NEW QUESTION # 214

You have an Azure Virtual Desktop deployment that contains the resources shown in the following table.

Name	Location	Description
Profiles1	West US	Azure file share that stores FSLogix profile containers
HostPool1	West US	Pooled host pool containing session hosts that use the profile containers stored in Profiles1
HostPool2	West US	Personal host pool containing session hosts that each has an operating system disk and a data disk

You create the resources shown in the following table.

Name	Type	Location
Recovery1	Recovery Services vault	West US
Recovery2	Recovery Services vault	Central US
Backup1	Azure Backup vault	West US
Backup2	Azure Backup vault	Central US

You need to meet following requirements:

- * Back up the FSLogix profile containers used by HostPool1.
- * Backup the data disks in HostPool2.

To which resources can you back up the profile containers and the data disks? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

FSLogix profile containers:

Backup1 only
Recovery1 only
Backup1 and Backup2 only
Backup1 and Recovery1 only
Recovery1 and Recovery2 only
Backup1, Backup2, Recovery1 and Recovery2

Data disks:

Backup1 only
Recovery1 only
Backup1 and Backup2 only
Backup1 and Recovery1 only
Recovery1 and Recovery2 only
Backup1, Backup2, Recovery1 and Recovery2

Answer:

Explanation:

Answer Area

FSLogix profile containers:

Backup1 only
Recovery1 only
Backup1 and Backup2 only
Backup1 and Recovery1 only
Recovery1 and Recovery2 only
Backup1, Backup2, Recovery1 and Recovery2

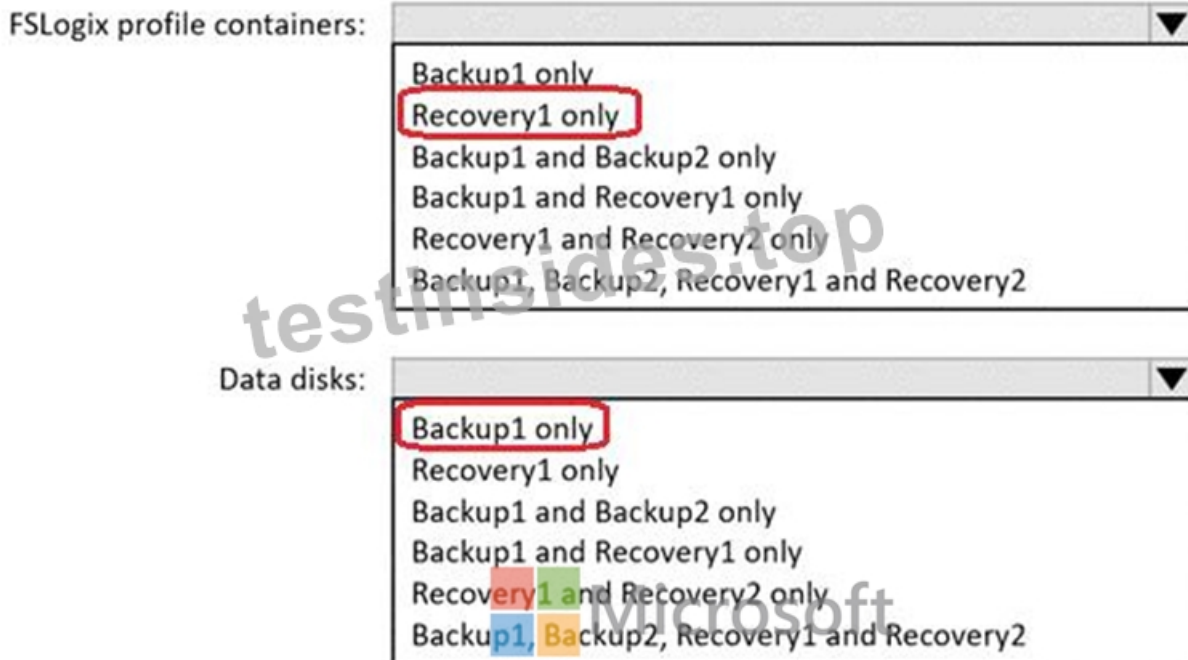

Data disks:

Backup1 only
Recovery1 only
Backup1 and Backup2 only
Backup1 and Recovery1 only
Recovery1 and Recovery2 only
Backup1, Backup2, Recovery1 and Recovery2

Explanation:

Graphical user interface, text, application, email Description automatically generated

Answer Area

NEW QUESTION # 215

You have been assigned the responsibility to set up conditional access for the latest launch of Azure Virtual Desktop (AVD).
Environment Details:

- Site 1: Range for public IP addresses 13.107.128.0/22
- Site 2: Range for public IP addresses 52.238.78.88/32

Requirements:

- Azure Virtual Desktop users receive a Multi-Factor Authentication (MFA) prompt from outside the organization's network
- Azure administrators receive an MFA prompt every time they log in
- All users and admins receive an MFA Prompt 2 hours after the last login
- Recommended Solution:

Add browser, Mobile Apps, and Desktop Clients to the Conditional Access Policy.

Will configuring the recommended solution help in meeting the requirements?

- A. Yes
- B. No

Answer: A

Explanation:

Selecting the browser, mobile apps, and desktop clients will make the policy applicable for app and web logins. Therefore, configuring this solution is a good practice to meet the requirement.

NEW QUESTION # 216

You have a Azure Virtual Desktop deployment.

In Azure Advisor, you discover the following recommendation related to Azure Virtual Desktop:

- * Impact Medium
- * Description: No validation environment enabled
- * Potential Benefit Ensure business continuity through AVD service deployments
- * Impacted Resource: Host Pool

What can you validate by implementing the recommendations?

- A. Preview features for Azure Virtual Desktop

- B. Azure Site Recovery failover of the session hosts
- C. Capacity requirements of the session hosts
- D. Security settings of Azure Virtual Desktop

Answer: B

Explanation:

Explanation

Validation environments are used to test and validate Azure Virtual Desktop deployments before they are made available to users. This can include testing the capacity of the session hosts, the performance of the deployment, and the configuration of security settings. By implementing a validation environment, you can ensure that the Azure Virtual Desktop deployment is working correctly and that there are no issues that could impact business continuity. This can help to ensure a smooth user experience and minimize downtime.

NEW QUESTION # 217

.....

You can use AZ-140 guide materials through a variety of electronic devices. At home, you can use the computer and outside you can also use the phone. Now that more people are using mobile phones to learn our AZ-140 study materials, you can also choose the one you like. One advantage is that if you use our AZ-140 Practice Questions for the first time in a network environment, then the next time you use our study materials, there will be no network requirements. You can open the AZ-140 real exam anytime and anywhere.
