NEW QUESTION # 84

Case Study 2 - Litware, Inc

Overview

General overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following four departments:

IT

HR

R&D

Sales

Physical locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users.

All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.

Implement a data retention solution in Microsoft Teams.

Minimize costs and administrative effort.

Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

Microsoft Teams Requirements

All teams must meet the following requirements:

Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.

Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.

An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

Requirement1: All messages in team collaborations must be deleted after seven years.

Requirement2: all files used in team collaborations must be retained for five years.

Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

The time zone on the phones used by the R&D department must be set to UTC-8.

The time zone on the phones used by the IT department must be set to UTC-5.

All phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft Teams.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.

Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

You need to identify the requirements for the voice pilot project.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- **A. Purchase a Calling Plan for each user.**

- B. Create a dial plan for Litware.
- **C. Assign an additional license and phone number to each user.**
- D. Purchase a Calling Plan for Litware.
- E. Deploy a Session Border Controller (SBC) for Litware.

Answer: A,C

NEW QUESTION # 85

Your company uses Microsoft Teams and a Microsoft calling plan.

The company has a main office in Chicago.

The company opens a new office in Toronto that has 500 users.

You need to ensure that the correct address is available to emergency responders.

What should you do?

- A. Create a configuration profile and assign the profile to the device of each user.
- B. Add an emergency address, and then modify the outbound calling setting for each user.
- C. Create a calling policy and assign the policy to each user.
- **D. Add an emergency address, and then modify the location for each phone number.**

Answer: D

Explanation:

According to the Microsoft documentation¹, you need to add an emergency address for each location where your users make and receive phone calls. An emergency address is a civic address—the physical or street address of a place of business for your organization. It is used to route emergency calls to the appropriate dispatch authorities and to assist in locating the emergency caller. After you add an emergency address, you need to assign a phone number to it. You can assign either a user number or a service number. A user number is assigned to a specific user in your organization who makes and receives phone calls. A service number is used for services such as Audio Conferencing (for dial-in numbers), auto attendants, or call queues.

To assign a phone number to an emergency address, you need to modify the location for each phone number.

You can do this by using the Microsoft Teams admin center or PowerShell. For example, to modify the location for a user number by using PowerShell, you can use the `Set-CsOnlineVoiceUser` cmdlet with the `-LocationID` parameter².

NEW QUESTION # 86

Your company has a Microsoft 365 subscription that contains the teams shown in the following exhibit.

□ Guest users report that they cannot create posts in Monthly Reports.

You need to ensure that the guest users can post to Monthly Reports.

What should you do?

- A. From the Microsoft Teams admin center, modify the messaging policy.
- B. From the Microsoft Teams client, modify the privacy setting.
- **C. From the Microsoft Teams admin center, modify the Guest access settings.**
- D. From the Microsoft Teams client, modify the channel moderation preferences.

Answer: C
