So you have no need to trouble about our CDT study materials, if you have any questions, we will instantly response to you. Our CDT Training Materials will continue to pursue our passion for better performance and comprehensive service of CDT exam.

Construction Specifications Institute Construction Documents Technologist Sample Questions (Q20-Q25):

NEW QUESTION # 20

When do negotiations take the place of bidding?

- A. When the owner and contractor have established a level of trust.
- **B. When exact quantities of work cannot be determined.**
- C. When a publicly funded project's lowest bid exceeds the budget.
- D. When the contractor has defaulted on insurance premiums.

Answer: B

NEW QUESTION # 21

Where are the limits of the work of each alternate defined?

- A. Agreement
- B. Bid Form
- C. Division 01
- **D. Sections in Divisions 02-49**

Answer: D

NEW QUESTION # 22

Under SectionFormat, where would warranty requirements be specified?

- A. Part 2
- B. Part 3
- **C. Part 1**
- D. Division 01

Answer: C

Explanation:

CSI's SectionFormat organizes every specification section into three Parts:

- * Part 1 - GENERAL
- * Part 2 - PRODUCTS
- * Part 3 - EXECUTION

Part 1 is defined as covering administrative, procedural, and temporary requirements that are unique to the section and that extend or amplify the project-wide requirements in Division 01.

A key application of this is how warranties are handled:

* The CSI-based SectionFormat guidance (as summarized in Construction Specifier) states that warranties are to be treated as Part 1 items:

- * Warranty submittals should be listed under the "Closeout Submittals" article in Part 1 - General.
- * The specific requirements for special or extended warranties are to be written in a "Warranty" article, which is typically the last article in Part 1 - General of the section.

So, within the structure of a single specification section under SectionFormat:

- * Part 1 - General # where warranty requirements are stated (administrative and procedural aspects, including required submittals and warranty scope/duration).
- * Part 2 - Products # describes materials, systems, equipment, and quality levels.
- * Part 3 - Execution # describes installation, application, and field quality control.

Division 01 (Option A) does contain overall project warranty requirements, but the question is specifically about SectionFormat, which applies to parts within a section, not to divisions. So the correct place within SectionFormat is:

* Part 1 - General # Option B

Core CSI-aligned references for this question (no URLs):

- * CSI SectionFormat (three-part section structure: General, Products, Execution).
- * "What's Warranted? - Specifying Warranties in Construction Documents," The Construction Specifier (summarizes SectionFormat's treatment of warranty articles).
- * "Format for Construction Specifications (Missouri Standard Specification Format)" - describes three- part CSI-based section structure.

NEW QUESTION # 23

Under SectionFormat, where would warranty requirements be specified?

- A. Part 2
- B. Part 3
- **C. Part 1**
- D. Division 01

Answer: C

NEW QUESTION # 24

Which of the following is a format that standardizes the way text is arranged in specification pages so that it is best suited for easy reading and rapid reference?

- A. UniFormat
- B. PageFormat
- C. MasterFormat
- **D. SectionFormat**

Answer: D

NEW QUESTION # 25

.....
