USGBC LEED-Green-Associate Valid Test Vce: LEED Green Associate Exam - DumpsTests Best Provider

As sometimes new domains and topics are added to the DumpsTests LEED Green Associate Exam exam syllabus, you'll be able to get free updates of USGBC LEED-Green-Associate dumps for 365 days that cover all the latest exam topics. We provide customers instant access to all USGBC Exams Dumps right after making the payment. Our customer support team is available 24/7 to assist you with all your issues regarding USGBC LEED-Green-Associate Exam Preparation material.

USGBC LEED Green Associate Exam Sample Questions (Q106-Q111):

NEW QUESTION # 106

Which is an example of regenerative design?

- A. Passive house energy building
- **B. A building that generates electricity and sends the excess to the grid**
- C. A project that uses sustainable materials
- D. A building with a recycling program

Answer: B

Explanation:

Regenerative design is a type of design that goes beyond sustainability and aims to restore or enhance the natural systems that support life. Regenerative design projects not only minimize their environmental impact, but also contribute positively to the environment and society. An example of regenerative design is a building that generates electricity from renewable sources, such as solar panels or wind turbines, and sends the excess electricity to the grid, thereby reducing greenhouse gas emissions and supporting the transition to a clean energy economy.

NEW QUESTION # 107

The LEED credit weightings, in regard to the most important environmental impacts and human benefits, are based on impact categories defined and established by the

- A. American Society Of Heating, Refrigeration and Air-conditioning Engineers (ASHRAE)
- B. Sheet Metal and Air Conditioning Contractors National Association (SMACNA)
- C. U.S. Federal Government and Department of Energy (DOE)
- **D. U.S. Green Building Council (USGBC)**

Answer: D

Explanation:

Explanation

The LEED credit weightings are based on the impact categories defined and established by the USGBC, which is the organization that developed and administers the LEED rating system. The impact categories are aligned with the USGBC's mission and vision of transforming the built environment to enhance environmental and human health. The impact categories are also informed by the Environmental Protection Agency's (EPA) Tools for the Reduction and Assessment of Chemical and Other Environmental Impacts (TRACI) methodology, which provides a framework for assessing environmental impacts across different categories. NEW QUESTION # 108

Which of the following interior items contributes to a comfortable acoustic environment?

- A. Glass cubicle partitions
- B. Hollow metal doors
- **C. Soft surfaces**
- D. Wood cabinets

Answer: C

Explanation:

Soft surfaces contribute to a comfortable acoustic environment by absorbing sound waves and reducing noise levels. This can include items such as carpets, upholstered furniture, and acoustic ceiling tiles. In contrast, hard surfaces (like wood cabinets, hollow metal doors, or glass partitions) can reflect sound waves and increase noise levels. References: LEED Green Associate Candidate Handbook, U.S. Green Building Council resources

NEW QUESTION # 109

Who is the most responsible for monitoring ongoing energy performance over the life of the building?

- A. Contractor
- B. LEED AP
- C. Facility Manager
- D. Commissioning (Cx) Agent

Answer: C

NEW QUESTION # 110

The purpose of a life-cycle assessment in LEED is to evaluate the potential:

- A. Human impacts of a material through its life-cycle
- B. Safety impacts of a material through its life-cycle
- C. Cost impacts of a building through its life-cycle
- D. Environmental impacts of a building through its life-cycle

Answer: D

Explanation:

LEED defines Life Cycle Assessment (LCA) as:

"Life Cycle Assessment (LCA) analyzes the environmental impacts of a service, material or product through its entire life cycle." This makes LCA distinct from Life Cycle Costing (LCC), which evaluates economic impact.

NEW QUESTION # 111

.....

By devoting in this area so many years, we are omnipotent to solve the problems about the LEED-Green-Associate actual exam with stalwart confidence. If you fail the LEED-Green-Associate exam by accident even if getting our LEED-Green-Associate practice materials, you can provide your report card and get full refund as well as choose other version of LEED-Green-Associate practice materials by your decision. We provide services 24/7 with patient and enthusiastic staff. All moves are responsible due to your benefits.
