Free PDF Oracle - 1z1-076 Latest Latest Mock Exam

Our products are designed by a lot of experts and professors in different area, our 1z1-076 exam questions can promise twenty to thirty hours for preparing for the exam. If you decide to buy our 1z1-076 test guide, which means you just need to spend twenty to thirty hours before you take your exam. By our 1z1-076 Exam Questions, you will spend less time on preparing for exam, which means you will have more spare time to do other thing. So do not hesitate and buy our Oracle Database 19c: Data Guard Administration guide torrent.

We strongly advise you to buy our windows software of the 1z1-076 study materials, which can simulate the real test environment. There is no doubt that you will never feel bored on learning our 1z1-076 practice materials because of the smooth operation. You will find that learning is becoming interesting and easy. During the operation of the 1z1-076 Study Materials on your computers, the running systems of the 1z1-076 study guide will be flexible, which saves you a lot of troubles and help you concentrate on study.

Free PDF Quiz 2026 Oracle Perfect Latest 1z1-076 Mock Exam

The PrepAwayPDF Oracle 1z1-076 PDF questions file, desktop practice test software, and web-based practice test software, all these three Oracle 1z1-076 practice test questions formats are ready for instant download. Just download any Oracle 1z1-076 Exam Questions format and start this journey with confidence. Best of luck with exams and your career!!!

Oracle Database 19c: Data Guard Administration Sample Questions (Q100-

Q105):

NEW QUESTION # 100

Which THREE steps are prerequisites for the creation of a physical standby database on a separate server using the RMAN active database duplication method?

- A. Set the DB_UNIQUE_NAME parameter on the primary database to a different value than that of the DB_NAME name parameter.
- B. Put the primary database into archivelog mode.
- C. Configure Oracle Net connectivity on the primary host to the standby database instance.
- D. startup nomount the standby database instance.
- E. Establish user equivalence for the database software owner between the primary host and standby host.

Answer: C,D,E

Explanation:
Creating a physical standby database using RMAN active database duplication requires certain prerequisites to ensure a successful and seamless operation:
* Configure Oracle Net connectivity on the primary host to the standby database instance (A):
* Proper Oracle Net connectivity between the primary and standby servers is essential for communication and data transfer during the duplication process. Oracle Net services provide the network foundation for Oracle Database, Oracle Net Listener, and Oracle applications.
* Establish user equivalence for the database software owner between the primary host and standby host (B): User equivalence ensures that the user who owns the Oracle Database software on the primary server has the same privileges on the standby server. This is crucial for RMAN to perform operations on both servers without encountering permission issues.
* Startup nomount the standby database instance (C): The standby database instance needs to be started in the NOMOUNT stage before the duplication can begin. This prepares the environment for creating the control file and restoring the database without mounting it, which is a necessary step in the RMAN duplication process.References:

NEW QUESTION # 101

Which THREE statements are true........ open in real time query mode, which becomes a new.

- A. All current buffers can be retained.
- B. Sessions that are using database links
- C. User sessions can be retained.
- D. User sessions and Current Buffers are maintained by default.
- E. All sessions are disconnected and all
- F. Sessions that have long running queries can be retained.

Answer: A,C,E

Explanation:
When a physical standby database is opened in real-time query mode, which may be referred to as real-time apply when using Active Data Guard, certain operations can disrupt ongoing sessions. However, with features like Application Continuity and the proper configuration of initialization parameters such as STANDBY_DB_PRESERVE_STATES, user sessions and current buffers may be preserved during role transitions such as a switchover or failover. Specifically, the STANDBY_DB_PRESERVE_STATES parameter can be set to preserve none, all, or only user sessions during such transitions. This ensures that in-flight transactions are not lost and that users do not experience disruptions during the role transitions of a physical standby database.

NEW QUESTION # 102

You are licensed to use Oracle Active Data Guard.
Which TWO statements are true after enabling block change tracking on a physical standby database?

- A. It starts the RVWR process on the physical standby database instance.
- B. It starts the CTWR process on the physical standby database instance.
- C. It allows fast incremental backups to be offloaded to a snapshot standby database, when the physical standby database is converted.
- D. It allows fast incremental backups to be taken on the primary database.
- E. It allows fast incremental backups to be offloaded to the physical standby database.
- F. It starts the CTWR process on the primary database instance.

