling for the page in the report configuration.

\* Change the Page Size from responsive to Fixed.

\* This ensures that elements like the logo remain positioned as designed, including in the top-left corner.
