## High-quality Exam ASET-Ethics-Examination Pass Guide Spend Your Little Time and Energy to Pass ASET-Ethics-Examination: ASET Ethics Examination-ASET Professional Practice Exam (PPE) exam

Dumpcollection keeps an eye on changes in the ASET ASET Ethics Examination-ASET Professional Practice Exam (PPE) exam syllabus and updates ASET ASET-Ethics-Examination exam dumps accordingly to make sure they are relevant to the latest exam topics. After making the payment for ASET ASET-Ethics-Examination dumps questions you'll be able to get free updates for up to 90 days. Another thing you will get from using the ASET-Ethics-Examination Exam study material is free to support. If you encounter any problem while using the ASET-Ethics-Examination prep material, you have nothing to worry about. The solution is closer to you than you can imagine, just contact the support team and continue enjoying your study with the ASET Ethics Examination-ASET Professional Practice Exam (PPE) preparation material.

## ASET Ethics Examination-ASET Professional Practice Exam (PPE) Sample Questions (Q65-Q70):

### NEW QUESTION # 65

One regulated member confides to another regulated member that he misrepresented himself on his resume to his present employer. In that resume, he asserted that he had been employed overseas for the last 12 months, when in fact he was unemployed. Which of the following statements best describes what, if anything, the other regulated member should do with this information?

- A. Encourage the member to be honest with the employer and, if the member does not comply, report the member to the employer.
- B. Ignore the information as any action could hurt the reputation of the member.
- C. Talk to the member directly and encourage the member to be honest with the employer.
- D. Encourage the member to be honest with the employer and, if the member does not comply, report the member to ASET.

**Answer: D**

Explanation:

The ASET Code of Ethics requires members to report hazardous, illegal, or unethical professional decisions or practices. Misrepresenting one's qualifications or employment history on a resume is a severe breach of professional integrity and constitutes unethical conduct, as it deceives the employer and potentially puts the public at risk if the individual lacks the required experience for a technical role. However, ethical guidelines generally encourage allowing the offending party the opportunity to correct their mistake first. The observing member should confront the colleague, explaining the ethical violation and strongly encouraging them to confess the misrepresentation to their employer. If the colleague refuses to take responsibility and correct the deception, the observing member has a paramount duty to protect the integrity of the profession. In this scenario, the correct escalation path is to report the unethical conduct to the professional regulatory body, ASET, rather than directly interfering with the employer. ASET has the legal authority and disciplinary mandate to investigate and penalize members for unethical behavior.

#### **NEW QUESTION # 66**

How many days does a rejected applicant have to submit a notice of appeal on the ASET Registrar?

- A. 10 days
- B. 15 days
- **C. 30 days**
- D. 60 days

**Answer: C**

Explanation:

Administrative fairness and natural justice are core tenets of the regulatory framework established by the Engineering and Geoscience Professions Act (EGPA). When an applicant applies for a protected designation (such as C.Tech. or C.E.T.) and the Board of Examiners rejects their application—perhaps due to insufficient experience or academic deficiencies—the applicant has the legal right to challenge that decision. However, this right is governed by strict statutory timelines to ensure administrative efficiency and finality. According to the legislation, a rejected applicant must serve a formal, written notice of appeal on the ASET Registrar within 30 days from the date they receive the official notice of rejection. If the applicant fails to submit their appeal within this 30-day window, the decision of the Board of Examiners becomes final and binding, and the applicant forfeits their right to have the decision reviewed by the Appeal Board during that application cycle.

#### **NEW QUESTION # 67**

Which of the following statements defines "continuing professional development"?

- A. Mentoring younger or new colleagues in the workplace
- B. Taking courses regularly to maintain technical proficiency
- C. Working towards a promotion at the place of employment
- **D. Maintaining competence through ongoing skill and knowledge development**

**Answer: D**

Explanation:

Continuing Professional Development (CPD) is a mandatory, statutory requirement for all ASET regulated members, fundamentally tied to the mandate of protecting the public. The most accurate, encompassing definition of CPD is the systematic maintenance, improvement, and broadening of knowledge and skills throughout a professional's career. Therefore, "Maintaining competence through ongoing skill and knowledge development" (Option D) is the correct definition. While taking formal courses (Option B) and mentoring younger colleagues (Option A) are excellent, specific examples of activities that qualify for CPD credits, they do not define the entire program, as CPD is highly flexible and includes self-directed study, attending conferences, and active professional practice. The ultimate goal of CPD is not to secure a promotion (Option C) or purely academic achievement, but to ensure that the technologist remains fully competent to practice safely in an ever-evolving technological landscape, thereby protecting the public from obsolete and unsafe engineering practices.

