Valid CPRE-FL_Syll_3.0 New Dumps Pdf Offers Candidates High Pass-rate Actual ISQI IREB Certified Professional for Requirements Engineering. Foundation Level Exam Products

The meaning of qualifying examinations is, in some ways, to prove the candidate's ability to obtain CPRE-FL_Syll_3.0 qualifications that show your ability in various fields of expertise. If you choose our CPRE-FL_Syll_3.0 learning guide materials, you can create more unlimited value in the limited study time, learn more knowledge, and take the exam that you can take. Through qualifying CPRE-FL_Syll_3.0 examinations, this is our CPRE-FL_Syll_3.0 real questions and the common goal of every user, we are trustworthy helpers, so please don't miss such a good opportunity.

ISQI IREB Certified Professional for Requirements Engineering. Foundation Level Sample Questions (Q17-Q22):

NEW QUESTION # 17

Choose the correct sentence regarding the users of a system.

- A. All the other options are wrong.
- B. Internal users are inside the system while using it.
- C. External users are normally aware of the system being developed.
- D. Misusers are referred to as personas.

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Internal users are people within the developing or owning organization (employees, management, subcontractors), not literally "inside the system", so A is wrong. External users are customers or the public; often they are numerous, not individually identifiable and may not even know a system is being developed for them, so B is incorrect. Misusers are actors who intentionally try to misuse or attack the system (e.g., hackers); personas are fictional profiles representing typical user groups, so C confuses two distinct concepts. Therefore all given statements are incorrect, making D the right answer.

NEW QUESTION # 18

It is INCORRECT to say that:

- A. The stakeholders of a system are its main source of requirements.
- B. Even persons/organizations that do not have relevant relationships with the system are considered stakeholders.
- C. Opponents and competitors are examples of stakeholders.
- D. Developers and operators are examples of stakeholders.

Answer: B

NEW QUESTION # 19

Which definition best characterizes the term "traceability" in terms of requirements engineering? (2 Points)

- A. Level of stabilisation between the elicited and approved requirements
- B. Traceability of the requirements, along with the associated documents, from the requirements elicitation to the implementation
- C. Traceability of the effort for the elicitation of requirements, beginning with the elicitation of the documentation right to the point of requirements acceptance
- D. Ability to analyze requirements for contradictory content, especially between the requirements specifications and the test cases
- E. Monitoring of progress in requirements elicitation

Answer: B

NEW QUESTION # 20

In regard to configurations and baselines in RE, it is correct to say that:

- A. A configuration always has two dimensions: product and customer.
- B. A configuration should allow fallback to a previous configuration if undesired changes occur.
- C. Configurations do not have to be uniquely identified.

- D. A configuration should not be unchangeable.

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

A configuration is a defined set of work products (e.g., requirements versions) at a given point in time. It always has two dimensions: product and version, not customer (A incorrect), and each configuration must have a unique identification to be referenced in change management (B false). Within a specific configuration, chosen versions are fixed; further changes create a new configuration rather than altering the existing one, so C is wrong. A key purpose is to provide a stable basis for reset: the ability to revert to a known configuration if later changes cause problems. Thus, D is correct.

NEW QUESTION # 21

A linear, explorative and customer-specific RE process is called:

- A. Participatory RE Process
- **B. All the other options are wrong.**
- C. Product-Oriented RE Process
- D. Contractual RE Process

Answer: B

NEW QUESTION # 22

.....

Our CPRE-FL_Syll_3.0 practice materials can be understood with precise content for your information, which will remedy your previous faults and wrong thinking of knowledge needed in this exam. As a result, many customers get manifest improvement and lighten their load by using our CPRE-FL_Syll_3.0 Actual Exam. It is well-known that our CPRE-FL_Syll_3.0 study guide can save a lot of time and effort. And with the simplified content of our CPRE-FL_Syll_3.0 practice questions, you can have a wonderful study experience as well.

CPRE-FL_Syll_3.0 New Braindumps Files: https://www.actual4test.com/CPRE-FL_Syll_3.0_examcollection.html
