As a word, I believe the 24-hour online efficient service will help you solve all problems to help you pass the exam.

SAP Certified Specialist - Implementation Consultant - SAP S/4HANA Cloud Private Edition Sample Questions (Q32-Q37):

NEW QUESTION # 32

Where can you find pre-delivered integration content? Note: There are 3 correct answers to this question.

- A. SAP Business Accelerator Hub
- B. SAP Help Portal
- C. Cloud Integration Automation service
- D. SAP Cloud ALM
- E. SAP Discovery Center

Answer: A,B,E

Explanation:

Pre-delivered integration content is essential for streamlining the integration of SAP S/4HANA Cloud Private Edition with other SAP and non-SAP systems. This content can be accessed through the following platforms:

Option A: Cloud Integration Automation service

This option is incorrect. The Cloud Integration Automation service provides guided workflows to automate integration setup but does not serve as a repository for pre-delivered integration content.

Option B: SAP Discovery Center

This option is correct. The SAP Discovery Center offers a collection of missions and services, including pre-packaged integration scenarios, to assist in implementing and integrating SAP solutions.

Option C: SAP Cloud ALM

This option is incorrect. SAP Cloud ALM is a tool for application lifecycle management, focusing on monitoring and operations, and does not provide pre-delivered integration content.

Option D: SAP Help Portal

This option is correct. The SAP Help Portal contains comprehensive documentation, including integration guides and pre-delivered content for various SAP solutions.

Option E: SAP Business Accelerator Hub

This option is correct. The SAP Business Accelerator Hub (formerly known as SAP API Business Hub) is a central repository where SAP provides pre-packaged integration content, APIs, and integration flows for different scenarios.

In summary, pre-delivered integration content for SAP S/4HANA Cloud Private Edition can be found in the SAP Discovery Center, SAP Help Portal, and SAP Business Accelerator Hub.

NEW QUESTION # 33

What is identified in a customer's system through the SAP Readiness Check? Note: There are 2 correct answers to this question.

- A. Recommended SAP Business Accelerator Hub prebuilt integration content
- B. Overview of financial data quality
- C. Recommended SAP Business Technology Platform services
- D. Related simplification items and corresponding compatibility packages

Answer: B,D

NEW QUESTION # 34

How can you assign an authorization to a user?

- A. The authorization is associated with a role that has to be assigned to the user master record.
- B. The authorization has to be assigned to both the user master record and the role profile.
- C. The user has to be assigned to a user group that contains a role profile including the authorization.
- D. The user has to be assigned to the authorization profile in SAP IMG.

Answer: A

NEW QUESTION # 35

Where do you identify new and changed features in the latest release of SAP S/4HANA? Note: There are 2 correct answers to this question.

- A. Feature scope description
- B. SAP Road Map Explorer
- C. What's New Viewer
- D. Customer Influence portal

Answer: B,C

Explanation:

Identifying new and changed features in the latest SAP S/4HANA release (e.g., 2024 for Private Edition) requires specific SAP tools or resources. Let's analyze:

* A. Feature scope description: This is incorrect. The feature scope description outlines the overall capabilities of a solution (e.g., Private Edition), but it's not a dynamic tool for highlighting new or changed features in a specific release-it's more static documentation.

* B. What's New Viewer: This is correct. The What's New Viewer (available via SAP Help Portal or SAP for Me) provides detailed release notes for each SAP S/4HANA version, listing new features, enhancements, and changes (e.g., new Fiori apps, process improvements) specific to the latest release.

* C. SAP Road Map Explorer: This is also correct. SAP Road Map Explorer (roadmaps.sap.com) offers a strategic view of SAP S/4HANA's evolution, including new and planned features across releases. It highlights innovations and updates, making it a key resource for tracking changes.

* D. Customer Influence portal: This is incorrect. The Customer Influence portal allows customers to submit and vote on improvement requests, but it's not a primary source for identifying new or changed features in a release-it's for feedback, not documentation.

In summary, new and changed features are identified in B(What's New Viewer) and C(SAP RoadMap Explorer).

NEW QUESTION # 36

What are the most important tasks in the Fit-to-Standard analysis and design workshops for a system conversion? Note: There are 2 correct answers to this question.

- A. Validating new functionality in the sandbox system
- B. Capturing configuration requirements for the predefined solution
- C. Validating the predefined solution in the sandbox system
- D. Capturing configuration requirements for new functionality

Answer: B,C

NEW QUESTION # 37

.....