#### **NEW QUESTION # 68**

Which of the following statements describes the ASET Continuing Professional Development Program?

- **A. ASET members must design their own professional development plan and activities.**

- B. ASET members must earn a set amount of professional development points.
- C. ASET members must take a set amount of professional development courses.
- D. ASET members must accumulate a set amount of professional development hours.

**Answer: A**

Explanation:

The ASET Continuing Professional Development (CPD) program is designed with the recognition that the fields of engineering and applied science technology are incredibly diverse. Therefore, a rigid, one-size-fits-all approach (like mandating specific courses or a strict points system) is ineffective. Instead, ASET requires that regulated members take personal responsibility for their ongoing competency by designing their own professional development plan and activities. Members are expected to critically evaluate their own specific scope of practice, identify areas where their knowledge needs updating, and select relevant activities—such as formal coursework, self-directed study, attending seminars, or mentoring—that directly enhance their professional skills. While ASET does provide a tracking log and conducts audits to ensure compliance, the core philosophy of the program is self-direction. This empowers professionals to tailor their learning directly to the technologies and regulations most pertinent to their daily work, thereby ensuring they remain fully competent to protect the public in their specific niche.

#### **NEW QUESTION # 69**

A regulated member of ASET becomes aware of serious deficiencies in a water treatment plant that may have resulted in harmful chemicals contaminating the local water supply. The member provides a report to the supervisor responsible for the treatment plant recommending immediate action to ensure the safety of the drinking water. The supervisor indicates that immediate action will be taken, but after several weeks and regular reminders from the member, nothing has been done to correct the deficiencies. Which of the following actions is the next step the member should take in this situation?

- A. Wait another week to see if the supervisor corrects the deficiencies.
- B. Anonymously leak information about the potential health crisis to the public.
- C. Report the company to the regulatory authorities.
- **D. Take the issue to upper management to attempt immediate resolution.**

**Answer: D**

Explanation:

The contamination of a public water supply represents a severe, immediate threat to the paramount duty of an ASET member: the protection of public health and safety. Because the immediate supervisor has proven negligent and failed to act despite repeated warnings, the member can no longer rely on them. Waiting another week (Option A) is unethical as it allows public poisoning to continue. However, professional escalation requires utilizing internal mechanisms before external "whistleblowing." Leaking anonymously to the public (Option B) is unprofessional and can cause panic without ensuring a technical fix. Reporting the company directly to external authorities (Option C) is the ultimate backstop, but it bypasses the corporate entity's right to correct rogue management. The ethically correct next step is to immediately escalate the issue internally to upper management or the corporate directors. This alerts the highest level of authority in the organization, giving them the chance to override the negligent supervisor, fix the water plant, and legally report the incident themselves.

Here is the ninth batch of 10 questions (Questions 91 to 100), carefully reviewed, corrected, and formatted with comprehensive explanations based on the ASET Code of Ethics, the Engineering and Geoscience Professions Act (EGPA), and Canadian professional practice and legal standards.

#### **NEW QUESTION # 70**

.....

Once you have decided to purchase our ASET-Ethics-Examination study materials, you can add it to your cart. Then just click to buy and pay for the certain money. When the interface displays that you have successfully paid for our ASET-Ethics-Examination study materials, our specific online sales workers will soon deal with your orders. You will receive the ASET-Ethics-Examination study materials no later than ten minutes. You need to ensure that you have written down the correct email address. Please check it carefully. If you need the invoice, please contact our online workers. They will send you an electronic invoice, which is convenient. You can download the electronic invoice of the ASET-Ethics-Examination Study Materials and reserve it.
