

Test Juniper JN0-481 Lab Questions & Pdf JN0-481 Format

BTW, DOWNLOAD part of GetValidTest JN0-481 dumps from Cloud Storage: https://drive.google.com/open?id=1ixVLP8Z0S9vwR1X4cNbyzblGnYu_vjSp

With the aim of helping aspirants to achieve the Data Center, Specialist (JNCIS-DC) (JN0-481) certification, GetValidTest is committed to providing the best quality and updated Juniper JN0-481 exam dumps. With their authentic and Real JN0-481 Exam Questions, you can be confident of passing the Juniper JN0-481 certification exam on the first try.

By focusing on how to help you effectively, we encourage exam candidates to buy our JN0-481 practice test with high passing rate up to 98 to 100 percent all these years. Our JN0-481 exam dumps almost cover everything you need to know about the exam. As long as you practice our JN0-481 test question, you can pass exam quickly and successfully. By using them, you can not only save your time and money, but also pass JN0-481 Practice Exam without any stress. Before you place orders, you can download the free demos of JN0-481 practice test as experimental acquaintance.

Pdf JN0-481 Format & Valid Test JN0-481 Tips

Our experts are working hard on our JN0-481 exam questions to perfect every detail in our research center. Once they find it possible to optimize the JN0-481 study guide, they will test it for many times to ensure the stability and compatibility. Under a series of strict test, the updated version of our JN0-481 learning quiz will be soon delivered to every customer's email box since we offer one year free updates so you can get the new updates for free after your purchase.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q43-Q48):

NEW QUESTION # 43

How does Intent-Based Analytics align with the principles of intent-based networking in terms of data exploration and analysis?

- A. By providing real-time weather updates for the data center location
- B. By facilitating dynamic queries for intent-based data exploration

- C. By managing employee property allocations in the data center
- D. By predicting future changes in the network environment

Answer: B

NEW QUESTION # 44

You have designed your fabric in Juniper Apstra prior to deploying the network devices. Which Apstra element in the Staged tab would be used to assist the team that is installing and cabling the devices?

- A. Managed Devices list
- **B. Links table**
- C. Connectivity Templates
- D. Virtual Networks table

Answer: B

Explanation:

The Links table in the Staged tab shows the physical connections between the devices in the fabric. It provides information such as the source and destination device names, hostnames, serial numbers, roles, interfaces, and link status. The Links table can be used to assist the team that is installing and cabling the devices by verifying that the devices are connected correctly and that the links are operational. The Links table can also be used to troubleshoot any connectivity issues that may arise during the installation process.

NEW QUESTION # 45

Referring to the exhibit, what is the minimum information you must add to create a new routing zone?

Create Routing Zone

VRF Name*

VLAN ID*

VNI*

Routing Policies

Route Target Policies

Import Route Targets

Add Import Route Target

Export Route Targets

Add Export Route Target

Create Another? Create

- A. VRF Name, VLAN ID, VNI, Routing Policies
- B. VRF Name only
- **C. VRF Name, VLAN ID. And VNI**
- D. VRF Name and Routing policies

Answer: C

Explanation:

To create a new routing zone, you must specify the VRF Name, VLAN ID, and VNI for the routing zone. These are the mandatory fields in the user interface shown in the exhibit. The VRF Name is the name of the L3 domain that isolates the IP traffic of the routing zone from other routing zones.

The VLAN ID is the identifier for the VLAN tagged Layer 3 links on external connections. The VNI is the VxLAN Network Identifier associated with the routing zone. The Routing Policies are optional fields that allow you to configure import and export route targets for the routing zone.

These are only applicable for EVPN routing zones, which use MP-EBGP as the overlay control protocol.

NEW QUESTION # 46

What is the purpose of an interface map in Juniper Apstra?

- A. An interface map specifies a connection between the interfaces of two devices.
- B. An interface map associates a logical device with a device profile.
- C. An interface map specifies the number of ports and the port speeds of a logical device
- D. An interface map specifies the connections between racks in a template.

Answer: A

Explanation:

An interface map is a configuration template that maps interfaces between logical devices and physical hardware devices (represented with device profiles) while adhering to vendor specifications. An interface map specifies a connection between the interfaces of two devices, such as a leaf and a spine, a leaf and a server, or a leaf and an external gateway. An interface map can also specify port transformations, such as breaking out a 40 GbE port into four 10 GbE ports, or disabling unused ports. An interface map can be used to achieve the intended network configuration rendering and to enable features such as LAG, ESI-LAG, or MLAG.

NEW QUESTION # 47

What is the purpose of using a routing zone inside Juniper Apstra software?

- A. A routing zone is used to enable L4-L7 inspection inside the fabric.
- B. A routing zone is defined to secure the routing protocols.
- C. A routing zone is used to enable the communication between two VNIs within a VRF.
- D. A routing zone defined at the Apstra manager level requires firewalls to be deployed.

Answer: C

Explanation:

A routing zone is an L3 domain, the unit of tenancy in multi-tenant networks. You create routing zones for tenants to isolate their IP traffic from one another, thus enabling tenants to re-use IP subnets. In addition to being in its own VRF, each routing zone can be assigned its own DHCP relay server and external system connections. You can create one or more virtual networks within a routing zone, which means a tenant can stretch its L2 applications across multiple racks within its routing zone. For virtual networks with Layer 3 SVI, the SVI is associated with a Virtual Routing and Forwarding (VRF) instance for each routing zone isolating the virtual network SVI from other virtual network SVIs in other routing zones.

NEW QUESTION # 48

.....

Today we use computers & internet every day, high-technology products bring our life convenient and benefits. Many positions have great demand. GetValidTest releases valid JN0-481 dumps torrent files to help workers go through exams and get certifications so that many dreaming young people can enter into this field and even get a good position. Juniper JN0-481 Dumps Torrent files is the leading position in this field and can be your NO.1 choice.

Pdf JN0-481 Format: <https://www.getvalidtest.com/JN0-481-exam.html>

Juniper Test JN0-481 Lab Questions Let us make progress together, So to get JN0-481 real exam and pass the JN0-481 exam is important, Juniper Test JN0-481 Lab Questions IT certification test qualification is widely recognized by the international community, As you know, our Pdf JN0-481 Format - Data Center, Specialist (JNCIS-DC) exam questions and answers are comprehensive with specific analysis, which provides a good study guidance for you and allowing you to have a further understanding of the IT technology, GetValidTest Pdf JN0-481 Format has helped many customers gain high scores.

Rendering Environment Maps, Now, our JN0-481 exam questions just need you to spend some time on accepting our guidance, then you will become popular talents in the job market.

Let us make progress together, So to get JN0-481 Real Exam and pass the JN0-481 exam is important, IT certification test qualification is widely recognized by the international community.

As you know, our Data Center, Specialist (JNCIS-DC) exam questions and answers are comprehensive JN0-481 with specific analysis, which provides a good study guidance for you and allowing you to have a further understanding of the IT technology.
