HPE2-E84復習教材、HPE2-E84受験準備

PassTestは長年にわたってずっとIT認定試験に関連するHPE2-E84参考書を提供しています。これは受験生の皆さんに検証されたウェブサイトで、一番優秀な試験HPE2-E84問題集を提供することができます。PassTestは全面的に受験生の利益を保証します。皆さんからいろいろな好評をもらいました。しかも、PassTestは当面の市場で皆さんが一番信頼できるサイトです。

HP Selling HPE AI and As-a-Service Solutions 認定 HPE2-E84 試験問題 (Q34-Q39):

質問 # 34

HPE's overall strategy is to be the "edge-to-cloud" company.

Which statements accurately reflect how the HPE GreenLake platform and the acquisition of OpsRamp support this strategy? (Choose 2.)

- A. By providing a consistent cloud operating experience for applications and data from the edge to the data center.
- B. By divesting from all networking and edge computing solutions to focus solely on the data center.
- C. By focusing exclusively on selling on-premises hardware with traditional support contracts.
- D. By providing a unified platform (OpsRamp) for observability and management across HPE-managed assets and third-party multi-cloud environments.
- E. By forcing customers to move all their edge data into a centralized public cloud.

正解: A、D

質問 # 35

A manufacturing client wants to implement an AI solution to improve quality control by visually inspecting products on the assembly line. The solution must be able to identify microscopic defects in real-time. This requires processing high-resolution video streams with extremely low latency.

What are the key infrastructure requirements that an HPE sales professional must identify for this AI use case? (Choose 2.)

- A. High-throughput, low-latency networking to move video data without delay.
- B. A simple file-sharing protocol like SMB.
- C. High-performance, GPU-based accelerated computing to run the AI inference models.
- D. Low-power, low-cost CPUs for maximum energy efficiency.
- E. A centralized, cloud-only storage solution for archiving data.

正解: A、C

質問 # 36

A large enterprise is looking for a comprehensive AIOps solution to manage their complex hybrid IT environment, which includes on-premises data centers and multiple public clouds. Their primary goals are to reduce IT operations costs and improve service availability.

Which benefits of adopting OpsRamp as their AIOps platform directly contribute to these goals? (Select all that apply.)

- A. It provides a single, fixed-price perpetual license for the software.
- B. It automates routine operational tasks and incident remediation, freeing up staff and reducing manual errors.
- C. It offers full-stack visibility and service-centric monitoring across hybrid infrastructure, enabling faster root cause analysis.
- D. It uses machine learning to proactively detect anomalies and predict incidents before they impact business services.
- E. It replaces the need for any specialized network administration staff.

正解: B、C、D

質問 # 37

A medium-sized enterprise is embarking on its first major AI initiative. They have a team of data scientists but lack the deep expertise in managing and optimizing the underlying HPC infrastructure required for AI model training. They have a limited upfront budget but a clear business case for the project.

Customer Profile:

- Company Size: Medium Enterprise
- AI Experience: Limited infrastructure expertise
- Budget: Prefers OpEx over CapEx
- Project: Develop a predictive analytics model for customer churn.

Which HPE solution, combined with the right service and financial model, creates the most compelling proposal for this customer?

- A. A public cloud provider's spot instances for cheap, temporary compute.
- B. HPE GreenLake for HPC, which provides a fully managed, consumption-based HPC environment.
- C. An outright purchase of HPE ProLiant servers with basic support.
- D. A lease on HPE Alletra storage arrays.

正解: B

質問 # 38

A customer's operations team is struggling to manage their IT environment. They present the following challenges.

Customer Pain Points:

- Too many different monitoring tools for servers, network, and cloud.
- The IT team gets thousands of alerts, but it's hard to find the real root cause of a problem.
- It takes too long to resolve incidents because teams have to manually correlate data from different systems.
- They have no way to automate routine fixes.

Which HPE SaaS solution is specifically designed to address all of these operational challenges?

- A. HPE Aruba Networking Central
- B. HPE GreenLake for Block Storage
- C. OpsRamp

- 正解: C
