

2026 Zscaler ZDTA–Newest Trustworthy Exam Torrent

ZSCALER EDU 200 - ESSENTIALS - ZDTA STUDY SET NEWEST ACTUAL 2025/2026 EXAM WITH COMPLETE QUESTIONS AND ANSWERS VERIFIED/GRADED A+

What is the function of the auto proxy forwarding firewall configuration?

Options:

- Automatically forwarding traffic from all ports and protocols to Zscaler's proxy.
- Automatically detecting web traffic (e.g., FTP, HTTPS) coming in on non-standard ports and forwarding it to Zscaler's proxy
- Blocking traffic destined for a web proxy
- Turning the firewall into a makeshift proxy in case the Zscaler cloud is down - ---Answers---Automatically detecting web traffic (e.g., FTP, HTTPS) coming in on non-standard ports and forwarding it to Zscaler's proxy

What is the best practice for a cloud-gen firewall in terms of having default rules?

Options:

- Block everything and start allowing what your users need to access
- Allow all, even risky ports and protocols

Cost Effective ZDTA Dumps, ZDTA Reliable Source

We provide free update to the client and the discounts to the old client. We provide free update of our ZDTA exam materials within one year and after one year the client can enjoy the 50% discounts. The old clients enjoy some certain discounts when they buy our ZDTA exam torrent. Our experts check whether there is the update of the test bank every day and if there is the system will send to the client automatically. We choose the most typical questions and answers which seize the focus and important information and the questions and answers are based on the real exam. So you can master the most important ZDTA Exam Torrent in the shortest time and finally pass the exam successfully.

Zscaler Digital Transformation Administrator Sample Questions (Q21-Q26):

NEW QUESTION # 21

An organization has more than one ZIA instance, each on different clouds. The organization is using the same login domain for both and upon login users are given this menu in ZCC asking which cloud they would like to join. What steps could an Administrator take to avoid having this menu appear?

- A. Customize an MSI version of the ZCC file specifying the CLOUDNAME variable.
- B. Federate the login domain between two different IDP instances.
- C. Customize an MSI version of the ZCC file specifying the USERDOMAIN variable.
- D. Create only one SAML integration with the desired ZIA instance.

Answer: A

Explanation:

To avoid prompting users with a cloud selection menu in the Zscaler Client Connector (ZCC), administrators should customize the MSI installation package with the CLOUDNAME parameter. This setting ensures the ZCC automatically connects to the correct ZIA cloud instance without user intervention. The CLOUDNAME corresponds to the designated cloud name for the organization's ZIA tenant, effectively bypassing the prompt. This is outlined under Zscaler's deployment and configuration instructions for ZCC. Reference: Zscaler Digital Transformation Study Guide - Zscaler Internet Access (ZIA) > Deployment

NEW QUESTION # 22

What does Zscaler Advanced Firewall support that Zscaler Standard Firewall does not?

- A. DNS Dashboards, Insights and Logs
- B. DNS Tunnel and DNS Application Control
- C. FQDN Filtering with wildcard
- D. Destination NAT

Answer: B

Explanation:

Zscaler Advanced Firewall supports DNS Tunnel and DNS Application Control, capabilities that are not available in the Standard Firewall. This enhances detection and control of DNS-based threats and allows granular enforcement over DNS queries and responses to prevent data exfiltration and command and control activities.

NEW QUESTION # 23

What ports and protocols are forwarded to the Zero Trust Exchange when Zscaler Client Connector is using Tunnel 2.0?

- A. Any HTTP/HTTPS traffic as well as DNS.
- B. All Web ports as well as FTP and SSH.
- C. TCP ports 80, 443 and 8080 only.
- D. All TCP and UDP ports as well as ICMP traffic.

Answer: D

Explanation:

Zscaler Client Connector's Tunnel 2.0 uses a packet#filter based tunnel that encapsulates all IP traffic - both TCP and UDP on any port, plus ICMP - to the Zero Trust Exchange

NEW QUESTION # 24

Fundamental capabilities needed by other services within the Zscaler Zero Trust Exchange are provided by which of these?

- A. Digital Experience Monitoring
- **B. Platform Services**
- C. Cyber Security Services
- D. Access Control Services

Answer: B

Explanation:

Platform Services provide the fundamental capabilities needed by other services within the Zscaler Zero Trust Exchange. These services include core functions such as identity management, policy management, logging, reporting, and API integrations that underpin and support the other service modules.

The study guide clarifies that Platform Services form the backbone of the Zscaler Zero Trust Exchange, enabling seamless interoperability and foundational support for security and access services.

NEW QUESTION # 25

How does Zscaler Risk360 quantify risk?

- A. Time to mitigate each identified risk is totaled, averaged, and tracked to show ongoing trends.
- **B. A risk score is computed for each of the four stages of breach.**
- C. A risk score is computed based on the number of remediations needed compared to the industry peer average.
- D. The number of risk events is totaled by location and combined.

Answer: B

Explanation:

Zscaler Risk360 quantifies risk by computing a risk score that is based on the number of remediations needed in comparison to the industry peer average. This approach allows organizations to understand their relative security posture by evaluating how many issues require remediation and benchmarking that against peers in the industry. This methodology enables prioritized risk management and provides context around the urgency and scale of remediation activities necessary to reduce risk.

Unlike simply counting risk events or focusing on time to mitigate, Risk360 uses this comparative remediation-based scoring to give a comprehensive view of risk. It does not compute separate scores for each of the four breach stages but rather aggregates remediation efforts and benchmarks them to industry standards.

This is confirmed by the study guide's explanation of Risk360's scoring method, highlighting the use of remediation counts compared to peers as the basis for risk scoring.

NEW QUESTION # 26

.....

There is no doubt that having a ZDTA certificate is of great importance to our daily life and daily work, it can improve your comprehensive strength when you are seeking for a decent job or competing for an important position, mainly because with ZDTA Certification, you can totally highlight your resume and become more confident in front of your interviewers and competitors. In this case, our ZDTA question torrent can play a very important part in helping you achieve your dream.
