CompTIA Network+ Certification Exam Sample Questions (Q507-Q512):

NEW QUESTION # 507

A government entity wants to implement technology that can block websites based on country code. Which of the following will best enable this requirement?

- **A. URL filtering**
- B. MAC filtering
- C. DNS poisoning
- D. Content filtering

Answer: A

Explanation:

URL filtering can block access to websites based on their domain or country code TLDs (e.g., .cn, .ru). This is the correct method to block by location identifiers in URLs.

B. Content filtering blocks based on keywords or categories within websites, not country code.

C. DNS poisoning is an attack, not a control mechanism.

D. MAC filtering restricts devices, not websites.

Reference (CompTIA Network+ N10-009):

Domain: Network Security - Filtering technologies, URL vs content filtering.

NEW QUESTION # 508

A network administrator needs to implement a solution to filter access to the internet. Which of the following should the administrator most likely implement?

- A. Router
- B. Cloud gateway
- **C. Proxy**
- D. Intrusion detection system

Answer: C

Explanation:

A proxy server can filter internet access by controlling which websites or services users can reach. It enforces content policies and can provide caching and monitoring.

A). A router directs traffic but doesn't filter internet sites by itself.

B). A cloud gateway could also filter, but the most direct answer is proxy.

D). An IDS detects suspicious activity but doesn't filter browsing access.

References (CompTIA Network+ N10-009):

Domain: Network Security - Proxy servers, filtering, access control.

NEW QUESTION # 509

A customer recently moved into a new office and notices that some wall plates are not working and are not properly labeled. Which of the following tools would be best to identify the proper wiring in the IDF?

- **A. Toner and probe**
- B. Cable tester
- C. Network tap

- D. Visual fault locator

Answer: A

Explanation:

A toner and probe tool, also known as a tone generator and probe, is used to trace and identify individual cables within a bundle or to locate the termination points of cables in wiring closets and patch panels. It generates a tone that can be picked up by the probe, helping technicians quickly and accurately identify and label wall plates and wiring. This is the best tool for identifying proper wiring in the Intermediate Distribution Frame (IDF).

NEW QUESTION # 510

Which of the following is the most secure way to provide site-to-site connectivity?

- A. GRE
- **B. IPsec**
- C. IKE
- D. VXLAN

Answer: B

Explanation:

IPsec (Internet Protocol Security) is the most secure way to provide site-to-site connectivity. It provides robust security services, such as data integrity, authentication, and encryption, ensuring that data sent across the network is protected from interception and tampering. Unlike other options, IPsec operates at the network layer and can secure all traffic that crosses the IP network, making it the most comprehensive and secure choice for site-to-site VPNs.

Reference: CompTIA Network+ study materials and NIST Special Publication 800-77.

NEW QUESTION # 511

A network technician is troubleshooting network latency and has determined the issue to be occurring two network switches (Switch10 and Switch11). Symptoms reported included poor video performance and slow file copying. Given the following information:

Which of the following should the technician most likely do to resolve the issue?

- A. Change the native VLAN on the ports.
- B. Disable automatic negotiation on Switch11.
- C. Configure STP on both switches.
- **D. Modify Switch10 MTU value to 1500.**

Answer: D

NEW QUESTION # 512

.....

Our CompTIA N10-009 preparation questions deserve you to have a try. As long as you free download the demos on our website, then you will love our N10-009 preparation braindumps for its high quality and efficiency. All you have learned on our N10-009 Study Materials will play an important role in your practice. We really want to help you solve all your troubles about learning the CompTIA N10-009 exam.
