최신 Associate Certified Coach ICF-ACC 무료샘플문제 (Q20-Q25):

질문 # 20

Nearing the end of a session, your client is still not quite sure what to do about a specific situation. You have the feeling that a similar experience that you have had in the past might be useful for the client. The best response is:

- A. Share with the client that you have had a similar experience and enquire if the client would like to hear and see if anything in there may or may not be useful.
- B. Tell the client that you have had a similar experience and you know exactly what they should do.
- C. Share your story and list the possible options your client can try.
- D. Ask the client if you can tell them a story, and then ask them to share what is relevant in the story.

정답: A

설명:

Option D adheres to Competency 7.11, "Shares observations, insights, and feelings without attachment," by offering the experience as an option while preserving client autonomy (Competency 8.3). It aligns with Ethics Section 2.2 (non-imposition) and the ICF Definition of Coaching (facilitating, not directing).

Option A is directive, violating Competency 2.2. Option B seeks permission but assumes relevance. Option C shares without consent and suggests solutions, bypassing partnership. D best respects the client's choice and process.

References: ICF Core Competencies (2.2, 7.11, 8.3); ICF Code of Ethics (2.2); ICF Definition of Coaching.

질문 # 21

Which is true of the norms, values, and beliefs associated with ethical conduct in coaching?

- A. They are often unspoken.
- B. They are a higher standard than laws.
- C. They are frequently hard to learn.
- D. They are consistent across organizations.

정답: A

설명:

The ICF Code of Ethics outlines explicit standards, but the underlying norms, values, and beliefs (e.g., integrity, respect, client autonomy) are often implicit, shaping ethical conduct beyond written rules. These are embedded in the ICF Definition of Coaching and competencies. Let's evaluate:

- A . They are often unspoken: Values like trust and empowerment are foundational to ICF's approach (Competency 5: "Cultivates Trust and Safety") but aren't always explicitly stated in every interaction, making this true.
 - B . They are consistent across organizations: While ICF provides a standard, norms and values vary across coaching bodies or cultures, so this is false.
 - C . They are a higher standard than laws: Ethics may exceed legal requirements (e.g., confidentiality beyond legal mandates), but this isn't universally true and isn't the best fit.
 - D . They are frequently hard to learn: ICF makes ethics accessible through training and the Code, so this is inaccurate.
- Option A is true, reflecting the implicit nature of ethical norms in ICF coaching.

질문 # 22

At the end of the session, the client states that they are quite happy with their new awareness and are ready to leave. The worst response is:

- A. Are happy for the client and let them go.
- B. Ask what they would like to work on next time.
- C. Ask the client whether it might be helpful to explore some actions and accountability measures.
- **D. Tell the client that a coaching session is not finished until they have an action plan.**

정답: D

설명:

Comprehensive and Detailed Explanation:

Option C is the worst because it imposes the coach's agenda ("not finished until..."), undermining client autonomy (Competency 8.3) and partnership (Competency 2.2). It violates Ethics Section 2.2 (avoiding bias) and contradicts the ICF Definition of Coaching, which prioritizes client-driven outcomes over rigid structures.

Option A (best, see Question 13) invites collaboration. Option B lacks depth but respects the client. Option D shifts focus prematurely. C most severely disrupts the coaching dynamic.

질문 # 23

A client tells their coach that they are struggling to sleep and are having nightmares about a past event they experienced Which is the best action for the coach to take?

- A. Stop coaching until the client stops experiencing sleeping issues and nightmares from the past event
- B. Modify the coaching agreement to address the client's struggles with the problems resulting from this past event
- **C. Continue coaching the client but recommend they see a mental health professional about these symptoms**
- D. Contact a health provider for the client so the coach and health provider can collaborate on the client's case.

정답: C

설명:

The ICF Coaching Boundaries distinguish coaching from therapy, stating that coaching does not address mental health conditions like trauma or sleep disorders. The ICF Code of Ethics (Section 2.5) requires coaches to "refer clients to other professionals when appropriate" if issues fall outside their scope. Let's evaluate:

A . Continue coaching the client but recommend they see a mental health professional about these symptoms: This balances the coach's role in supporting the client's goals (ICF Competency 8) while adhering to ethical boundaries by referring out for nightmares and sleep issues, which suggest unresolved trauma (ICF Code of Ethics, Section 2.5).

B . Stop coaching until the client stops experiencing sleeping issues and nightmares: Ceasing coaching entirely isn't required unless the client's condition prevents engagement. ICF encourages maintaining the relationship within its scope (ICF Definition of Coaching).

C . Modify the coaching agreement to address the client's struggles with the problems resulting from this past event: This crosses into therapy by addressing past trauma, violating ICF boundaries and Competency 3 ("Establishes and Maintains Agreements").

D . Contact a health provider for the client so the coach and health provider can collaborate: This breaches confidentiality (ICF Code of Ethics, Section 4) unless the client explicitly consents, and collaboration exceeds coaching's non-therapeutic role.

Option A is the best action, as it upholds ICF ethics and boundaries by continuing coaching within its scope while ensuring the client's mental health needs are addressed professionally.

질문 # 24

Which coach behavior would be most likely to foster a trusting and safe environment?

- A. Exploring beyond the current moment by inviting further discussion
- B. Regulating emotions to maintain focus on the client throughout the session
- C. Asking questions that respect the client's identity, experiences, and beliefs
- D. Establishing an agreement with the client about the coaching boundaries

정답: C

설명:

ICF Competency 5 ("Cultivates Trust and Safety") involves "creating a safe, supportive environment" by honoring the client's identity and perspectives, fostering trust (ICF Code of Ethics, Section 1.3). Let's analyze:

A. Asking questions that respect the client's identity, experiences, and beliefs: This directly builds trust and safety by valuing the client's uniqueness (Competency 5).

B. Exploring beyond the current moment by inviting further discussion: This aligns with Competency 7 ("Evokes Awareness"), not primarily trust-building.

C. Regulating emotions to maintain focus on the client throughout the session: This supports Competency 2 but is less direct in fostering a trusting environment.

D. Establishing an agreement with the client about the coaching boundaries: This (Competency 3) sets a foundation but isn't the most active trust-building behavior.

Option A most likely fosters trust and safety, per ICF's competency focus.
