in Information Technology, the Microsoft MB-310 Certification will be a turning point in your career. Always remember that Microsoft Dynamics 365 Finance Functional Consultant MB-310 exam questions change.

Microsoft Dynamics 365 Finance Functional Consultant Sample Questions (Q169-Q174):

NEW QUESTION # 169

A client has unique accounting needs that sometimes require posting definitions.

You need to implement posting definitions.

In which situation should you implement posting definitions?

- A. when the system needs to automatically post a transaction to the accounts receivable account on invoice posting
- B. when financial dimensions need to default from the vendor record onto an invoice
- C. when only certain dimensions are allowed to post with certain main account combinations
- **D. when creating multiple balanced ledger entries based on transaction types or accounts**

Answer: D

Explanation:

You have to generate multiple, balanced ledger entries based on attributes such as transaction types and accounts. Use posting profiles if you need only one offset ledger entry.

You have to support encumbrance accounting for purchase orders and pre-encumbrance accounting for purchase requisitions.

Posting profiles cannot be used for encumbrance and pre-encumbrance accounting.

<https://docs.microsoft.com/en-us/dynamicsax-2012/appuser-itpro/about-posting-definitions>

NEW QUESTION # 170

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

A company is preparing to complete yearly budgets.

The company plans to use the Budget module in Dynamics 365 Finance for budget management.

You need to create the new budgets.

Solution: Create budget plans for multiple scenarios.

Does the solution meet the goal?

- **A. Yes**
- B. No

Answer: A

Explanation:

Explanation/Reference:

<https://docs.microsoft.com/en-us/dynamics365/unified-operations/financials/budgeting/budget-planning-overview-configuration>

NEW QUESTION # 171

You need to enforce financial budgets for management and resolve User As issue. What should you do?

- A. Apply security rules to budget plans.
- B. Create a new organizational hierarchy.
- **C. Configure budget control threshold.**
- D. Create a schema for formulating budget.

Answer: C

Explanation:

* Configure Budget Control Threshold (Option A):

* Go to Budgeting > Setup > Budget control > Budget control configuration.

* Under the Budget thresholds section, configure the threshold percentage (e.g., 90%) to trigger alerts when users are close to their budget limits.

* This configuration ensures that alerts are sent to users before they exceed their budget, directly addressing User As issue by setting up notifications to prevent budget overrun.

Reference: Dynamics 365 documentation on configuring budget control thresholds to enforce budget limits and alerts.

By setting the threshold, you allow the system to automatically monitor budget usage and notify users accordingly, ensuring adherence to budget constraints as specified by management.

NEW QUESTION # 172

A company is setting up a budget control system to improve financial management. The company completes the following initial steps:

- Defined financial dimensions
- Set default time intervals
- Configured basic budgeting parameters

The company requires the budget control functionality to monitor and compare the actual expenditures to the budgeted amounts. You need to configure the budget control configuration linked to the budgeted amount so that the system can effectively monitor and compare actual expenditures to budgeted amounts.

What should you do next?

- A. Define the calculation formula for budget funds available, including draft documents.
- B. Specify user groups with permissions to exceed the budget.
- C. Assign budget models to the budget cycle time spans.

Answer: A

Explanation:

NEW QUESTION # 173

You need to configure an Accounts payable charge for freight for a company. The company requires that the system include the freight invoice to be paid to the vendor and record the expense in main account 600120 - Freight In.

The screenshot shows the Dynamics 365 Finance and Operations interface for setting up charges. The 'Charges code' section is active, showing a list of codes on the left and details for 'FREIGHT' on the right. The 'Posting' section shows 'DEBIT' and 'CREDIT' types. The 'ACCOUNTS PAYABLE' section shows 'Complete purchase order and invoice...' with a 'No' button. The 'Posting' section shows 'Posting' and 'Account' fields. The 'Microsoft' logo is visible in the bottom left corner.

Questions	Answer choice
Which type should you select in the Debit column?	<div>Item</div> <div>Ledger account</div> <div>Customer/Vendor</div>
Which type should you select in the Credit column?	<div>Item</div> <div>Ledger account</div> <div>Customer/Vendor</div>

Answer:
