1z0-1057-25 latest exam torrent & 1z0-1057-25 dump training vce & 1z0-1057-25 reliable training vce

Passing Oracle certification 1z0-1057-25 exam is not simple. Choose the right training is the first step to your success and choose a good resource of information is your guarantee of success. While the product of DumpsReview is a good guarantee of the resource of information. If you choose the DumpsReview product, it not only can 100% guarantee you to pass Oracle Certification 1z0-1057-25 Exam but also provide you with a year-long free update.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q62-Q67):

NEW QUESTION # 62

Identify three purposes for which the project resource search index is used. (Choose three.)

- A. Calculate Resource Qualification Scores
- B. Display resource details
- C. Filter counts while you search for resources
- D. Provide absence details for resources
- E. Calculate Resources Availability Scores

Answer: A,B,C

Explanation:

The project resource search index is used to store and retrieve information about project resources such as their availability, qualifications, preferences, etc. The project resource search index is used for three purposes:

- * Display resource details: The project resource search index provides the resource details such as name, email, job title, organization, etc. that are displayed on the resource search page.
- * Filter counts while you search for resources: The project resource search index provides the filter counts that show how many resources match each filter criterion on the resource search page.
- * Calculate Resource Qualification Scores: The project resource search index provides the qualification information such as skills, certifications, languages, etc. that are used to calculate the Resource Qualification Scores for each resource based on their match with the resource request. The project resource search index does not provide absence details for resources or calculate Resource Availability Scores. These are provided by other components such as Oracle Fusion Absence Management and Oracle Fusion Human Capital Management. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-resources.html#OAPFM2356181>

NEW QUESTION # 63

Your customer has different accounting and project accounting periods, and sometimes enters invoices with an invoice date in the open project accounting and closed accounting periods. Which two statements are true about how project accounting and accounting dates will be populated in such invoices? (Choose two.)

- A. Accounting date is the first day of the first open accounting period.
- B. Project accounting date is the same as the original invoice date.
- C. Project accounting date is the last day of the open project accounting period.
- **D. Accounting date is the same as the original invoice date.**
- **E. Project accounting date is the first day of the first open project accounting period.**

Answer: D,E

Explanation:

When an invoice is entered with an invoice date in the open project accounting and closed accounting periods, the accounting date is the same as the original invoice date, but the project accounting date is the first day of the first open project accounting period. This ensures that the invoice is accounted in the correct accounting period and recognized in the correct project accounting period.

NEW QUESTION # 64

Your client has implemented Oracle Cloud Applications with their United States business unit and United Kingdom business unit. After six months, they acquired another company in China and added a China business unit. A project accountant in your organization is authorized to access transactions for the US, UK, and China business units. The project accountant can see the transactions for the US and UK business units but not for the China business unit. Why is he not able to see the transactions for the China business unit? (Choose the best answer.)

- A. The JOB role relevant to the China business unit is not assigned to the project accountant.
- **B. The project accountant is not assigned to the external role that grants access to the China business unit.**
- C. The US and UK business units are linked to different ledgers than the China business unit.
- D. The China business unit is associated with a different legal entity than the US and UK business units.

Answer: B

Explanation:

To access transactions for a business unit, the project accountant needs to be assigned to an external role that grants access to that business unit. The external role is defined by the security profile of the business unit and can be different for each business unit. The job role and the legal entity are not relevant for accessing transactions for a business unit. The ledger is relevant for accounting transactions, but not for project transactions. NEW QUESTION # 65

Your customer has the following setups on the project plan type that they are using for their projects:

Use Task Planned Dates as Task Assignment Dates = Yes

Automatically Roll Up Task Planned Dates = Yes

Synchronize Task Transaction Dates with Planned Dates = No

With these setups in place, you perform the following actions:

1. Create a new subtask (Sub Task 1) with a start date of 15-Jun-2016 on the project that has as start date of 01-Jul-2016.

2. Create another new subtask (Sub Task 2) after the previous action is saved.

What would the correct behavior of the application be after these actions? (Choose the best answer.)

- A. After the creation of Sub Task 1, Project Start Date would remain unchanged as 01-Jul-2016 and Sub Task 2 would be created with 15-Jun-2016.
- **B. After the creation of Sub Task 1, Project Start Date would be changed to 15-Jun-2016 and Sub Task 2 would be created with 15-Jun-2016.**
- C. After the creation and saving of Sub Task 1, Task Start Date would be changed to 01-Jul-2016 and Sub Task 2 would be created with 01-Jul-2016.
- D. Project Start Date would remain unchanged as 01-Jul-2016 for both actions but the start dates on both subtasks would remain 15-Jun-2016.

Answer: B

Explanation:
