H19-341_V1.0 Exam Pass Guide | Sample H19-341_V1.0 Questions Pdf

Our staff is suffer-able to your any questions related to our H19-341_V1.0 test guide. If you get any suspicions, we offer help 24/7 with enthusiasm and patience. Apart from our stupendous H19-341_V1.0 latest dumps, our after-sales services are also unquestionable. Your decision of the practice materials may affects the results you concerning most right now. Good exam results are not accidents, but the results of careful preparation and high quality and accuracy materials like our H19-341_V1.0 practice materials.

Huawei HCSA-Field-Intelligent Collaboration V1.0 Sample Questions (Q32-Q37):

NEW QUESTION # 32
Huawei IdeaHub Board 2 supports various ports, not including:

- A. VGA
- B. Type-C
- C. HDMI
- D. USB

Answer: A

Explanation:
The Huawei IdeaHub Board 2 is designed with modern digital interfaces to match current classroom technology. Its port list includes HDMI (Input/Output) , USB Type-A/Type-B , and a full-featured Type-C port on the front panel for 4K projection and charging. It does not include a VGA port, as this is an legacy analog standard that has been phased out in favor of high-definition digital connections like HDMI and USB-C.

NEW QUESTION # 33
Regarding Huawei CloudVC 21.0 back-to-back network, which statement is not correct:

- A. Extranet endpoints (H.323/SIP) can connect to the system through the registration SC in the DMZ.
- B. If there are only intranet VOD and live broadcast services, CloudRSE can be deployed within the intranet.
- C. The registration SC in the DMZ and that on the intranet are configured as the traversal client and server respectively.
- D. The intranet SMC can manage endpoints on the extranet (behind NAT endpoints).

Answer: C

Explanation:
In the Huawei CloudVC 21.0 back-to-back (B2B) networking solution, firewall traversal is achieved using two SwitchCenters (SC) . To ensure security, the connection must be initiated from the more secure zone to the less secure zone.
* Intranet SC: Acts as the Traversal Client (TC) . It resides in the internal network and initiates the connection to the SC in the DMZ.
* DMZ SC: Acts as the Traversal Server (TS) . It resides in the DMZ and waits for the connection request from the intranet SC.
Statement A is incorrect because it claims the DMZ SC is the client and the intranet SC is the server, which is the reverse of the actual technical configuration. The other statements are correct: the SMC can manage extranet endpoints via the traversal link (B), extranet endpoints use the DMZ SC as their entry point (C), and CloudRSE deployment is flexible based on where the VOD/Live services are consumed (D).

NEW QUESTION # 34
Huawei IdeaHub S2 passed global authoritative security certification, what security measures are included?
(Select All that can apply)

- A. Refined permission granularity
- B. Randomized distribution of kernel address space
- C. Separate storage of sensitive data
- D. Controllable interface permissions
- E. Traceable access records

Answer: A,B,C,D,E

Explanation:
The IdeaHub S2 is the first large-screen collaboration device to achieve CC EAL5+ high-level security certification. Its multi-layered defense includes:
* Interface Control (A & D): Administrators can disable physical ports (USB, etc.) and set granular permissions for apps.
* Data Security (B): Sensitive data and keys are stored in a TEE (Trusted Execution Environment) , isolated from the standard OS.
* O & M Security (C): Every login and system change is logged for auditing and traceability.
* Kernel Security (E): It uses ASLR (Address Space Layout Randomization) to prevent memory- based cyberattacks by making the location of system processes unpredictable.

NEW QUESTION # 35
Document scanner of the Huawei digital classroom solution can not support the pdf file generation.

- A. FALSE
- B. TRUE

Answer: A

Explanation:
The document scanner (also referred to as a Visualizer or Physical Booth) in the Huawei digital classroom solution is designed to digitize physical teaching materials, such as homework, textbooks, and student papers.
These devices are fully integrated with the IdeaHub and the accompanying teaching software, allowing teachers to capture images and save them in various standard formats, including PDF and JPG. These files can then be shared via QR code, email, or saved to cloud storage. Therefore, the statement that it "cannot" support PDF generation is false.

NEW QUESTION # 36
What is the max sound pickup distance supported by Huawei Bar 310?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

Explanation:
The Huawei CloudLink Bar 310 features an integrated high-sensitivity microphone array. According to its technical data sheet, the built-in microphones are optimized to pick up clear human speech within a 8-meter radius in a standard acoustic environment. For rooms larger than this, the system can be expanded using external wired or wireless microphones, but the standalone "Max sound pickup distance" of the unit itself is 8 meters.

NEW QUESTION # 37
.....

Our H19-341_V1.0 practice materials enjoy a very high reputation worldwide. This is not only because our practical materials are affordable, but more importantly, our H19-341_V1.0 practice materials are carefully crafted after years of hard work and the quality is trustworthy. If you are still anxious about getting a certificate, why not try our H19-341_V1.0 practice materials? If you have any questions about our practical materials, you can ask our staff who will give you help.
