In order to better meet users' need, our C_ACDET_2506 study questions have set up a complete set of service system, so that users can enjoy our professional one-stop service. We not only in the pre-sale for users provide free demo, when buy the user can choose in we provide in the three versions, at the same time, our C_ACDET_2506 Training Materials also provides 24-hour after-sales service. Such a perfect one-stop service of our C_ACDET_2506 test guide, believe you will not regret your choice, and can better use your time, full study, efficient pass the C_ACDET_2506 exam.

SAP C_ACDET_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.
Topic 2	<ul style="list-style-type: none"> Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.
Topic 3	<ul style="list-style-type: none"> Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.

We offer free demo C_ACDET_2506 questions answers and trial services at Exam-Killer. You can always check out our C_ACDET_2506 certification exam dumps questions that will help you pass the C_ACDET_2506 exams. With our well-researched and well-curated exam C_ACDET_2506 dumps, you can surely pass the exam in the best marks. We continuously update our products by adding latest questions in our C_ACDET_2506 PdfFiles. After the date of purchase, you will receive free updates for one year. You will also be able to get discounts for C_ACDET_2506 on complete packages.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q34-Q39):

NEW QUESTION # 34

In a Greenfield deployment scenario, how should translation migrations be performed for header field labels, help tips, and validity condition error messages?

- A. Contact an SAP Deployment lead for customization help.
- B. User with Partner Administrator can configure translation.
- C. Create a package to migrate translations by ICM.
- **D. Translations are included in migrations and are listed as AMLStringResource in the migration**

Answer: D

NEW QUESTION # 35

You need to revise a published form template.
What steps do you follow?

- **A. Create a new version, edit, test, and publish**
- B. Delete and recreate
- C. Clone and change ID
- D. Edit directly in production

Answer: A

NEW QUESTION # 36

Which read-only files show the key and English translations for custom field labels and helptips?

- **A. The JSON files that can be exported through AML & Translations Upload**
- B. The customerResource files that can be exported through AML & Translations Upload
- C. The JSON files that can be exported through ICM
- D. The customerResource files that can be exported through ICM

Answer: A

Explanation:

SAP Ariba stores translations for custom field labels and help tips in JSON files exported and imported via AML (Advanced Metadata List) & Translations Upload. These JSON files contain key-value pairs representing the translation keys and their English or localized strings. This mechanism supports language management and bulk updates of translated content.

ICM exports configuration bundles but does not handle translation files in JSON format. CustomerResource files are not the standard format for translation export/import.

Using AML & Translations Upload allows administrators to maintain and update translations across multiple languages efficiently, ensuring consistent user experience in multi-lingual deployments.

NEW QUESTION # 37

A customer requests a dynamic list from CSV. Which field type supports that?

- A. Hyperlink
- **B. Flex Master Data-based field**

- C. Computed Field
- D. Single-Select Enum

Answer: B

Explanation:

TheFlex Master Data (FMD)-based fieldtype supports dynamic lists sourced from CSV uploads. FMD fields act like advanced picklists that can contain thousands of values, imported via CSV templates defining the master data structure and entries. These fields are searchable, scalable, and ideal for large or frequently changing datasets.

Single-select enumerations are static lists manually defined and cannot import large CSV datasets. Computed fields calculate values dynamically based on expressions and are not designed for listing selectable values.

Hyperlink fields store URLs, unrelated to selection lists.

FMD fields are the preferred approach when a customer requires large or frequently updated lookup lists in sourcing projects or contracts.

NEW QUESTION # 38

Which document must be returned to SAP before a Deployment Lead can be assigned to the project?

- A. Enablement workbook
- B. Solution Design Matrix
- **C. Delivery Engagement Readiness Checklist**
- D. Deployment Overview

Answer: C

NEW QUESTION # 39
