C_OCM_2503완벽한 인증자료 - C_OCM_2503시험대비 인증공부

경쟁율이 치열한 IT업계에서 아무런 목표없이 아무런 희망없이 무미건조한 생활을 하고 계시나요? 다른 사람들이 모두 취득하고 있는 자격증에 관심도 없는 분은 치열한 경쟁속에서 살아남기 어렵습니다. SAP인증 C_OCM_2503 시험패스가 힘들다한들 Fast2test덤프만 있으면 어려운 시험도 쉬워질수 밖에 없습니다. SAP인증 C_OCM_2503덤프에 있는 문제만 잘 이해하고 습득하신다면 SAP인증 C_OCM_2503시험을 패스하여 자격증을 취득해 자신의 경쟁력을 업그레이드하여 경쟁시대에서 안전감을 보유할수 있습니다.

최신 SAP Certified Associate C_OCM_2503 무료 샘플문제 (Q46-Q51):

질문 # 46

How would you describe the different dimensions of SAP's organizational change management framework?

Note: There are 3 correct answers to this question.

- A. Change communication encompasses activities to provide relevant project information to the different stakeholder groups at the right time.
- B. Change leadership involves activities to enable all management levels to handle the cloud implementation and deal with resistance.
- C. Change effectiveness contains activities that can be applied to evaluate the impact of change management interventions.
- D. Change strategy covers activities to set up change management properly.
- E. Change realization includes activities to realize the business benefits associated with the cloud implementation.

정답: B,D,E

설명:

SAP's OCM framework has key dimensions. Option A is correct-change strategy sets the foundation (e.g., planning, scoping). Option B is correct as realization focuses on delivering benefits (e.g., adoption). Option D is correct because leadership equips managers to manage change and resistance. Option C is incomplete- effectiveness evaluates impact but isn't fully defined here. Option E is a tactic, not a dimension; communication supports other dimensions.

Extract from SAP OCM Concepts: SAP OCM includes strategy, realization, and leadership as core dimensions (SAP OCM Framework).

질문 # 47

What are the core elements of SAP's integrated enablement approach? Note: There are 2 correct answers to this question.

- A. Enablement infrastructure, covering the enablement administration, systems, and support
- B. Enablement advisory, covering the enablement best practices, coaching, and evaluation
- C. Enablement execution, covering enablement project management, content development, and delivery
- D. Enablement planning, covering the enablement strategy, and the learning needs analysis for the project team and users

정답: C,D

설명:

SAP's integrated enablement approach in OCM prepares users for cloud adoption. Option A is correct because enablement execution includes project management (coordinating efforts), content development (creating materials), and delivery (training sessions), forming the operational core. Option D is correct as enablement planning-strategy (defining approach) and learning needs analysis (identifying gaps for project team/users)-sets the foundation for execution.

Option B is incorrect; advisory (best practices, coaching) supports but isn't a core element-it's external guidance. Option C is incorrect; infrastructure (administration, systems) is logistical, not a defining component. SAP OCM focuses on planning and execution as the heart of enablement.

"SAP's enablement approach comprises planning (strategy and needs analysis) and execution (management, content, delivery) to drive user readiness" (SAP Activate, Integrated Enablement Framework).

질문 # 48

How is SAP's organizational change management framework connected with the SAP Activate methodology?

Note: There are 2 correct answers to this question.

- A. Some change management activities are executed in more than one SAP Activate phase
- B. The SAP Activate phases build the dimensions of the organizational change management framework
- C. Each change management dimension is assigned to a specific SAP Activate phase
- D. The start of each change management activity is assigned to one specific SAP Activate phase

정답: A,D

설명:

SAP's OCM framework integrates with SAP Activate to align people efforts with project stages. Option A is correct because activities are phase-specific-e.g., stakeholder analysis starts in Prepare, training in Realize- ensuring timing matches project needs, like assessing readiness before design. Option C is correct as some activities span phases-e.g., communication begins in Prepare (awareness) and continues through Run (adoption updates), adapting to evolving contexts like new releases.

Option B is incorrect-OCM dimensions (e.g., strategy, leadership) are overarching, not phase-bound; they apply across the lifecycle. Option D is incorrect-Activate phases (Discover, Prepare, etc.) structure the project, not the OCM framework's dimensions. SAP OCM syncs with Activate's rhythm.

"The OCM framework connects to SAP Activate by assigning activity starts to specific phases and allowing some activities to span multiple phases for continuous impact" (SAP OCM Framework, Activate Integration).

질문 # 49

Which approach is suitable for conducting a communication needs analysis?

- A. Setting up the analysis as a project activity, because it allows fast execution and fosters team spirit
- B. Interviewing selected business users to explore their individual communication needs, because aggregating this data reveals important insights
- C. Approaching managers or dedicated experts, because it is efficient and avoids unrealistic expectations
- D. Conducting workshops in all impacted business units, because it gives the employees the feeling of being heard

정답: B

설명:

A communication needs analysis in SAP OCM identifies what information stakeholders require, when, and how. Option B is correct because interviewing selected business users (e.g., key users from different units) allows the change manager to explore individual needs-such as preferred channels (email vs. meetings) or content (updates vs. training)-and aggregate these into a comprehensive plan. For instance, a finance user might need detailed process updates, while a warehouse user wants quick system tips. This targeted, qualitative approach uncovers nuances that broad methods miss, ensuring tailored communication that drives adoption. Option A is incorrect-relying only on managers/experts is efficient but risks missing end-user perspectives, leading to top-down assumptions and unmet needs. Option C is vague; "project activity" isn't a method, and speed/team spirit aren't primary goals-accuracy is. Option D is impractical-workshops across all units are resource-intensive and may raise expectations without delivering actionable insights, diluting focus. SAP OCM favors user-centric, data-driven methods like interviews for communication planning. "Conduct a communication needs analysis by interviewing selected business users to gather and aggregate insights, ensuring messages meet specific stakeholder requirements" (SAP OCM Framework, Communication Needs Analysis).

질문 # 50

An SAP cloud project is supported by an external change management advisor and an internal change manager in a delivery role. How would you assign the responsibilities? Note: There are 3 correct answers to this question.

- A. The external change manager develops the overall plans and concepts for change management in the project.
