And even you have problem when you already bought our Terraform-Associate-004 learning guide, we will still help you solve it.

HashiCorp Certified: Terraform Associate (004) (HCTA0-004) Sample Questions (Q78-Q83):

NEW QUESTION # 78

What is the Terraform style convention for indenting a nesting level compared to the one above it?

- A. With three spaces
- B. With four spaces
- C. With two spaces
- D. With a tab

Answer: C

Explanation:

This is the Terraform style convention for indenting a nesting level compared to the one above it. The other options are not consistent with the Terraform style guide.

NEW QUESTION # 79

Changing the Terraform backend from the default "local" backend to a different one after performing your first terraform apply is:

- A. Mandatory
- B. Discouraged
- C. Optional
- D. Impossible

Answer: B

Explanation:

Changing the Terraform backend after performing the initial terraform apply is technically possible but strongly discouraged. This is because changing backends can lead to complexities in state management, requiring manual intervention such as state migration to ensure consistency. Terraform's documentation and best practices advise planning the backend configuration carefully before applying Terraform configurations to avoid such changes. References = This guidance is consistent with Terraform's official documentation, which recommends careful consideration and planning of backend configurations to avoid the need for changes.

NEW QUESTION # 80

Only the user that generated a terraform plan may apply it.

- A. True
- B. False

Answer: B

Explanation:

Rationale for Correct Answer (False):

Any user with access to the saved plan file (terraform plan -out=planfile) can run terraform apply planfile.

Terraform does not enforce user-specific restrictions.

Analysis of Incorrect Option:

True: Incorrect - Terraform doesn't tie plan files to individual users.

Key Concept:

Plan files ensure predictability but are not bound to the identity of the user.

Reference:Terraform Exam Objective - Understand Terraform Basics and CLI.

NEW QUESTION # 81

What feature stops multiple users from operating on the Terraform state at the same time?

- A. Provider constraints
- B. Version control
- C. Remote backends
- D. State locking

Answer: D

Explanation:

State locking prevents other users from modifying the state file while a Terraform operation is in progress. This prevents conflicts and data loss1.

NEW QUESTION # 82

Which of the following is not a valid Terraform collection type?

- A. Tree
- B. Map
- C. set
- D. List

Answer: A

Explanation:

This is not a valid Terraform collection type, as Terraform only supports three collection types: list, map, and set. A tree is a data structure that consists of nodes with parent-child relationships, which is not supported by Terraform

NEW QUESTION # 83

.....

We respect different propensity of exam candidates, so there are totally three versions of Terraform-Associate-004 guide dumps for your reference. The PDF version of Terraform-Associate-004 practice materials helps you read content easier at your process of studying with clear arrangement and the PC Test Engine version of Terraform-Associate-004 real test allows you to take simulative exam. Besides, the APP version of our practice materials, you can learn anywhere at any time with Terraform-Associate-004 study guide by your eletronic devices.
