It includes the roles of investment dealers and financial intermediaries, capital market functions, financial instruments, and the complete Canadian regulatory environment with its regulatory bodies, principles of regulation, client remediation options, and ethical standards for financial services professionals.

CSI Canadian Securities Course Exam2 Sample Questions (Q82-Q87):

NEW QUESTION # 82

What is a key feature if index-linked GICs?

- A. They are currently regulated by National instrument 81-102.
- B. Redemptions can occur annually on the annual anniversary date.
- C. The guarantee a positive return regardless of market direction.
- D. They are insured by the CDIC**

Answer: D

Explanation:

Key Features of Index-Linked GICs:

* What Are Index-Linked GICs? Index-Linked Guaranteed Investment Certificates (GICs) are fixed-term investments where returns are tied to the performance of a specific index (e.g., S&P/TSX). They offer principal protection but do not guarantee a fixed return.

* Key Feature: CDIC Insurance A notable feature of index-linked GICs is that they are insured by the Canada Deposit Insurance Corporation (CDIC) up to the applicable limits, as they qualify as GICs under CDIC guidelines. This ensures the safety of the investor's principal.

Explanation of Each Option:

* Option A (They are currently regulated by National Instrument 81-102):

* Incorrect. Index-linked GICs are not regulated under National Instrument 81-102, which governs mutual funds and other securities,

not GICs.

* Option B (Redemptions can occur annually on the annual anniversary date):

* Incorrect. Index-linked GICs are typically non-redeemable before maturity unless specifically structured otherwise. Most index-linked GICs require investors to hold the investment until the end of the term.

* Option C (They guarantee a positive return regardless of market direction):

* Incorrect. While index-linked GICs guarantee the return of principal, they do not guarantee a positive return. If the linked index performs poorly, the return could be zero.

* Option D (They are insured by the CDIC):

* Correct. Index-linked GICs are covered by CDIC insurance up to its coverage limits, providing investors with principal protection even in the event of issuer default.

References to Canadian Securities Course Exam 2 Study Materials:

* Volume 2, Chapter 23 - Market-Linked Guaranteed Investment Certificates

* Discusses the structure, features, and benefits of index-linked GICs, including CDIC coverage.

* Volume 2, Chapter 17 - Overview of Managed Products

* Provides context on how GICs compare to other managed products.

NEW QUESTION # 83

What obligation does an IA have when communicating information about a preliminary prospectus to prospective investors?

- A. The IA must provide a greensheet
- B. The IA must make a tombstone advertisement.
- C. The IA must ensure 3 proxy is mailed to the investors to vote for approval or disapproval of the offering.
- D. The IA must record the names and addresses of those who have requested and received a preliminary prospectus

Answer: D

Explanation:

Investment advisors (IAs) are required to record the names and addresses of all individuals who have requested and received a preliminary prospectus. This ensures compliance with securities regulations and provides a record for follow-ups and potential disclosures related to the offering.

* A. The IA must ensure a proxy is mailed: Proxy voting is related to shareholder meetings, not the prospectus distribution.

* B. The IA must provide a greensheet: A greensheet is used internally by investment firms, not distributed to clients.

* C. The IA must make a tombstone advertisement: Tombstone advertisements are created by the issuer, not the IA.

NEW QUESTION # 84

Which investment account generally offers the least sophisticated products and has the lowest minimum requirement for investible assets?

- A. Robo-advisory.
- B. Separately managed.
- C. Non-model-based.
- D. Unified managed.

Answer: A

NEW QUESTION # 85

Jenny contributed \$5,000 each year for five years to a spousal RRSP in Albert's name. In the calendar year immediately following Jenny's last contribution, Albert withdrew \$25,000 from the RRSP. What are the tax implications of the withdrawal for Albert and Jenny?

- A. No effect on Jenny's taxable income and Albert includes \$25,000 in his taxable income.
- B. Albert includes \$10,000 in his taxable income and Jenny includes \$15,000 in her taxable income.
- C. Jenny includes \$25,000 in her taxable income and Albert includes \$0 in his taxable income.
- D. Jenny includes \$10,000 in her taxable income and Albert includes \$15,000 in his taxable income.

Answer: B

NEW QUESTION # 86

A bond with a duration of five is currently priced at \$103. If Interest rates rise by 2%. approximately what will be the bond's price?

- A. \$108.15
- B. \$113.30
- **C. \$97.85**
- D. \$92.70

Answer: C

Explanation:

The approximate price change of a bond due to a change in interest rates can be estimated using the formula:

Price Change (%) = Duration × Interest Rate
Price Change (%) = - Duration × Delta × Interest Rate

Given:

* Duration = 5

* Current Price = \$103

* Change in Interest Rate (Δ) = 2% or 0.02

Price Change (%) = $5 \times 0.02 = 0.10$ (%)
Price Change (%) = $-5 \times 0.02 = -0.10$ (%) The new price is calculated as:

New Price = Current Price × (1 + Price Change) = $103 \times (1 + 0.10) = 103 \times 0.90 = 97.85$
New Price = Current Price × (1 + Price Change) = $103 \times (1 - 0.10) = 103 \times 0.90 = 97.85$ New Price = Current Price × (1 + Price Change) = $103 \times (1 + 0.10) = 103 \times 0.90 = 97.85$

* A. \$108.15 and B. \$113.30: These represent price increases, which are incorrect for rising interest rates.

* D. \$92.70: This reflects a greater-than-actual price drop, which is inconsistent with the duration-based calculation.

Reference: CSC Volume 1, Chapter 7, "Duration as a Measure of Bond Price Volatility" explains how bond prices respond to interest rate changes.

NEW QUESTION # 87