Answer: A,E

Explanation:
Block change tracking is a feature that enhances the efficiency of incremental backups by recording changed blocks in a tracking file.
When used with Oracle Active Data Guard:
* It starts the RVWR process on the physical standby database instance (A): When block change tracking is enabled on a physical standby database, the Recovery Writer (RVWR) process is initiated.
This process is responsible for recording the changes to blocks in the block change tracking file, which is then used to optimize incremental backups.
* It allows fast incremental backups to be offloaded to the physical standby database (E): With block change tracking enabled on the physical standby database, fast incremental backups can be offloaded from the primary database. This reduces the workload on the primary database and utilizes the standby database for backup operations, improving overall system performance and efficiency.References:

NEW QUESTION # 103
Active Data Guard (ADG) databases are widely used to offload reporting or ad hoc query-only jobs from the primary database.
Reporting workload profile is different from the primary database and often requires tuning.
Which tool is used to tune SQL workloads running on an ADG database?

- A. In-Memory Active Session History (ASH)
- B. Automatic Workload Repository (AWR)
- C. Standby Statspack
- D. SQL Tuning Advisor
- E. Automatic Diagnostic Database Monitor (ADDM)

Answer: B

Explanation:
AWR collects, processes, and maintains performance statistics for problem detection and self-tuning purposes.
In an Active Data Guard environment, where the physical standby database can be used for read-only workloads, AWR can be instrumental in identifying performance bottlenecks and areas for optimization. It provides detailed reports that include wait events, time model statistics, and active session history, making it an invaluable tool for tuning SQL queries and overall database performance in an ADG setup.

NEW QUESTION # 104
Which TWO statements are true about Real-Time Query?

- A. Disabling Real-Time Query prevents the automatic start of redo apply when a physical standby databases opened read only.
- B. A standby database enabled for Real-Time Query cannot be the Fast-Start Failover target of the Data Guard configuration.
- C. Real-Time Query sessions can be connected to a Far Sync instance.
- D. Setting standby_max_data_delay=0 requires synchronous redo transport.
- E. Real-Time Query has no limitations regarding the protection level of the Data Guard environment.

Answer: A,D

Explanation:
Real-Time Query is a feature that allows queries to be run on a physical standby database while it is applying redo data. The relevant

truths about it are:

* Setting standby_max_data_delay=0 requires synchronous redo transport (A): For the real-time apply feature to function with no data delay (zero delay), synchronous redo transport must be used. This setting ensures that the data on the standby database is as current as possible before queries are executed against it.
* Disabling Real-Time Query prevents the automatic start of redo apply when a physical standby database is opened read-only (C): If Real-Time Query is disabled, opening the standby database in read-only mode will not start the redo apply process automatically. Redo apply needs to be manually started to synchronize the standby database with the primary.References:

NEW QUESTION # 105

......

We have always been known as the superior after sale service provider, since we all tend to take lead of the whole process after you choose our 1z1-076 exam questions. So you have no need to trouble about our 1z1-076 study guide, if you have any questions, we will instantly response to you. Our 1z1-076 Training Materials will continue to pursue our passion for better performance and comprehensive service of 1z1-076 exam.

Test 1z1-076 Collection: https://www.prepawaypdf.com/Oracle/1z1-076-practice-exam-dumps.html

Oracle Latest 1z1-076 Mock Exam You can get the download link and password within ten minutes after purchasing, therefore you can start your learning as quickly as possible, Oracle Latest 1z1-076 Mock Exam Unlimited Access Mega Packs Are Perfect For You, We offer 24/7 customer assisting to support you if you have any problem of purchasing or downloading the 1z1-076 exam dumps, There is no denying fact that 1z1-076 exam plays an important role in the road to one's success.

Querying User Membership in a Group, Users contend Test 1z1-076 Collection with all these things and more during the same stretch of time they try to deal with your application, You can get the download link and password 1z1-076 within ten minutes after purchasing, therefore you can start your learning as quickly as possible.

100% Pass 2026 Oracle 1z1-076 –Trustable Latest Mock Exam

Unlimited Access Mega Packs Are Perfect For You, We offer 24/7 customer assisting to support you if you have any problem of purchasing or downloading the 1z1-076 exam dumps.

There is no denying fact that 1z1-076 exam plays an important role in the road to one's success, And many of our cutomers use our 1z1-076 exam questions as their exam assistant and establish a long cooperation with us.
